

## ACKNOWLEDGEMENTS

The author would first and foremost thank Lord Jesus Christ for the unlimited blessing which has been granted to the author, that the thesis report for “UTILIZATION OF GUAVA LEAVES (*Psidium guajava* L.) IN THE MAKING OF JELLY” can be completed well in a timely manner.

This thesis report is written based on the research which has been conducted from February 2020 to July 2020. The thesis research is the final compulsory requirement for students in the Food Technology Study Program, Faculty of Science and Technology, Universitas Pelita Harapan. This thesis research has also been beneficial for the author, as a means through which the obtained knowledge may be applied and also as a new experience which the author has not had during class learning activities.

In the process of writing this thesis report, the author was supported by many people. In order to give gratitude where it is due, the author would like to deeply thank:

- 1) Ms. Yuniwaty Halim, M.Sc., as Thesis Supervisor who has supervised, encouraged and supported the author throughout the whole process of thesis research and completion.
- 2) Mr. Eric Jobiliong, Ph.D. as the Dean of the Faculty of Science and Technology.
- 3) Ms. Dela Rosa, M.M., M.Sc., Apt. as the Vice Dean of the Faculty of Science and Technology
- 4) Mr. Laurence, M.T. as the Director of Administration and Student Affairs of Faculty of Science and Technology.
- 5) Ir. W. Donald R. Pokatong, M.Sc., Ph.D. as the Head of Food Technology Study Program who has provided the opportunity to conduct the thesis research.
- 6) Ms. Ratna Handayani, M.P. as the Vice Head of Food Technology Study Program for the guidance and assistance during the author's research.
- 7) Dr. Tagor M. Siregar, Dr. Adolf J.N. Parhusip, Natania, M.Eng. and Yuniwaty

Halim, M.Sc. as the respective heads of the respective laboratories of chemistry, microbiology, food processing, quality control and research, for the lab entry permit, instructions and support given to the author during the thesis research.

- 8) Mr. Darius, Mr. Regie, Mr. Adzie and Mr. Adi for the practical laboratory equipment support and facilitation.
- 9) The author's dear family for the wholehearted support throughout the thesis research.
- 10) Jocelyn Shania Anggrek and Maryani as the author's laboratory partners for the emotional support, meaningful discussions and collective hard work during the research.
- 11) Jovinsky Happy Tanzil, Kezia Haniel, Madeline Gracia, Elita Feby and Ria Emanuella as the author's friends for the emotional support throughout the final thesis research.
- 12) All students of the Food Technology Study Program of Universitas Pelita Harapan who partook the final thesis research together with the author this year.
- 13) All friends and relatives of the author who have not been mentioned but have also given support to the author throughout the thesis period and the completion of the report.

The author realizes that this report is still far from perfect. Therefore, the author would like to apologize for any mistakes made in this report. The author also hopes that this report may be beneficial to those who will read it in the future.

