

## ACKNOWLEDGEMENTS

First and foremost, the author would like to thank God for the good health and wellbeing necessary for the completion of this thesis entitled “ANTIBACTERIAL ACTIVITY OF GUAVA LEAF (*Psidium guajava* L.) HARD CANDY ON UPPER RESPIRATORY TRACT INFECTION-CAUSING BACTERIA” This thesis was written based on research conducted from January 2020 to July 2020 in partial fulfillment of the academic requirements to obtain the degree *Sarjana Teknologi Pertanian Strata Satu*, Food Technology Study Program, Faculty of Science and Technology, Universitas Pelita Harapan, Tangerang.

The author acknowledges that this thesis would not have been brought to completion without the assistance, support, and encouragements from many parties. The author would therefore like to honor and show her sincere appreciation and gratitude to each of the following parties:

1. Mr. Eric Jobiliong, Ph.D., Dean of Faculty of Science and Technology.
2. Mrs. Dela Rosa, M.M., M.Sc., Apt., Vice Dean of Faculty of Science and Technology.
3. Mr. Laurence, S.T., M.T., Director of Administration and Student Affair of Faculty of Science and Technology.
4. Ir. W. Donald R. Pokatong, M.Sc., Ph.D., Head of Food Technology Study Program who approved of and supported the thesis.
5. Ms. Ratna Handayani, M.P., Deputy Head of Food Technology Study Program.
6. Ms. Yuniwaty Halim, M.Sc., the author’s thesis supervisor and Head of Quality Control and Research Laboratory, who dedicated time and effort in supervising, guiding, and providing constructive suggestions and encouragement until the thesis was brought to completion.
7. Dr. Adolf J. N. Parhusip, the Head of Microbiology Laboratory; Mr. Tagor M. Siregar, M.Si., Head of Chemistry Laboratory; and Mrs. Natania, M. Eng, Head

of Food Processing Laboratory for allowing the author to work in the laboratory.

8. Dr. Ir. Hardoko, M.S. and Ms. Lucia Soedirga, M.Sc. for guidance and insight on this research.
9. Mr. Alexander Kevin, S.T.P., Mr. Bryan Anders, S.T.P., Ms. Aileen Neysha Widyapranata, S.T.P., Mr. Deni, Mr. Regy Tahapary, Mr. Darius Wulakada, Mr. Ahmad Fauzi Ridwan, and Mr. Adih as the lab officers for the help, information, and directions during work in the laboratory.
10. Parents Maria Theresa Go and Wilson Yu Ng for the support throughout the entirety of the research period.
11. Raphael Dimas, Stefani Larissa, Theresa Melina Oetomo, and Amelya Sherry, the author's lab partners, who provided guidance, support, encouragement, and assistance throughout the duration of this research.
12. Ananda Mayang, Angelita Priscilla, Dita Kurniawan, and Hersasti Paningrum, fellow thesis students who worked alongside the author for their assistance and support during this research.
13. Jovinsky Tanzil, April Ibañez, Jhestine Anne Go, Nicolle Day, Jabelle Lim, and Chessca Lazara for the constant emotional support and encouragement.
14. Momo, for the unconditional love and support throughout the duration of this research.
15. All other parties, friends, and relatives who lent assistance, guidance, and emotional support during the course of this research.

Lastly, the author acknowledges that this report can be improved upon in many aspects and would therefore welcome suggestions and criticisms. The author also hopes that this report can be of beneficial use to readers. Thank you.

Tangerang, August 11<sup>th</sup>, 2020

(Ni-Hsi Day)

