

ACKNOWLEDGEMENTS

Firstly author would like to express gratefulness to Almighty God. This work would not have been possible without His guidance and blessing during preparation, process, and completion of this thesis report entitled ACETYLATION OF CLOVE OIL WITH RADICAL SCAVENGER PARAMETER. This thesis report is written as partial fulfilment of academic requirement to obtain degree of *Sarjana Teknologi Pertanian Strata Satu* Food Technology Study Program, Universitas Pelita Harapan. Author realizes that without guidance, assistance, and support from several parties, this thesis report would not be finished in time. Author would like to express special appreciation to:

1. Mr. Eric Jobiliong, Ph.D. as Dean of Faculty of Science and Technology.
2. Mrs. Dela Rosa S.Si, M.M, M.Sc.Apt. as the Vice Dean of Faculty of Science and Technology.
3. Mr. Laurence, M.T. as Director Administration and Student Affair of Faculty of Science and Technology.
4. Mr. W. Donald R. Pokatong, Ph.D as Head of Food Technology Study Program, Faculty of Science and Technology, Universitas Pelita Harapan.
5. Mr. Ir. Herry A. Cahyana, Ph.D. as thesis supervisor, for his professional guidance, assistance, and valuable support during the process and completion of the thesis.
6. Mrs. Wenny S. L. Sinaga, M.Si. as co-supervisor for the time and effort in completing the research and thesis report.

7. Mrs. Dr. Nuri Arum Anugrahati, M.P. as Academic Advisor for the encouragement and advice throughout author's study.
8. Dr. Tagor M. Siregar M.Si., as the Head of Chemistry Laboratory, Ms. Yuniwaty Halim, M.Sc. as Head of Quality Control Laboratory and Research Laboratory, Mr. Darius, and Mr. Adi for the help and never ending support in the laboratories during research process.
9. All lectures and staff of Food Technology Study Program for the knowledge provided during study.
10. Dearest family for their enthusiastic, encouragements and prayers.
11. Beloved friends including Fiona Novianti, Quattro, and Aniki Bocil who cheered me up during hard times.
12. Jonathan Christianto, Tere, Stevanie Suryanto, Theresa Angela, and Sherly for the advices, support, and help during research process.
13. All friends from Food Technology 2015 Universitas Pelita Harapan for the memories.
14. Dearest mentor in Freedom Faithnet Global Family for the support.

The author hope this report can be useful for readers even the author is aware that this report still need to be improved. Therefore, the author would welcome any criticism.

COVER	
STATEMENT OF THESIS AUTHENTICITY	
APPROVAL BY THESIS SUPERVISORS	
APPROVAL BY THESIS EXAMINATION COMMITTEE	
ABSTRACT	v
ACKNOWLEDGEMENTS	vi
TABLE OF CONTENTS	viii
LIST OF FIGURES	xi
LIST OF TABLES	xiii
LIST OF APPENDICES	xiv
CHAPTER I INTRODUCTION	1
1.1 Background	1
1.2 Research Problem	3
1.3 Objectives	3
1.3.1 General Objectives	3
1.3.2 Specific Objectives	3
CHAPTER II LITERATURE REVIEW	5
2.1 Cloves	5
2.1.1 Eugenol	7
2.2 Hydrodistillation	9
2.3 Acetylation	9
2.3.1 Acetylation of Alcohol	10
2.3.2 Acetic Anhydride	11
2.3.3 Sodium Hydrogen Bicarbonate	12
2.3.4 Ethyl Acetate	12
2.4 Eugenol Derivative	13
2.4.1 Eugenyl Acetate (C ₁₂ H ₁₄ O ₃)	13

