

ACKNOWLEDGEMENT

All Praise and thanks be to The One Almighty God for all the blessings and His inclusion for enabling the writer to finish the thesis entitled “UTILIZATION OF KEY LIME (*Citrus x aurantiifolia*) AS SUBSTITUTE OF ACIDIC COAGULANT IN TOFU”.

This thesis was written based on the research conducted from January to July 2020. This thesis was written as the partial fulfilment of the academic requirement to obtain the degree of *Sarjana Teknologi Pertanian Strata Satu*, Food Technology Study Program, Faculty of Science and Technology, Universitas Pelita Harapan, Tangerang

This thesis and project may not be successfully completed without the help and support of certain parties; therefore, the writer would like to express gratitude to:

1. Ir. W. Donald. R. Pokatong, M.Sc., Ph.D., Head of Food Technology Study Program, as thesis supervisor who had given constructive advice, supervision, and suggestions during full thesis project period.
2. Eric Jobiliong, Ph.D. as Dean of Faculty of Science and Technology, Universitas Pelita Harapan.
3. Dela Rosa, M.M., M.Sc., Apt. as Vice Dean of Faculty of Science and Technology, Universitas Pelita Harapan.
4. Ratna Handayani, M.P. as Deputy Head of Food Technology Study Program for the guidance throughout the thesis project period.
5. Yuniwaty Halim, M.Sc. as the Head of Quality Control and Research Laboratory, Natania, M.Eng. as the Head of Food Processing Laboratory.
6. All other lecturers, lecturer's assistant, and staffs of Food Technology Study Program for the support and help during the thesis project period.
7. Bryan Anders, S.T.P., Aileen Neysha Widyapranata, S.T.P., Regy Tahapary, Darius Wulakda, Ahmad Fauzi Ridwan, and Adih for the help and information during the work in the laboratory.
8. Ghaius Ekaputra Liman, Priscilla Anderson, Alvin Pangjaya, and Patricia as partners on the same team for the support and help during the thesis period

9. Parents, Siblings, and family that always supports by providing advice, motivation, and help during the search of internship.
10. Eri Istharcahya Nikodemus, Marco Marcello, Raphael Dimas Trinugroho, Artiar Secakusuma, Issachar Mattathias Chow, Andrian Timothius Hasan, Ivan Budianto, Saverius Chandra, Christian Hubert, Delvin Kho as author's friend who have given help, advice, and support for the author during thesis period.
11. Every individual that has provide help and support during thesis period.

The writer realize that the full thesis still has flaws and is far from perfect so as for every critic and advice given by the reader is very important for the writer. The writer hopes this full thesis will be useful for the reader.