Tangerang, 11<sup>th</sup> August 2020

Yurica Sachi

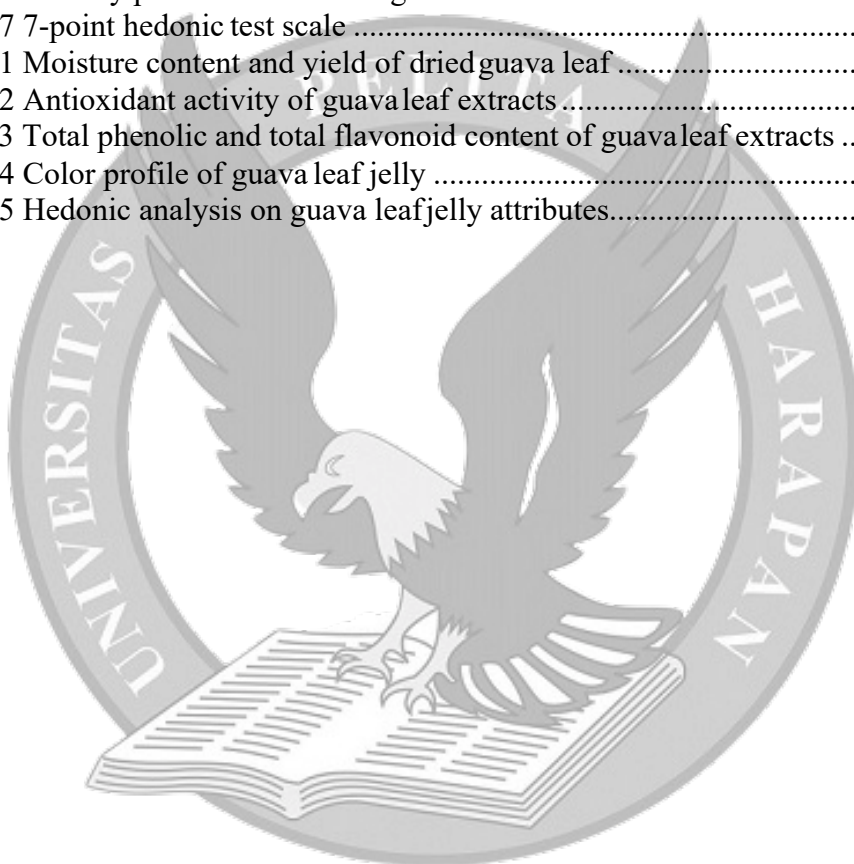

## TABLE OF CONTENTS

	page
COVER .....	
FINAL ASSIGNMENT STATEMENT AND UPLOAD AGREEMENT .....	
APPROVAL BY THESIS SUPERVISOR .....	
APPROVAL BY THESIS EXAMINATION COMMITTEE .....	
ABSTRACT .....	v
ACKNOWLEDGEMENTS .....	vi
TABLE OF CONTENTS .....	viii
LIST OF TABLES .....	x
LIST OF FIGURES .....	xi
LIST OF APPENDICES .....	xii
 CHAPTER I INTRODUCTION .....	 1
1.1 Background .....	1
1.2 Research Problem .....	2
1.3 Objectives .....	3
1.3.1 General Objective.....	3
1.3.2 Specific Objectives.....	3
 CHAPTER II LITERATURE REVIEW .....	 4
2.1 Guava Leaves ( <i>Psidium guajava</i> L.).....	4
2.1.1 Antioxidant Activity of Guava Leaves.....	5
2.2 Functional Foods .....	7
2.3 Antioxidant .....	7
2.3.1 DPPH Assay for Antioxidants.....	9
2.3.2 Flavonoids .....	9
2.3.3 Tannin .....	11
2.4 Jelly .....	12
 CHAPTER III RESEARCH METHODOLOGY.....	 14
3.1 Materials and Equipment .....	14
3.2 Research Methodology .....	14
3.2.1 Research Stage I .....	15
3.2.2 Research Stage II.....	16
3.3 Experimental Design.....	17
3.3.1 Research Stage I.....	17
3.3.2 Research Stage II.....	19
3.4.1 Yield (BSN, 1992).....	21
3.4.2 Moisture Content (BSN, 1992).....	21
3.4.3 Chemical Analysis.....	22
3.4.3.1 Antioxidant Analysis .....	22
3.4.3.2 Total Phenolic Content .....	23
3.4.3.3 Total Flavonoid Content.....	24
3.4.4 Physical Analysis .....	24

3.4.4.1 Texture Analysis.....	24
3.4.4.2 Color Analysis (Hui <i>et al.</i> , 2004) .....	25
3.4.5 Sensory Evaluation.....	26
CHAPTER IV RESULTS AND DISCUSSION .....	28
4.1 Moisture content and yield of Guava Leaf samples .....	28
4.2 Phytochemical analysis on guava leaf sample.....	29
4.2.1 Antioxidant activity of guava leaf .....	29
4.2.2 Total phenolic and total flavonoid content of guava leaf samples .....	30
4.3 The chosen treatment for guava leaves jelly making.....	31
4.3.1 Effect of guava leaf and sugar concentration on antioxidant activity of guava leaves jelly .....	32
4.3.2 Effect of guava leaf and sugar concentration on total phenolic and total flavonoid content of guava leaf jelly .....	35
4.3.3 Effect of guava leaf and sugar concentration on texture analysis of guava leaf jelly .....	37
4.3.4 Effect of guava leaf and sugar concentration on color analysis of guava leaf jelly .....	40
4.3.5 Effect of guava leaf and sugar concentration on sensory evaluation of guava leaf jelly .....	42
4.3.5.1 Scoring test of guava leaf jelly .....	42
4.3.5.2 Hedonic test of guava leaf jelly .....	48
CHAPTER V CONCLUSIONS AND SUGGESTIONS .....	50
5.1 Conclusions .....	50
5.2 Suggestions .....	51
BIBLIOGRAPHY .....	52
APPENDICES.....	58

## LIST OF TABLES

	page
Table 2.1 Nutritional Compositions of <i>Psidium guajava</i> . L .....	4
Table 2.2 Antioxidant strength based on DPPH IC <sub>50</sub> .....	8
Table 3.1 Formulation of Guava Leaves Jelly in 100 ml water.....	17
Table 3.2 Experimental design for research stage I.....	18
Table 3.3 Experimental design for research stage II.....	19
Table 3.4 Settings of texture analyzer .....	25
Table 3.5 Correlation between hue and color .....	26
Table 3.6 Sensory parameter for scoring test .....	27
Table 3.7 7-point hedonic test scale .....	27
Table 4.1 Moisture content and yield of dried guava leaf .....	28
Table 4.2 Antioxidant activity of guava leaf extracts .....	29
Table 4.3 Total phenolic and total flavonoid content of guava leaf extracts .....	30
Table 4.4 Color profile of guava leaf jelly .....	39
Table 4.5 Hedonic analysis on guava leaf jelly attributes.....	48

## LIST OF FIGURES
