

ACKNOWLEDGEMENTS

First and foremost, the author would like to thank God for the good health and wellbeing necessary for the completion of this thesis entitled “ANTIBACTERIAL ACTIVITY OF BETEL LEAF (*Piper betle* L.) JELLY CANDY ON *Streptococcus mutans*”. This thesis was written based on research conducted from January 2020 to July 2020 in partial fulfillment of the academic requirements to obtain the degree *Sarjana Teknologi Pertanian Strata Satu*, Food Technology Study Program, Faculty of Science and Technology, Universitas Pelita Harapan, Tangerang.

The author acknowledges that this thesis would not have been brought to completion without the assistance, support, and encouragements from many parties. The author would therefore like to honor and show her sincere appreciation and gratitude to each of the following parties:

1. Mr. Eric Jobiliong, Ph.D., Dean of Faculty of Science and Technology.
2. Mrs. Dela Rosa, M.M., M.Sc., Apt., Vice Dean of Faculty of Science and Technology.
3. Mr. Laurence, S.T., M.T., Director of Administration and Student Affair of Faculty of Science and Technology.
4. Ir. W. Donald R. Pokatong, M.Sc., Ph.D., Head of Food Technology Study Program who approved of and supported the thesis.
5. Ms. Ratna Handayani, M.P., Deputy Head of Food Technology Study Program.
6. Ms. Yuniwaty Halim, M.Sc., the author’s thesis supervisor and Head of Quality Control and Research Laboratory, for dedicated time and effort in supervising, guiding, and providing constructive suggestions and encouragement until the thesis was brought to completion.
7. Dr. Adolf J. N. Parhusip, the Head of Microbiology Laboratory; Mr. Tagor M. Siregar, M.Si., Head of Chemistry Laboratory; and Mrs. Natania, M.Eng., Head of Food Processing Laboratory for allowing the author to work in the laboratory.

8. Dr. Ir. Hardoko, M.S., and Ms. Lucia Soedirga, M.Sc., for guidance and insight on this research.
9. Mr. Alexander Kevin, S.T.P., Mr. Bryan Anders, S.T.P., Ms. Aileen Neysha Widyapranata, S.T.P., Mr. Deni, Mr. Regy Tahapary, Mr. Darius Wulakada, Mr. Ahmad Fauzi Ridwan and Mr. Adih as the lab officers for the help, information, and directions during work in the laboratory.
10. The author's dear family especially parents for the wholehearted support and prayers given to the author throughout the entirety of thesis period.
11. Nihsi Day and Raphael Dimas as classmates having the same supervisor as well as lab partners who provided guidance, support, encouragement, and assistance throughout the duration of this research.
12. Amelya Sherry, the author's lab partner who provided guidance, support, encouragement, assistance, and fun throughout the duration of this research.
13. Angelita Priscilla, Ananda Mayang, Dita Kurniawan, Hersasti Praningrum, and Theresa Melina Oetomo, fellow thesis students who worked alongside the author for their assistance and support during this research.
14. Angela Rebecca, Amanda L. Carla, Evelind P. Julista, Terezya Wijaya, Delvin Kho, Christian Hubert, Angelia Mulyani, Nadia Athalia, Bernard Changgy as author's friends for the constant emotional support and encouragement during the thesis period
15. All other parties, friends, and relatives who lent assistance, guidance, and emotional support during the course of this research.

Lastly, the author acknowledges that this report can be improved upon in many aspects and would therefore welcome suggestions and criticisms. The author also hopes that this report may be beneficial to readers.

Tangerang, August 10th, 2020

Stefani Larissa Sugianto

FINAL ASSIGNMENT STATEMENT AND UPLOAD AGGREEMENT	
APPROVAL BY THESIS SUPERVISOR	
APPROVAL BY THESIS EXAMINATION COMMITTEE	
ABSTRACT	v
ACKNOWLEDGEMENTS	vi
TABLE OF CONTENTS	viii
LIST OF FIGURES	xi
LIST OF TABLES	xii
LIST OF APPENDICES	xiii
CHAPTER I INTRODUCTION	1
1.1 Background	1
2.1 Research Problem	4
2.2 Objectives	4
2.2.1 General Objective	4
2.2.2 Specific Objectives	4
CHAPTER II LITERATURE REVIEW	6
3.1 Betel	6
3.2 Peppermint	9
3.3 Jelly candy	10
3.3.1 Composition of Jelly candy	10
3.3.1.1 Gelling substance	11
3.3.1.2 Sweeteners	11
3.3.2 Flavoring	12
3.3.3 Processing of Jelly candy	12
3.4 Oral disease	13
3.5 <i>Streptococcus mutans</i>	13
3.6 Growth Media	14
3.7 Extraction	15
3.8 Antimicrobial Activity	16
3.8.1 Minimum Inhibitory Concentration	17
3.8.2 Minimum Bactericidal Concentration	17
CHAPTER III RESEARCH METHODOLOGY	18
4.1 Material and Equipment	18
4.2 Research Method	19
4.2.1 Research Stage I	19
4.2.2 Research Stage II	22
4.3 Experimental Design	24
4.3.1 Research stage I	24

