

ACKNOWLEDGEMENT

In the name of God Almighty, the writer praises and thanks for all His blessing and mercy, so that this thesis can be accomplished properly. This thesis was performed as one of the requirement to obtain the degree in *Sarjana Strata Satu Teknologi Pangan*. The title of this thesis is “THE EFFECT OF EXTRACTION TIME AND EXTRACTED GINGER CONCENTRATION IN GINGER ICE CREAM”.

This thesis can be finished well and in time because of the help and support of many parties. Therefore in this opportunity, the writer wants to give big gratitude for:

1. Beloved father (Liong Sin Tjoan), mother (Wong Vei Lan), brothers (Ridwan and Hermawant Laksana) who always give supports and prays.
2. Prof. Drh. Monang Manullang, MSc., PhD. as the Thesis Supervisor who gave time, guidance, and support during the research until this thesis can be accomplished well.
3. Natania, M.Eng as the Thesis Co-Supervisor who guided and directed the writer during the research until this thesis can be accomplished well.
4. Nuri Arum Anugrahati, MP as the Head of Food Technology Department.
5. Julia Ratna Wijaya, MappSc as the Deputy Head of Food Technology and as Academic advisor.
6. Mr. Tagor as the Head of Chemistry Laboratory, Ms Ratna as the Head of Research Laboratory, Ms. Mery as the Head of Quality Control Laboratory, Mr. Donny, Mr. Rudi, Mr. Yos, Mr. Anton, Ms. Putri, and other members of

Food Technology Department who always eased and helped the writer during the research.

7. Veronica, De'Fanny, Ricky Winata, Nanik, Ian Danarko as writer's best friends who fight together during this thesis and always give supports and helps.
8. All C class member of Food Technology 2006 for supporting each other during this research.
9. All people that have given a big contribution in accomplishing this thesis which cannot be mentioned one by one.

The writer also asks for an apology if there have been any mistakes in writing this thesis. Therefore, suggestions and critics will be useful for better research in the future. Hopefully, this thesis will give useful information to those who read this thesis.
