### **LEGAL PROTECTION AGAINST VICTIMS OF SEXUAL HARASSMENTS CHILDREN UNDER AGE WHICH DONE BY CHILDREN UNDER AGE**

(xiii +87 pages: 2 attachments)

A child has the right in the same as like own adult people. There are not many people that have thought to do certain things with Children's right protection. So there are some efforts to protect children's right that have been broken by country, adult, their environment, or their parents that did not give much attention to their future. Whereas, child as the soul and the reflection of the future, family asset, religion, and nation. Child get bad experience, like children exploitation, children abuse, being sex toy, child labor, abandoned, become the street children, victims of drug trafficking. Universally, Indonesia in breaking of the children's right in real or non-real become a normal and common image as mass media gives news about that. Indonesia as a law nation based on Pancasila must give a law protection to society, because of that the law protection will produce confession and human rights protection in his shape as individual creatures and social creatures in aunitary state that uphold family spirit in order to attain public welfare. And child sexual abuse is an increasing form of childhood in which older adults or teens use children for stimulation. Sexual harassment forms for children include for children to engage in sexual activity (regardless of outcome), giving obscene child procurement, featuring pornography for children, involving children, physical contact with the child's genitals (except in certain non-sexy contexts such as medical examinations), looking at the child's genitals without physical contact, or using children to produce child pornography.