# TABLE OF CONTENTS

	page
COVER	
FINAL ASSIGNMENT STATEMENT AND UPLOAD AGREEMENT .....	
APPROVAL BY THESIS SUPERVISOR .....	
APPROVAL BY THESIS EXAMINATION COMMITTEE .....	
ABSTRACT .....	v
ACKNOWLEDGEMENTS .....	viii
TABLE OF CONTENTS .....	ix
LIST OF TABLES .....	x
LIST OF FIGURES .....	xii
LIST OF APPENDICES .....	xiii
CHAPTER I INTRODUCTION	
1.1 Background.....	1
1.2 Research Problem .....	3
1.3 Objectives .....	4
1.3.1 General Objectives .....	4
1.3.2 Specific Objectives.....	4
CHAPTER II LITERATURE REVIEW	
2.1 Guava Leaf ( <i>Psidium guajava</i> L.) .....	5
2.1.1 Antibacterial Activity of Guava Leaves .....	6
2.2 Lemongrass ( <i>Cymbopogon citratus</i> ) .....	7
2.3 Extraction Methods.....	9
2.3.1 Maceration .....	9
2.3.2 Sequential Extraction.....	10
2.4 Agar Well-Diffusion Method .....	11
2.5 Minimum Inhibitory Concentration (MIC) and Minimum Bactericidal Concentration (MBC).....	11
2.6 Upper Respiratory Tract Infection (URTI).....	12
2.6.1 <i>Streptococcus pyogenes</i> .....	13
2.6.2 <i>Pseudomonas aeruginosa</i> .....	14
2.7 Hard Candy .....	16
2.7.1 Hard Candy Composition.....	17
2.7.2 Hard Candy Processing .....	20
CHAPTER III RESEARCH METHODOLOGY	
3.1 Materials and Equipment.....	22
3.2 Research Method .....	23
3.2.1 Research Stage I .....	23
3.2.2 Research Stage II.....	26
3.3 Experimental Design .....	27
3.4 Analytical Procedures.....	29
3.4.1 Yield (Uthayarasa, 2010).....	29

3.4.2 Antibacterial Activity using Well-Diffusion Assay (Jeyaseelan <i>et al.</i> , 2012; Uthayarasa, 2010) .....	30
3.4.3 Phytochemical Analysis .....	32
3.4.4 Proximate Analysis.....	33
3.4.5 Physicochemical Analysis .....	34
3.4.6 Sensory Evaluation (Heymann and Lawless, 2010).....	35

#### CHAPTER IV RESULTS AND DISCUSSION

4.1 Yield of Guava Leaf Powder and Guava Leaf Extracts .....	37
4.2 Moisture Content of Guava Leaf and Guava Leaf Extracts	38
4.3 Phytochemical Analysis of Guava Leaf Extracts .....	39
4.3.1 Total Phenolic and Flavonoid Content of Guava Leaf Extracts .....	39
4.4 Antibacterial Activity of Guava Leaf Extracts .....	40
4.5 Effect of Guava Leaf Extract and Lemongrass Oil Concentration on Hard Candy Characteristics .....	43
4.5.1 Color Analysis of Guava Leaf Hard Candy .....	43
4.5.2 Texture Analysis of Guava Leaf Hard Candy .....	46
4.6 Antibacterial Activity of Guava Leaf Hard Candy .....	47
4.7 Sensory Evaluation of Guava Leaf Hard Candy .....	49
4.7.1 Sensory Evaluation on Color of Guava Leaf Hard Candy .....	49
4.7.2 Sensory Evaluation on Aroma of Guava Leaf Hard Candy.....	52
4.7.3 Sensory Evaluation on Taste of Guava Leaf Hard Candy .....	54
4.7.4 Sensory Evaluation on Texture of Guava Leaf Hard Candy.....	55
4.7.5 Sensory Evaluation on Aftertaste of Guava Leaf Hard Candy.....	56
4.7.6 Sensory Evaluation on Overall Acceptance of Guava Leaf Hard Candy .....	58
4.8 Determination of Best Formulation.....	59
4.8.1 Comparison of Best Formulation with Control.....	59

