

## ACKNOWLEDGEMENTS

Thanks to Jesus Christ for His blessings, since the author has been given a chance and strengths to complete this thesis entitled “STUDY OF MODIFIED LAWSONE EXTRACTED FROM HENNA LEAVES (*Lawsonia inermis* L.) TOWARD THE ANTIOXIDANT ACTIVITY OF CRUDE EXTRACT” that was written as partial fulfillment of the academic requirements to obtain the degree of *Sarjana Teknologi Pertanian Strata Satu*, Food Technology, Universitas Pelita Harapan.

The author has experienced various obstacles during the laboratory experiment and completion of the report, but the author was grateful because there were parties who has provide guidance, support, and prayer to her. Therefore, the author would like to express her gratitude to these parties, including:

1. Mr. Eric Jobiliong, Ph.D. as Dean of Faculty of Science and Technology, Universitas Pelita Harapan.
2. Mrs. Dela Rosa, S.Si, M.M., M.Sc., Apt. as Vice Dean of Faculty of Science and Technology, Universitas Pelita Harapan.
3. Mr. Laurence, M.T. as Director of Administration and Student Affair, Faculty of Science and Technology, Universitas Pelita Harapan.
4. Mr. Ir. W. Donald R. Pokatong, M.Sc., Ph.D. as Head of Food Technology Study Program, Faculty of Science and Technology, Universitas Pelita Harapan.

5. Mr. Ir. A. Herry Cahyana, Ph.D. as thesis supervisor and thesis defense examiner for his guidance, advices, support during the laboratory experiment and completion of the thesis.
6. Mrs. Wenny S. L. Sinaga, M.Si. as thesis co-supervisor for her advices during the completion of the thesis.
7. Mr. Dr. Tagor M. Siregar, M.Si. and Ms. Lucia C. Soedirga, M. Sc. as the thesis defense examiners for their advices and guidance on the completion of the thesis.
8. Mr. Dr. Tagor M. Siregar, M.Si. as the Head of Chemistry Laboratory, Ms. Yuniwaty Halim, M.Sc., as the Head of Quality Control and Research, and Dr. Adolf J. N. Parhusip, M.Si. as the Head of Microbiology Laboratory, where the author conducted the final project.
9. Mr. Darius, Mr. Adi, and Mr. Yosafat as the laboratory assistants who gave guidance and supports during the research in the laboratories.
10. All lecturers and staffs of Food Technology Study Program who have taught the author during the study period at Universitas Pelita Harapan.
11. Mom (Mrs. Fong) and Dad (Mr. Jauw) as the author's parents who have financed and fulfilled all of author's need for the thesis, and has supported, helped, and sent prayers to the author.
12. Yana as the author's sister who has supported and gave advices to the author during the completion of thesis.
13. Marsela Elvina, Celine Angelia, Lydia Senjaya, Natasha Colhins, Fransiska who have given motivation, companion, comfort, and support to the author

during the study period at Universitas Pelita Harapan and completion of the thesis.

14. Theresa Angela, Stevanie Suryanto, Jonathan Christianto, Liana Oktavia, Teresa as thesis partners who have given help and support to the author while on the thesis process.
15. All friends from C class of Food Technology 2015, Universitas Pelita Harapan.
16. All friends and close relatives who have loved and supported the author while on the thesis process.

Author realizes that this report still has any mistake and imperfection, therefore the author apologizes for those mistakes. Any input and criticism are opened to further improve this report. Lastly, author hopes that this report can be useful and informative to the readers. Thank you and God bless.