Tangerang, 11 August 2020

Armand Yahyapermana

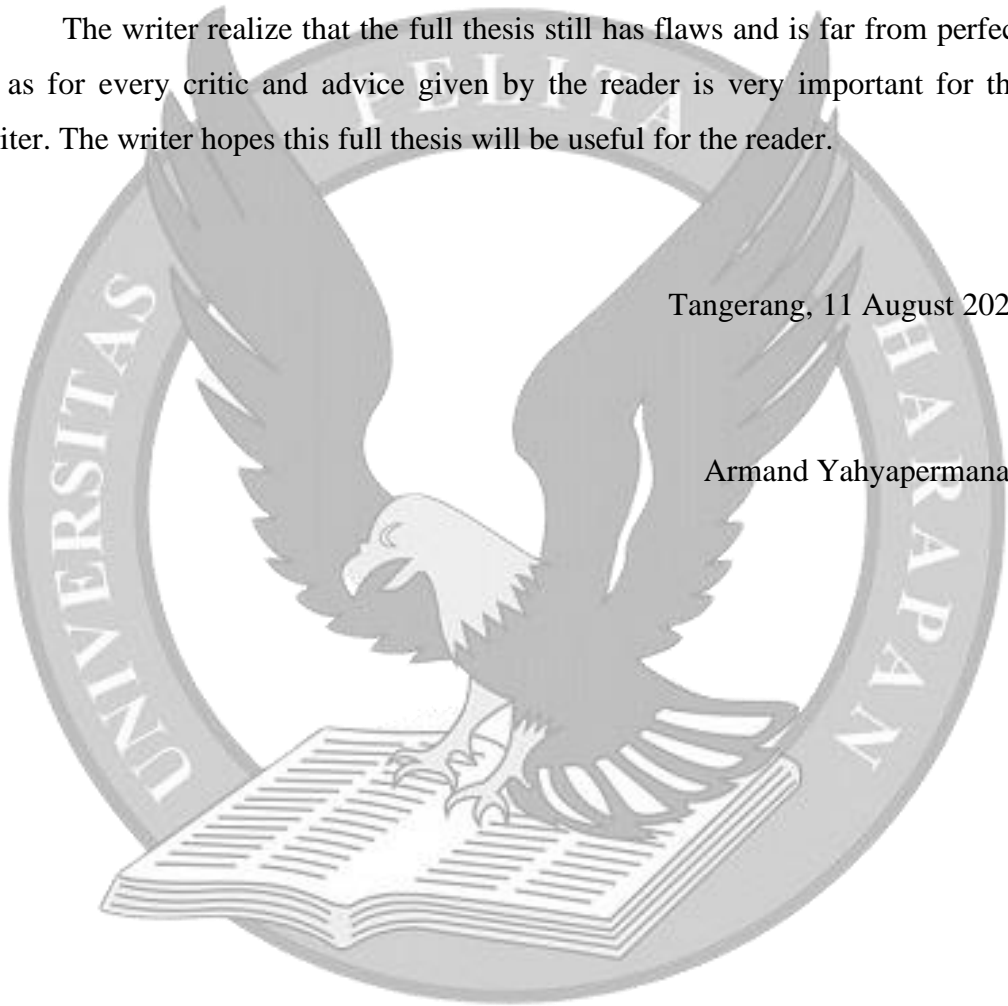

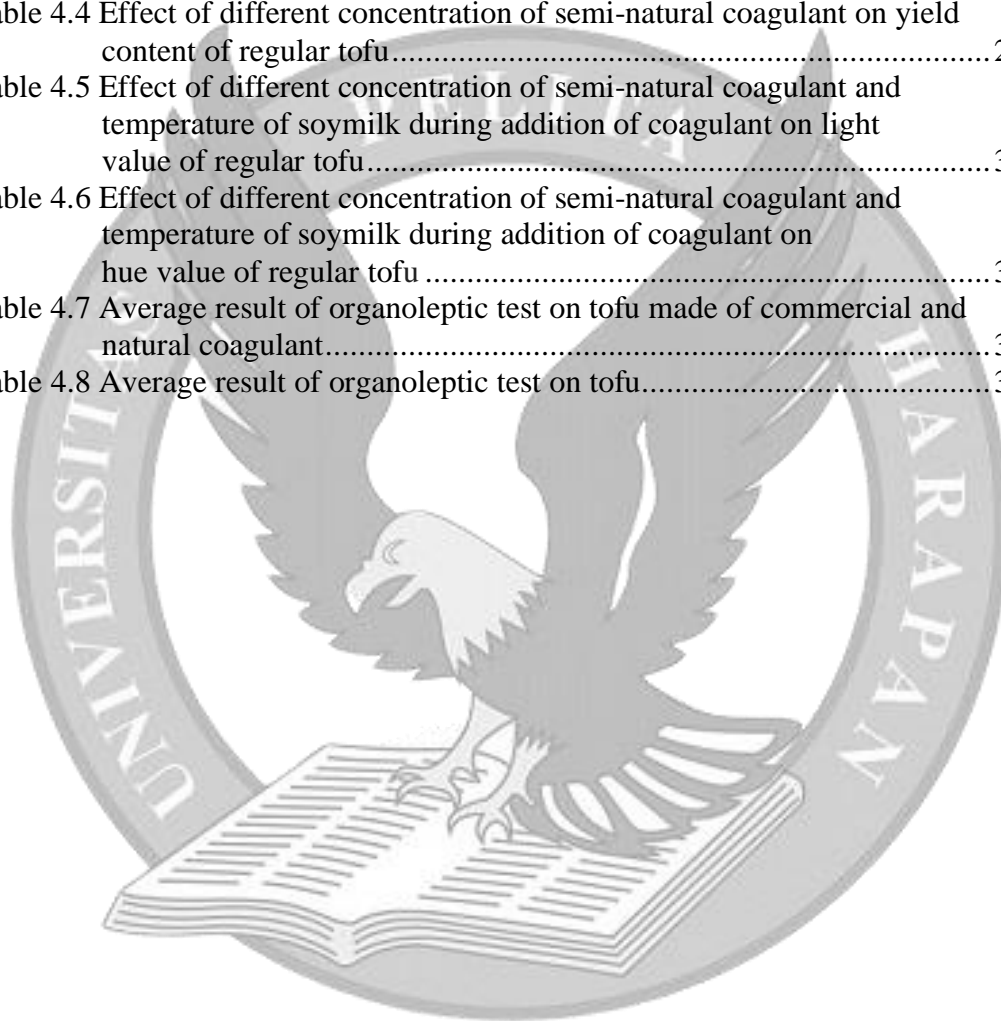

TABLE OF CONTENTS

COVER	
FINAL ASSIGNMENT STATEMENT AND UPLOAD AGREEMENT.....	
APPROVAL BY THESIS SUPERVISOR	
APPROVAL BY THESIS EXAMINATION COMMITTEE.....	
ABSTRACT	v
ACKNOWLEDGEMENTS	vi
TABLE OF CONTENTS	viii
LIST OF TABLES	x
LIST OF FIGURES	xi
LIST OF APPENDICES	xii
 CHAPTER I INTRODUCTION	
1.1 Background	1
1.2 Research Problem.....	2
1.3 Objectives.....	2
1.3.1 General Objectives	2
1.3.2 Specific Objectives.....	2
 CHAPTER II LITERATURE REVIEW	
2.1 Key Lime (<i>Citrus x aurantiifolia</i>)	3
2.2 Tofu.....	4
2.2.1 Raw Ingredients of Tofu	4
2.2.1.1 Soybean.....	5
2.2.1.2 Coagulant	6
2.3 Tofu Production Process	8
2.3.1 Soaking	9
2.3.2 Grinding	9
2.3.3 Heating.....	10
2.3.4 Soymilk Separation.....	10
2.3.5 Coagulation	11
2.4 Effect of each type of Coagulant.....	13
2.4.1 Nigari	13
2.4.2 Sulphate-Type Coagulant.....	14
2.4.3 GDL (Glucono-Delta Lactone)	15
2.4.4 Acidic Type Coagulant	15
 CHAPTER III RESEARCH METHODOLOGY	
3.1 Materials and Equipment	17
3.2 Main Research.....	17
3.2.1 Preparation of Natural Coagulant.....	17
3.2.2 Soymilk Preparation	18
3.2.3 Production of Tofu with Semi-Natural Coagulant	19
3.3 Analysis Procedure on the Characteristic of Tofu.....	20
3.3.1 Proximate Analysis.....	20
3.3.1.1 Moisture Content	20
3.3.1.2 Protein Content.....	20
3.3.1.3 Fat Content	21

3.3.2 Measurement of Acidity of Semi Natural Coagulant	22
3.3.3 Yield	22
3.3.4 Texture Analysis.....	22
3.3.5 Color Analysis.....	23
3.4 Experimental Design	23
3.4.1 Main Research Stage 1	23
 CHAPTER IV RESULTS AND DISCUSSION	
4.1 Determination of Acidity of Semi Natural Coagulant.....	26
4.2 Effect of different concentration and temperature of adding coagulant on chemical properties of tofu.....	26
4.2.1 Moisture Content.....	26
4.2.2 Protein Content.....	27
4.2.3 Fat Content.....	28
4.3 Effect of different concentration and temperature of adding coagulant on physical properties of tofu.....	29
4.3.1 Yield	29
4.3.2 Hardness.....	30
4.3.3 Springiness	30
4.3.4 Light Value.....	31
4.3.5 Hue Value	32