#### CHAPTER V CONCLUSIONS AND SUGGESTIONS

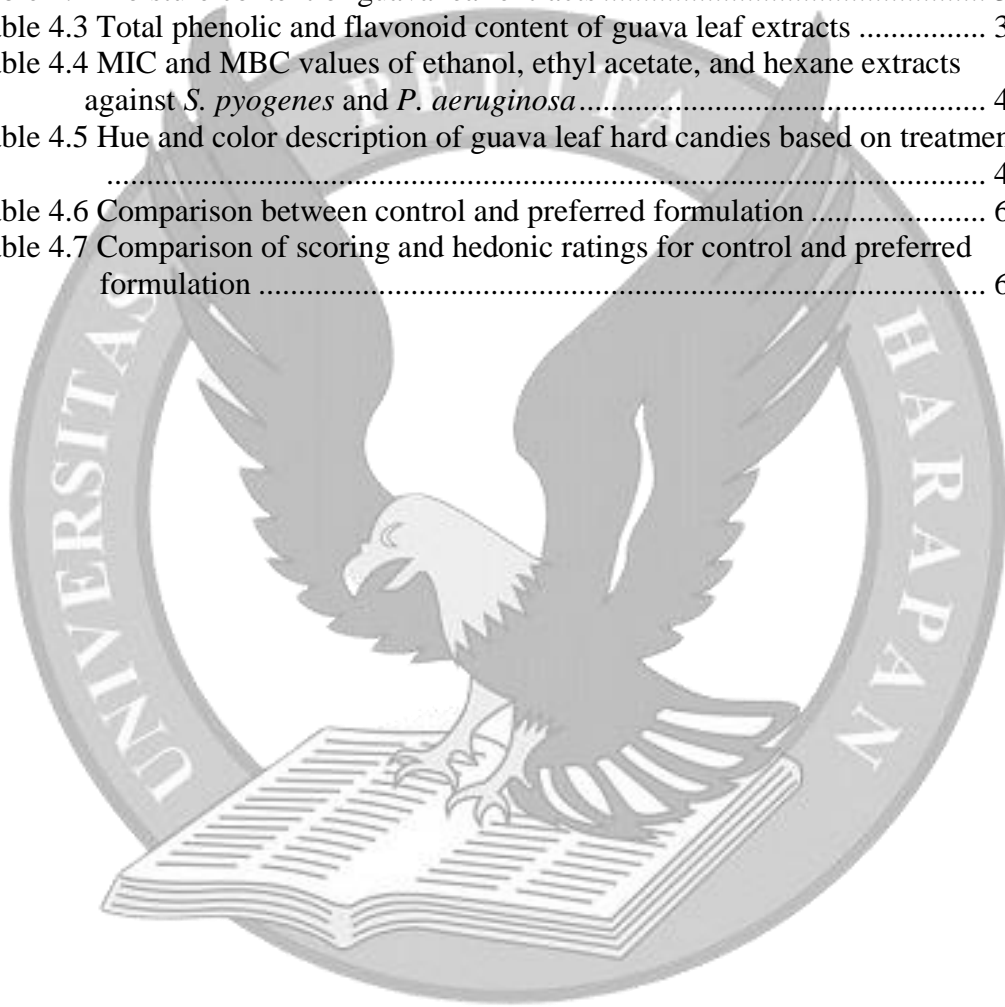

5.1 Conclusions .....	62
5.2 Suggestions .....	63

BIBLIOGRAPHY .....	64
--------------------	----

APPENDICES.....	70
-----------------	----

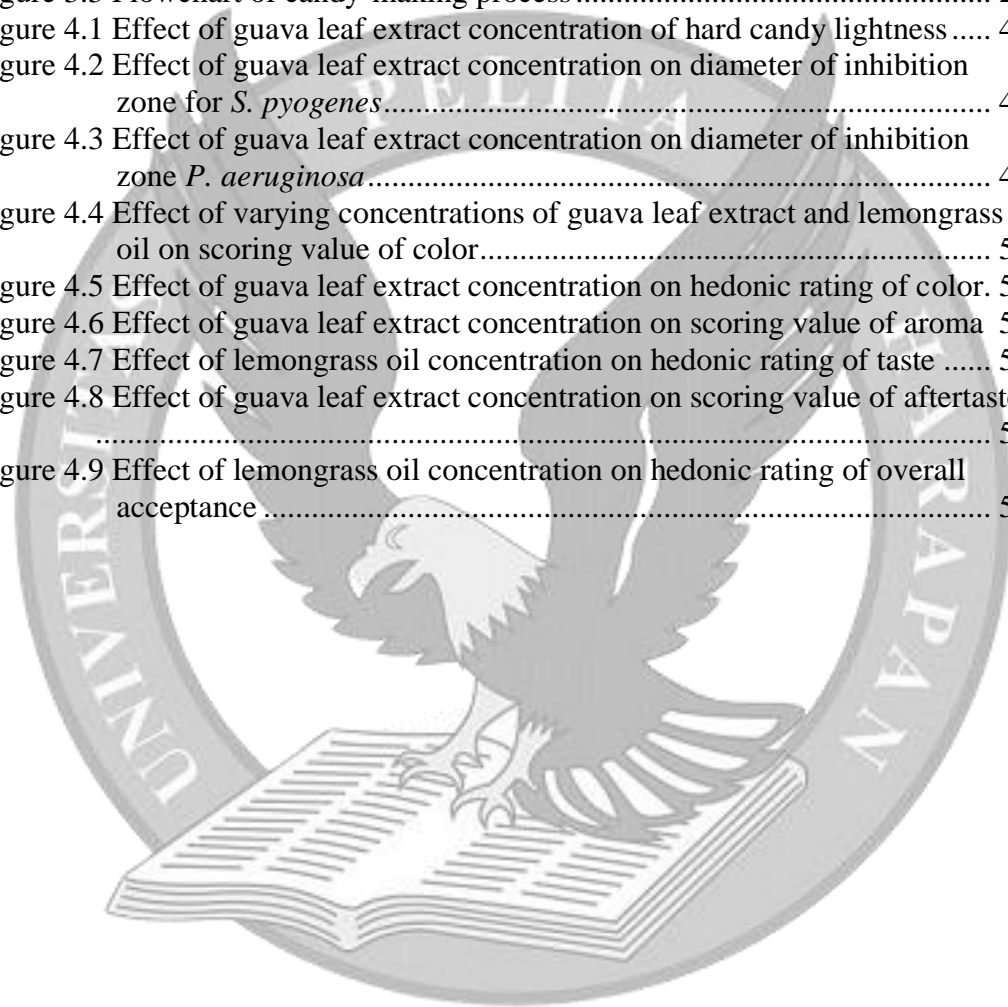

## LIST OF TABLES

Table 2.1 Typical compositions (in %) of completed hard candy .....	18
Table 3.1 Formulation of Hard Candy .....	26
Table 3.2 Experimental design of research stage II .....	28
Table 3.3 Color description of hue angle .....	35
Table 3.4 Sensory parameters for scoring test .....	36
Table 3.5 Seven-point hedonic scale.....	36
Table 4.1 Yield of guava leaf extracts.....	37
Table 4.2 Moisture content of guava leaf extracts .....	38
Table 4.3 Total phenolic and flavonoid content of guava leaf extracts .....	39
Table 4.4 MIC and MBC values of ethanol, ethyl acetate, and hexane extracts against <i>S. pyogenes</i> and <i>P. aeruginosa</i> .....	41
Table 4.5 Hue and color description of guava leaf hard candies based on treatment .....	45
Table 4.6 Comparison between control and preferred formulation .....	60
Table 4.7 Comparison of scoring and hedonic ratings for control and preferred formulation .....	61

## LIST OF FIGURES

Figure 2.1 Leaves and fruit of <i>Psidium guajava</i> .....	5
Figure 2.2 Graph for MIC determination .....	12
Figure 2.3 Microscope image of <i>S. pyogenes</i> .....	14
Figure 2.4 Microscope image of <i>P. aeruginosa</i> .....	16
Figure 2.5 Flowchart of basic candy production.....	21
Figure 3.1 Flowchart of guava leaf powder production .....	24
Figure 3.2 Flowchart of guava leaf extraction process .....	25
