ACKNOWLEDGEMENT

This thesis was written as one of requirements to obtain the degree in Sarjana Strata Satu Teknologi Pangan. The title of this thesis is “EFFECT OF DIFFERENT RICE BRAN CONCENTRATIONS AND COOKING METHODS ON CONSUMER PREFERENCES AND PHYSICO-CHEMICAL CHARACTERISTICS OF MEATBALL PRODUCT”.

The writer realizes that this thesis could not be completed without helps, prayers, supports, and guidances from a lot of people. In this opportunity, the writer wishes to deliver gratitudes to those who constantly give their direct or indirect supports during the completion of this thesis, including:

1) Dr. Ir. Raffi Paramawati, M.Si as the Thesis Supervisor who has guided, helped, and supported the writer during the whole research process.

2) Julia Ratna Wijaya, MAppSc. as the Co-Supervisor who has been a great help in guiding the research and writing the thesis report completely.

3) Mrs. Nuri Arum Anugrahati, MP as the Head of Food Technology Department who has given the chance for this research to be performed.

4) Mr. Jeremia Manuel, Ms. Ratna Handayani, and Ms. Sisi Patricia who have given the chance for the writer to conduct research in the laboratories.

5) Beloved father (Darjanto Widjaja), mother (Falicia), sister (Kezia Charlene Nathania), and all family for the endless helps, prayers, love, and supports.

6) Ade, Mr. Rudy, Mr. Hendra, Donny, Mr. Yosafat, and Aji who have kindly helped the writer during laboratory work.
7) All lecturers who have shared their knowledge and taught the writer valuable pieces of information for the past 3.5 years.

8) All class C 2008 members for the support.

The writer understands that this report might not be perfect and there might be a lot of improvements to be made. Hence, the writer would like to extend sincere appreciation to the readers for the advices, suggestions, and critics that are applicable to the development of the research subject. Finally, the writer hopes that this report will be useful for the readers.

| ABSTRACT | vi 
| ACKNOWLEDGEMENT | vii 
| CONTENTS | viii 
| LIST OF TABLES | xi 
| LIST OF FIGURES | xii 
| LIST OF APPENDICES | xv |

## CHAPTER I INTRODUCTION

| 1.1 Background | 1 
| 1.2 Research Problem | 2 
| 1.3 Objective | 3 
| 1.3.1 General Objective | 3 
| 1.3.2 Specific Objectives | 3 |

## CHAPTER II LITERATURE REVIEW

| 2.1 Meatball | 4 |
2.1.1 Ingredients Used in Making Meatballs .................................................... 5
2.1.2 Meatball Making ...................................................................................... 6
2.2 Meat ................................................................................................................ 7
  2.2.1 Fatty Acid in Meat ................................................................................... 9
  2.2.2 Protein in Meat ...................................................................................... 11
2.3 Rice Bran ........................................................................................................ 11
2.4 Dietary Fiber .................................................................................................. 14
2.5 Cooking Method of Meatball ........................................................................ 15
  2.5.1 Boiling Process ...................................................................................... 15
  2.5.2 Steaming Process ................................................................................... 15
2.6 Consumer Preference .................................................................................... 16

CHAPTER III RESEARCH METHODOLOGY ............................................. 17
3.1 Materials and Equipments ............................................................................ 17
3.2 Research Procedure ...................................................................................... 17
  3.2.1 Preparation of Meatballs ........................................................................ 18
  3.2.2 Experimental Design ............................................................................. 19
  3.2.3 Parameter Analysis ................................................................................ 20

CHAPTER IV RESULTS AND DISCUSSION ........................................ 22
4.1 Effect of Rice Bran Concentrations and Cooking Methods on Sensory
  Parameters of Meatball .................................................................................... 22
  4.1.1 Color ...................................................................................................... 22
  4.1.2 Aroma .................................................................................................... 23
4.1.3 Chewiness.................................................................25
4.1.4 Taste.................................................................26
4.1.5 Overall Acceptance..............................................28

4.2 Effect of Rice Bran Concentrations and Cooking Methods on Physical Characteristics of Meatball.................................................................29
4.2.1 Texture.................................................................29
4.2.2 Whiteness Index......................................................36

4.3 Effect of Rice Bran Concentrations and Cooking Methods on Chemical Characteristics of Meatball.................................................................37
4.3.1 Cooking Loss...........................................................37
4.3.2 Moisture Content .......................................................38
4.3.3 Water Activity (Aw)...................................................39
4.3.4 Fiber Content...........................................................40

4.4 Nutrition Composition of Rice Bran and Meat.................................................................41
4.5 Nutrition Composition of Meatball with 5% Rice Bran Concentration and Steaming Method.................................................................41

CHAPTER V CONCLUSION AND SUGGESTIONS.................................43
5.1 Conclusion.................................................................43
5.2 Suggestions...............................................................44

BIBLIOGRAPHY.................................................................45

APPENDICES..............................................................................49
LIST OF TABLES

Table 2.1 Comparative Gross Composition of Muscle, Fat, and Bone....................8
Table 3.1 Treatments in The Research.................................................................18
Table 3.2 Ratio of Meat and Rice Bran...............................................................19
Table 3.3 Formulation of Meatballs.....................................................................19
Table 4.1 Nutrition Composition of Rice Bran......................................................41
Table 4.2 Nutrition Composition of Meat............................................................41
Table 4.3 Nutrition Composition of Steamed Meatball Added with 5% Rice Bran compared to SNI Nutrition Standard of Meatball..................................................42
LIST OF FIGURES

Figure 2.1 Structure of Rice Grain ................................................................. 12

LIST OF APPENDICES

Appendix A. Hedonic Test Questionnaire (Indonesian) ......................... A-1
Appendix A. Hedonic Test Questionnaire (English) ............................... A-2
Appendix B. Sensory Analysis Procedure ............................................. B-1
Appendix C. Physical Analysis Procedure ............................................. C-1
Appendix D. Chemical Analysis Procedure ........................................... D-1
Appendix E. Proximate Analysis Procedure ........................................... E-1
Appendix F. Hedonic Test Result for Color Parameter .......................... F-1
Appendix G. Hedonic Test Result for Aroma Parameter ....................... G-1
Appendix H. Hedonic Test Result for Chewiness Parameter .................. H-1
Appendix I. Hedonic Test Result for Taste Parameter ............................ I-1
Appendix J. Hedonic Test Result for Overall Acceptance Parameter .... J-1
Appendix K. Texture Analysis Result ..................................................... K-1
Appendix L. Whiteness Index ............................................................... L-1
Appendix M. Cooking Loss in All Treatments ...................................... M-1
Appendix N. Moisture Content in All Treatments ................................. N-1
Appendix O. Water Activity (Aw) in All Treatments ............................. O-1
Appendix P. Fiber Content Result ......................................................... P-1
Appendix Q. Protein Analysis Result ..................................................... Q-1
Appendix R. Ash Analysis Result .......................................................... R-1
Appendix S. Fat Analysis Result ............................................................ S-1
Appendix T. Moisture Content of Steam Meatball with 5% Rice Bran, Meat, and Rice Bran........................................................................................................................................T-1

Appendix U. Carbohydrate Content Result .................................................................................................. U-1
