

ACKNOWLEDGEMENTS

First and foremost, the writer would like to express gratitude to Allah SWT, for His blessing and guidance throughout the completion of this thesis report titled “EFFECT OF RATIO BETWEEN *TORBANGUN* (*Plectranthus amboinicus* L.) LEAVES AND FENUGREEK (*Trigonella foenum-graecum* L.) SEEDS TOWARDS ANTIOXIDANT PROPERTIES OF HERBAL TEA”. This thesis project report consists of the result of research conducted from July 2018 to December 2018. This thesis report was written to fulfill one of the requirements in order to complete the bachelor degree at Food Technology Study Program, Universitas Pelita Harapan.

Guidance, Support and Prayer from many parties are received abundantly during the completion of this report. With this, the writer would like to give the highest appreciation to:

1. Intan Cidarbulan Matita, Ph.D. as thesis Supervisor, for the time allocated to patiently guide and give useful advice from the proposal preparation, during research to the completion of this report.
2. Eric Jobiliong, Ph.D. as Dean of the Faculty of Science and Technology.
3. Dela Rosa, S.Si., M.M, M.Sc.Apt. as the Vice Dean of the Faculty of Science and Technology.
4. Laurence, M.T. as the Administration and Student Affair Director of the Faculty of Science and Technology.
5. Ir. W. Donald R. Pokatong, M.Sc., Ph.D. as Head of the Food Technology study program.
6. Ratna Handayani M.P. as the Vice Head of Food Technology Study Program for the guidance during the completion of thesis report.
7. Dr. Adolf J.N. Parhusip, M.Si., Dr. Tagor M. Siregar, Natania, M. Eng, and Yuniwaty Halim, M.Sc. as head of the microbiology, chemistry, food processing, quality control, and research laboratories that have provided opportunities for writers to conduct research in the laboratory.

8. Adi, Darius, Adzie, Yosafat, Bryan Anders, S.T.P., Christopher Imasantoso Rimba, S.T.P., and Fiammeta Esther, S.T.P., who have helped the author during research in the laboratory.
9. All lecturers, assistant lecturers, and staff of food technology study programs who have helped and provided insight during the research
10. Beloved parents (Putut E. Andanawarih and Inngrasanti) and family for invaluable supports, prays, and during the completion of this thesis.
11. Stefani, Veronica Angelia Djuarsa, Brigitta Bella, Celine Tanuwijaya and Kezia Olivia, as friends under same supervisor for the support and companion throughout thesis completion.
12. All family, friends, and colleagues who cannot be mentioned one by one and contribute to the completion of the internship report.

The writer realized that this report was far from excellence and is open for improvements, therefore any criticism and suggestion are welcomed as lesson learnt. Lastly, the writer hopes that this report can be useful for pertinent readers in regards to beer knowledge and processing.