Figure 3.3 Flowchart of candy-making process .....	27
Figure 4.1 Effect of guava leaf extract concentration of hard candy lightness .....	44
Figure 4.2 Effect of guava leaf extract concentration on diameter of inhibition zone for <i>S. pyogenes</i> .....	48
Figure 4.3 Effect of guava leaf extract concentration on diameter of inhibition zone <i>P. aeruginosa</i> .....	48
Figure 4.4 Effect of varying concentrations of guava leaf extract and lemongrass oil on scoring value of color.....	50
Figure 4.5 Effect of guava leaf extract concentration on hedonic rating of color. ....	51
Figure 4.6 Effect of guava leaf extract concentration on scoring value of aroma .....	52
Figure 4.7 Effect of lemongrass oil concentration on hedonic rating of taste .....	55
Figure 4.8 Effect of guava leaf extract concentration on scoring value of aftertaste .....	57
Figure 4.9 Effect of lemongrass oil concentration on hedonic rating of overall acceptance .....	58

## LIST OF APPENDICES

Appendix A. Moisture Content and Yield of Guava Leaf Powder and Guava Leaf Extracts .....	A-1
Appendix B. Total Phenolic Content of Guava Leaf Extracts .....	B-1
Appendix C. Total Flavonoid Content of Guava Leaf Extracts .....	C-1
Appendix D. Calculations for MIC and MBC of Guava Leaf Extracts .....	D-1
Appendix E. Color Analysis of Guava Leaf Hard Candy .....	E-1
Appendix F. Texture Analysis of Guava Leaf Hard Candy .....	F-1
Appendix G. Antibacterial Analysis of Guava Leaf Hard Candy .....	G-1
Appendix H. Results of Sensory Evaluation .....	H-1
Appendix I. Control Hard Candy .....	I-1
Appendix J. Questionnaires for Sensory Evaluation .....	J-1
Appendix K. Documentation During Research .....	K-1