COVER PAGE	
STATEMENT OF THESIS AUTHENTICITY	
APPROVAL BY THESIS SUPERVISOR	
APPROVAL BY THESIS EXAMINATION COMMITTEE	
ABSTRACT.....	iii
ABSTRAK.....	iv
ACKNOWLEDGEMENTS.....	v
TABLE OF CONTENT.....	viii
LIST OF TABLES.....	xii
LIST OF FIGURES.....	xiii
LIST OF APPENDICES.....	xv
CHAPTER I INTRODUCTION.....	1
1.1 Background.....	1
1.2 Research Problem.....	2
1.2.2 General Objectives.....	2
1.2.3 Specific Objectives.....	2
CHAPTER II LITERATURE REVIEW.....	4
2.1 Henna ( <i>Lawsonia inermis</i> Linn.).....	4

2.2	Naphthoquinone and Its Derivatives .....	5
2.3	Lawsone.....	8
2.4	Ethanolamine .....	9
2.5	Reaction between Lawsone and Ethanolamine .....	10
2.6	Free Radical and Antioxidant.....	10
2.7	Thin Layer Chromatography .....	12
2.8	UV-Vis Spectroscopy .....	13
2.9	Infrared Spectroscopy.....	14
2.10	Gas Chromatography – Mass Spectrometry (GC- MS).....	15
CHAPTER III RESEARCH METHODOLOGY.....		17
3.1	Material and Equipment .....	17
3.2	Research Method .....	18
3.2.1	Research Stage I.....	18
3.2.2	Research Stage II.....	21
3.3	Method of Analysis .....	25
3.3.1	Yield Percentage .....	25
3.3.2	Total Phenolic Content.....	25
3.3.3	Antioxidant Activity.....	26
3.3.4	Thin Layer Chromatography .....	27
3.3.5	UV-Vis Spectrophotometry.....	27
3.3.6	Fourier-Transform Infrared Spectroscopy (FT-IR).....	27
3.3.7	Gas Chromatography-Mass Spectroscopy (GC-MS).....	28

CHAPTER IV RESULT AND DISCUSSION .....	29
4.1 Identification of Lawsone in Henna Leaves Crude Extracts .....	29
4.1.1 Yield Percentage of Henna Leaves Crude Extracts .....	29
4.1.2 Total Phenolic Content of Henna Leaves Crude Extracts.....	30
4.1.3 Antioxidant Activity of Henna Leaves Crude Extracts.....	32
4.1.4 TLC of Crude Extracts Compared to Lawsone Standard.....	34
4.1.5 Comparison of UV-Vis Spectrum of Crude Extracts and Lawsone Standard	38
4.1.6 GC-MS of Crude Extract of Ethyl Acetate .....	41
4.2 Modification of Lawsone Contained in The Crude Extract .....	43
4.2.1 Yield Percentage of Product.....	43
4.2.2 Antioxidant Activity of Product and Crude Extract Ethyl Acetate .....	45
4.2.3 Thin Layer Chromatography of Ethyl Acetate Fraction and Product .....	46
4.2.4 UV-Vis Spectrum of Product and Ethyl Acetate Fraction .....	47
4.2.5 Comparison of IR Spectrum of Ethyl Acetate Fraction and Product.....	49
4.2.6 Comparison of GC-MS Result of Ethyl Acetate Fraction and Product.....	50
CHAPTER V CONCLUSIONS AND SUGGESTIONS.....	54
5.1 Conclusions .....	54