4.3.2	Research stage II.....	25
4.4	Analyses Procedures.....	27
4.4.1	Color Analysis of Betel Leaf Jelly Candy (Pathare <i>et al.</i> , 2013).....	28
4.4.1.1	Moisture Content (AOAC, 2005).....	29
4.4.2	Yield (Ali <i>et al.</i> , 2018).....	29
4.4.3	Texture Analysis.....	29
4.4.4	Microbiological Analysis	29
4.4.4.1	MIC and MBC (Valle <i>et al.</i> , 2016; Ali <i>et al.</i> , 2018; Bloomfield, 1991).....	30
4.4.5	Phytochemical Analysis	31
4.4.5.1	Total Flavonoid (Lamien-Meda <i>et al.</i> , 2012).....	31
4.4.5.2	Total Phenolic Content (Venkatachalam <i>et al.</i> , 2012).....	31
4.4.6	Sensory Evaluation of Piper Betel Jelly Candy (Aslani <i>et al.</i> , 2015; Lekahena, 2018)	32
CHAPTER IV RESULTS AND DISCUSSION.....		34
5.1	Characteristics of <i>Piper betle</i> L. Leaf.....	34
5.2	Yield of Powder and Extract	34
5.3	Phytochemical Analysis of Betel Leaf Extract.....	35
5.3.1	Effect of Extraction Solvent Towards Total Phenolic Content and Flavonoid Content of Betel Leaf Extract	35
5.3.2	Antibacterial Activity Determination of Betel Leaf Extract	38
5.4	Betel Leaf Jelly Candy	39
5.4.1	Antibacterial Activity of Betel Leaf Jelly Candy	40
5.4.2	Color Analysis on Betel Leaf Jelly Candy	42
5.4.3	Texture Analysis of Jelly Candy	44
5.4.4	Sensory Evaluation of <i>Piper betle</i> L. Jelly Candy.....	47
5.4.4.1	Effect of Betel Leaf Extract and Peppermint Essential Oil Concentration on Color	47
5.4.4.2	Effect of Betel Leaf Extract and Peppermint Essential Oil Concentration on Foreign Aroma.....	49
5.4.4.3	Effect of Betel Leaf Extract and Peppermint Essential Oil Concentration on Foreign Taste	50
5.4.4.4	Effect of Betel Leaf Extract and Peppermint Essential Oil Concentration on Texture.....	53
5.4.4.5	Effect of Betel Leaf Extract and Peppermint Essential Oil Concentration on Aftertaste	54

5.4.4.6	Effect of Betel Leaf Extract and Peppermint Essential Oil Concentration on Overall Acceptance.....	56
5.5	Best Formulation of Jelly Candy	58
5.6	Comparison to Control Jelly Candy	58
CHAPTER V CONCLUSIONS AND SUGGESTIONS.....		61
6.1	Conclusions	61
6.2	Suggestions.....	62
BIBLIOGRAPHY.....		63
APPENDICES.....		70

LIST OF APPENDICES

	page
Appendix A	
Powder Yield.....	A-1
Moisture Content of Leaf.....	A-1
Moisture Content of Extract.....	A-2
Yield of Betel Leaf Extracts.....	A-2
Appendix B	
Standard Curve for Total Phenolic Content.....	B-1
Total Phenolic Content of Hexane Extract.....	B-1
Total Phenolic Content of Ethyl Acetate Extract.....	B-2
Total Phenolic Content of Ethanol Extract.....	B-2
Data of Total Phenolic Content of <i>Piper betle</i> L. Extract.....	B-2
Statistical Analysis of Total Phenolic Content of <i>Piper betle</i> L. Extract.....	B-3
Appendix C	
Standard Curve for Total Flavonoid.....	C-1
Total Flavonoid Content of Hexane Extract.....	C-1
Total Flavonoid Content of Ethyl Acetate Extract.....	C-2
Total Flavonoid Content of Ethanol Extract.....	C-2
Average of Total Flavonoid Content of <i>Piper betle</i> L. Extract.....	C-2
Statistical Analysis of Total Flavonoid Content of <i>Piper betle</i> L. Extract.....	C-1
Appendix D	
Documentation on Antimicrobial Testing.....	D-1
Appendix E	
Clear Zone Data for Extract.....	E-1
Clear Zone Average.....	E-1
MIC and MBC of <i>Piper betle</i> L. Extract.....	E-1
Appendix F	
Data of Inhibition Zone for Candy.....	F-1
Average of Inhibition Zone for Candy.....	F-3
Statistical Analysis of Clear Zone for Candy.....	F-4

Appendix G

Candy L*a*b* Measurement	G-1
Average of Hue	G-2
Average of Lightness	G-3
Statistical Analysis of Lightness	G-3

Appendix H

Statistical Analysis of Scoring Test on Color	H-1
Statistical Analysis of Scoring Test on Aroma	H-2
Statistical Analysis of Scoring Test on Foreign Taste	H-2
Statistical Analysis of Scoring Test on Texture	H-4
Statistical Analysis of Scoring Test on Aftertaste	H-4

Appendix I

Statistical Analysis of Hedonic Evaluation on Color	I-1
Statistical Analysis of Hedonic Evaluation on Aroma	I-1
Statistical Analysis of Hedonic Evaluation on Foreign Taste	I-2
Statistical Analysis of Hedonic Evaluation on Texture	I-3
Statistical Analysis of Hedonic Evaluation on Aftertaste	I-3
Statistical Analysis of Hedonic Evaluation on Overall	I-4

Appendix J

Color Analysis of Control Jelly Candy	J-1
Sensory Analysis of Control Jelly Candy	J-1
Texture Analysis of Control Jelly Candy	J-1

Appendix K

Sensory Test Questionnaire	K-1
Hedonic Evaluation Questionnaire	K-1

Appendix L

TPA Result	L-1
Average of Springiness	L-3
Average of Cohesiveness	L-3
Average of Gumminess	L-3
Average of Chewiness	L-4
Statistical Analysis of Springiness	L-4
Statistical Analysis of Cohesiveness	L-5
Statistical Analysis of Gumminess	L-6
Statistical Analysis of Chewiness	L-8
Texture Analysis Graph	L-9