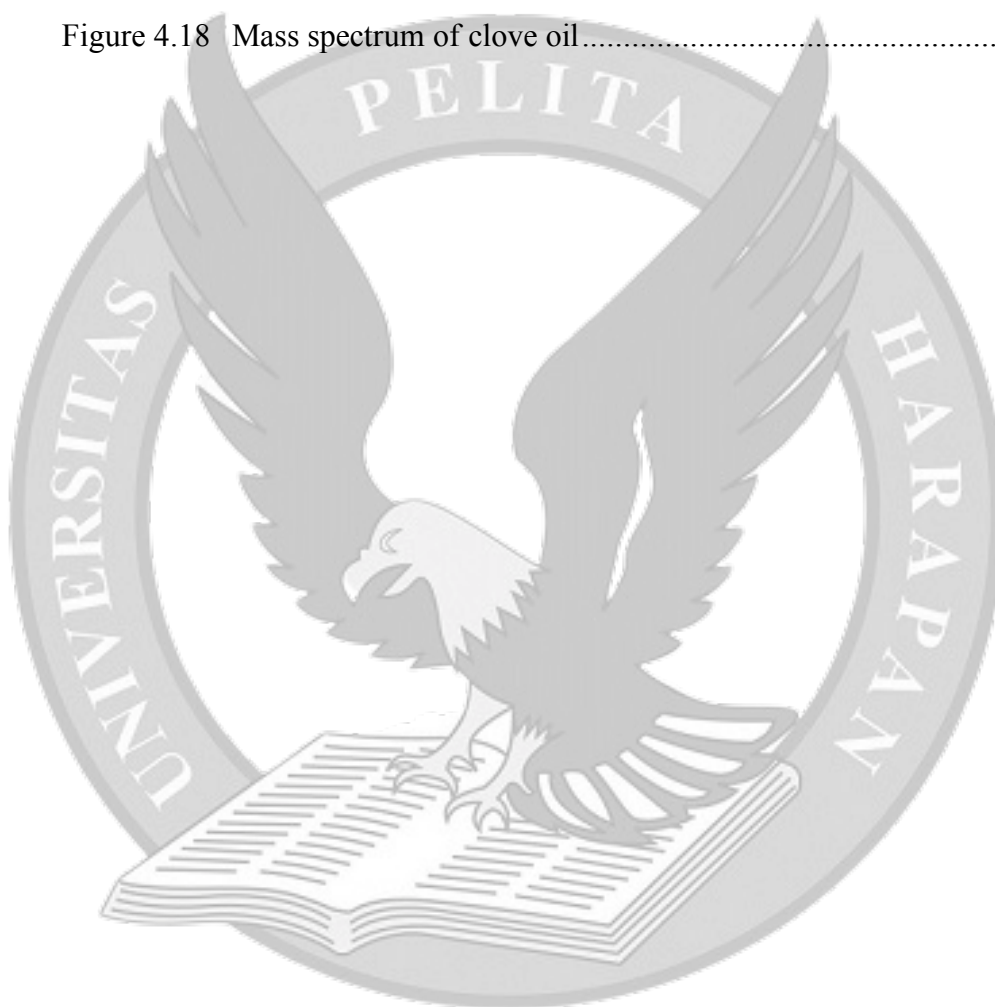

2.5 Radical Scavenger Activity	14
2.6 Thin Layer Chromatography	15
2.7 DPPH (2,2-diphenyl-1-picrylhydrazyl)	16
2.8 UV-Vis Spectrophotometry	16
2.9 Fourier Transform Infrared (FT-IR).....	17
2.10 Gas Chromatography-Mass Spectrometry (GC-MS).....	18
2.11 Toxicity Test.....	18
2.12 Scoring Test.....	19
CHAPTER III RESEARCH METHODOLOGY.....	20
3.1 Materials and Equipment.....	20
3.2 Research Method.....	20
3.2.1 Research Stage 1.....	21
3.2.1.1 Clove Oil Extraction Using Hydrodistillation.....	21
3.2.1.2 Optimization of acetic anhydride concentration...	22
3.2.1.3 Optimization of Reaction Time	23
3.2.2 Research stage II.....	24
3.3 Experimental Design	26
3.3.1 Research Stage I	26
3.3.2 Research Stage II.....	29
3.4 Method of Analysis	31
3.4.1 Percentage of Yield.....	31
3.4.2 Thin Layer Chromatography.....	32
3.4.3 Fourier Transform Infrared (FT-IR).....	32
3.4.4 Radical Scavenging Activity.....	33
3.4.5 UV-Visible Spectroscopy	34
3.4.6 Gas Chromatography-Mass Spectrometry (GC-MS) ..	34
3.4.7 Brine Shrimp Lethality Assay	35
3.4.8 Scoring Test	36

CHAPTER IV RESULT AND DISCUSSION.....	37
4.1 Clove Oil Extraction.....	37
4.2 Acetylation of Eugenol.....	39
4.3 Optimization of Acetylation Condition.....	40
4.3.1 Optimization of Acetic Anhydride Concentration	40
4.3.2 Optimization of Reaction Time.....	41
4.3.3 Identification with Thin Layer Chromatography	42
4.4 Maximization of Acetylated Eugenol Production.....	43
4.4.1 Percent Yield of Acetylated Eugenol	44
4.4.2 Radical Scavenger Activity of Acetylated Eugenol	44
4.4.3 UV-Visible Spectrophotometry Acetylated Eugenol .	47
4.5 Acetylated Eugenol Analysis.....	48
4.5.1 FT-IR Analysis of Acetylated Eugenol	48
4.5.2 GC-MS Analysis of Acetylated Eugenol.....	49
4.6 Utilization of Acetylated Eugenol.....	51
4.6.1 Scoring Test	51
4.6.2 Toxicity Test	52
CHAPTER V CONCLUSION AND SUGGESTION.....	54
5.1 Conclusion.....	54
5.2 Suggestion.....	54
BIBLIOGRAPHY	56
APPENDICES	61

LIST OF FIGURES

	Page

Table 4.4 Toxicity test.....	53

LIST OF APPENDICES

	page
Appendix A. Clove Oil Yield Result.....	A
Appendix B. Data of Yield of Optimization on Acetic Anhydride Concentration of Eugenol Acetylation.....	B
Appendix C. Data of Yield of Optimization on Time Reaction Concentration of Eugenol Acetylation.	C
Appendix D. Thin Layer Chromatography of Acetylated Eugenol	D
Appendix E. Scavenger Activity and Percent Yield of Acetylated Eugenol	E
Appendix F. UV-Vis Spectrophotometry Analysis of Acetylated Eugenol and Eugenol	F
Appendix G. Gas Chromatography–Mass Spectrometry Analysis of Acetylated Eugenol and Clove oil	G
Appendix H. Statistical Analysis Between of Scoring Test Acetylated Eugenol and Eugenol	H
Appendix I. FT-IR Eugenol and Acetylated Eugenol.....	I
Appendix J. Toxicity Test Result.....	J