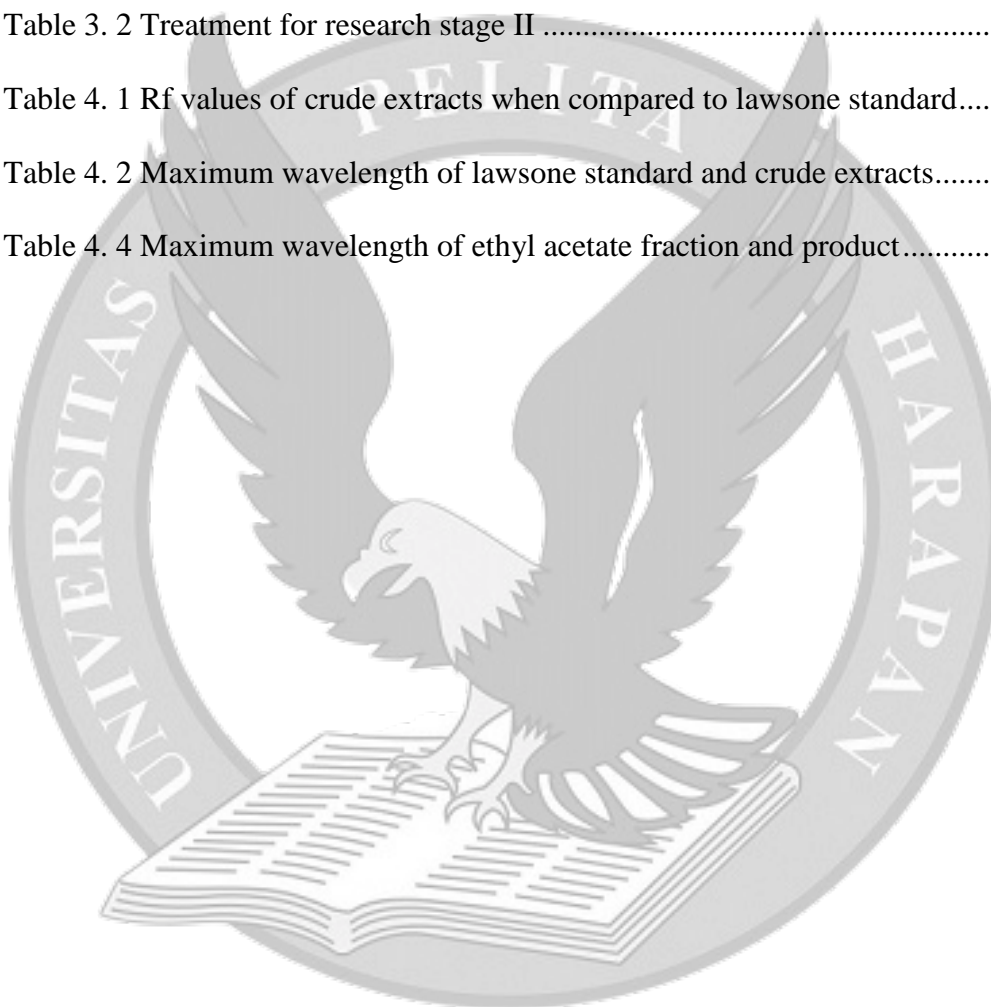

5.2	Suggestions.....	55
BIBLIOGRAPHY .....		56
APPENDICES.....		61

## LIST OF TABLES

	page
Table 3. 1 Treatment for research stage I.....	19
Table 3. 2 Treatment for research stage II .....	21
Table 4. 1 Rf values of crude extracts when compared to lawsone standard.....	34
Table 4. 2 Maximum wavelength of lawsone standard and crude extracts.....	39
Table 4. 4 Maximum wavelength of ethyl acetate fraction and product.....	48

## LIST OF FIGURES

	page
Figure 2. 1 Henna leaves .....	4
Figure 2. 2 Structure naphthalene (1) and 1,4-naphthoquinone (2) .....	5
Figure 2. 3 Redox properties of naphthoquinone ring. ....	6
Figure 2. 4 Naturally occurring hydroxy-1,4-naphthoquinones.....	7
Figure 2. 5 The synthesis of alkyl/aryl amino naphthoquinone. ....	7
Figure 2. 6 Chemical structure of lawsone ( $C_{10}H_6O_3$ ) .....	8
Figure 2. 7 Lawsone as the starting material for various biologically active compounds .....	9
Figure 2. 8 Structure of ethanolamine .....	10
Figure 2. 9 Reaction between lawsone and ethanolamine .....	10
Figure 2. 10 Thin Layer Chromatography .....	12
Figure 2. 11 Formula to calculate retention factor ( $R_f$ ) of a component.....	13
Figure 2. 12 Schematic of UV-Vis Spectroscopy with single-beam .....	13
Figure 2. 13 Part of electromagnetic spectrum .....	14
Figure 2. 14 Schematic of a typical GC-MS .....	16
Figure 3. 1 Extraction process based on different polarity of solvent.....	20
Figure 3. 2 Flowchart for research stage II .....	22
Figure 4. 1 Yield percentage of crude extracts of Henna leaves.....	29
Figure 4. 2 Total phenolic content of crude extracts of Henna leaves .....	31
Figure 4. 3 $IC_{50}$ of crude extracts of Henna leaves.....	33