4.4 Selection of Best Treatment on Regular Tofu Production Based on Protein and Yield.....	32
4.5 Theoretical Discussion on Sensory Properties of Best Selected Treatment.....	33
4.5.1 Scoring Value.....	33
4.5.2 Hedonic Value.....	35
 CHAPTER V CONCLUSIONS	
5.1 Conclusions	39
5.2 Suggestions	39
BIBLIOGRAPHY	40
APPENDICES	43

LIST OF TABLES

Table 3.2.1 Formulation of natural coagulant	18
Table 3.2.3 Formulation of tofu production (Research) for each coagulant.....	20
Table 3.4.1 Experimental design of research for Key-Lime (Stage I).....	23
Table 4.1 Determination of Acidity of Semi Natural Coagulant.....	26
Table 4.2 Effect of different concentration of semi-natural coagulant and temperature of soymilk during addition of coagulant on moisture content of regular tofu	27
Table 4.3 Effect of different concentration of semi-natural coagulant on protein content of regular tofu.....	27
Table 4.4 Effect of different concentration of semi-natural coagulant on yield content of regular tofu.....	29
Table 4.5 Effect of different concentration of semi-natural coagulant and temperature of soymilk during addition of coagulant on light value of regular tofu.....	31
Table 4.6 Effect of different concentration of semi-natural coagulant and temperature of soymilk during addition of coagulant on hue value of regular tofu	32
Table 4.7 Average result of organoleptic test on tofu made of commercial and natural coagulant.....	35
Table 4.8 Average result of organoleptic test on tofu.....	37

LIST OF FIGURES

Figure 2.1 Momen/Regular tofu production process	8
Figure 3.1 Preparation of soymilk	18
Figure 3.2 Momen/regular tofu production schematic	19

LIST OF APPENDICES

Appendix A. Chemical Properties of Regular Tofu

A1. Determination of pH of Semi-Natural Coagulant	A-1
---	-----

Appendix B. Chemical Properties of Regular Tofu

B1. Moisture Content of Regular Tofu	B-1
B2. Protein Content of Regular Tofu	B-3
B3. Fat Content of Regular Tofu	B-5

Appendix C. Physical Properties of Regular Tofu

C1. Total Yield of Regular Tofu	C-1
C2. Hardness of Regular Tofu	C-3
C3. Springiness of Regular Tofu	C-4
C4. Lightness Value of Regular Tofu	C-5
C5. Hue Value of Regular Tofu	C-6