Figure 4. 4 $R_f$ values of lawsone standard compared to pigment spot of n-hexane fraction .....	35
Figure 4. 5 $R_f$ values of lawsone standard compared to pigment spot of ethyl acetate fraction .....	36
Figure 4. 6 $R_f$ values of lawsone standard compared to pigment spot of ethanol fraction .....	36
Figure 4. 7 UV-Vis spectrum of lawsone standard and crude extracts .....	38
Figure 4. 8 Lawsone ( $C_{10}H_6O_3$ ) (molecular weight or $m/z = 174$ ) .....	41
Figure 4. 9 Chromatogram of crude extract (ethyl acetate) .....	42
Figure 4. 10 Mass spectrum of lawsone (MW: 174) at RT 11,453 min.....	43
Figure 4. 11 Effect of different reaction time on yield percentage of product.....	44
Figure 4. 12 Effect of different solvents on yield percentage of product.....	45
Figure 4. 13 Effect of different solvents on $IC_{50}$ value of product compared to ethyl acetate fraction .....	46

Figure 4. 20 Chromatogram of ethyl acetate fraction .....	52
Figure 4. 21 Mass spectrum of expected product at RT 12,587 min. (MW: 233).....	53

## LIST OF APPENDICES

	page
Appendix A	
Verification of Henna Plant.....	A-1
Appendix B	
Yield Percentage of Crude Extracts.....	B-1
Statistical results for Yield Percentage of Crude Extracts.....	B-3
Appendix C	
Total Phenolic Content of n-Hexane Fraction.....	C-1
Total Phenolic Content of Ethyl Acetate Fraction.....	C-2
Total Phenolic Content of Ethanol Fraction.....	C-3
Statistical Results for Total Phenolic Content of Crude Extracts .....	C-4
Appendix D	
Antioxidant Activity of n-Hexane Fraction.....	D-1
Antioxidant Activity of Ethyl Acetate Fraction.....	D-3
Antioxidant Activity of Ethanol Fraction.....	D-5
Statistical Results for Antioxidant Activity Crude Extracts.....	D-7
Appendix E	
Thin Layer Chromatography for Crude Extracts.....	E-1
Appendix F	
UV-Vis Absorbance for Crude Extracts .....	F-1

## Appendix G

GC-MS of Ethyl Acetate Fraction (Research Stage I).....	G-1
---	-----

## Appendix H

Yield Percentage of Product for Research Stage II .....	H-1
---	-----

Statistical Results for Yield Percentage of Product (Research Stage II).....	H-3
---	-----

## Appendix I

Antioxidant Analysis for Crude Extract Ethyl Acetate .....	I-1
--	-----

Antioxidant Analysis of Product After Modification.....	I-2
---	-----

Statistical Results for Antioxidant Activity for Research Stage II.....	I-3
---	-----

## Appendix J

Thin Layer Chromatography for Research Stage II .....	J-1
---	-----

## Appendix K

UV-Vis Absorbance for Research Stage II.....	K-1
--	-----

## Appendix L

FT-IR of Product and Ethyl Acetate Fraction.....	L-1
--	-----

## Appendix M

GC-MS for Research Stage II.....	M-1
----------------------------------	-----
