

ACKNOWLEDGEMENTS

First of all, thank God for the blessings granted to the writer during the research, preparation, and completion of the thesis. This report would not be completed and written well without the presence, support and help from many people. The writer gives sincere gratitude for those individuals including:

- 1) Mr. W. Donald R. Pokatong, Ph.D., as the main supervisor for the guidance, time, inspiration, and effort during all times until completion of this thesis.
- 2) Mr. Jeremia Manuel, MP, as the co-supervisor and head of Food Quality Control Laboratory for the guidance, time, and effort during all times until completion of this thesis.
- 3) Mrs. Nuri Arum Anugrahati, MP, as the head of Food Technology Department who has given the chance for the research to be conducted.
- 4) Mrs. Natania, M.Eng, Dr. Adolf J. N. Parhusip, Mrs. Sisi Patricia L. A., M. Eng, and Ms. Ratna Handayani, MP, as heads of UPH Food Technology Laboratories for giving a chance to conduct the research in the laboratories.
- 5) Ade, Mr. Hendra, Mr. Rudy, Adjie, Darius, Mr. Yosafat, and Donny, for the time, support, and kindness during the laboratory work.
- 6) Beloved father (Dicky Susanto Tjoa), mother (Linda Tan), and brother (William Susanto, B.Eng) for the support and prayer during the research.
- 7) Caroline Gunawan for the love, support, and encouragement granted to the author during the research.

- 8) Ricko Gosiga, STP, Mikhael Dominico, STP, and Eric Suryawirawan for the help in providing some of the required materials during the research.
- 9) Febiana Tedja, Anita Gozali, Claresta Kusumasari, Bernadette Putri Azalia, and Veronica Jenny for the support, encouragement, laughter, and assistance during university and during the research.
- 10) Jovian Bunawan, STP, Amalia Cherisa, STP, Shella, STP, Denny Saputra, STP, and Hanna, STP for the advices and support during the research.
- 11) William, Tobias, Stephanie Suhendro, Yoana Hardiani, Wenny Eva Natalia, and Laura for the information and support during the research.
- 12) Febrianus Ryan Tedja, Fahita Advani, Reinita Cahya Yugana, and Jessica Adipradhana for the prayers and encouragement during the research.
- 13) Yohannes, Ericko Sutiono, Jessica Ignacia, Kristiana Permadi, and other members of C class 2008 of Food Technology UPH, for the years spent in laughter and valuable memories shared together.
- 14) All people, who have contributed in the construction of this report whom cannot be mentioned one by one.

The writer realizes that this thesis still has room for development; hence, the writer welcomes criticisms and suggestions from people who read this thesis. Lastly, the writer hopes that the thesis may provide useful and productive knowledge for people.

Karawaci, January 2012

	page
COVER PAGE	
STATEMENT OF THESIS AUTHENTICITY	
APPROVAL BY THESIS SUPERVISORS	
APPROVAL BY THESIS EXAMINATION COMMITTEE	
ABSTRACT	v
ACKNOWLEDGEMENTS	vi
TABLE OF CONTENTS	viii
LIST OF TABLES	x
LIST OF FIGURES	xi
LIST OF APPENDICES	xii
CHAPTER I INTRODUCTION	
1.1 Background	1
1.2 Research Problem	3
1.3 Objectives	3
1.3.1 General Objectives	3
1.3.2 Specific Objectives	4
CHAPTER II LITERATURE REVIEW	
2.1 Sappanwood	5
2.1.1 Taxonomy and Description	5
2.1.2 Bioactive Compounds and Antioxidant Activity	6
2.2 Types of Antioxidant Agents and their Mechanisms	8
2.3 Classifications and Characteristics of Phenolic Compounds	9
2.4 Extraction Methods	10
2.4.1 Maceration	11
2.4.2 Extraction under Reflux	12
2.4.3 Factors Affecting Extraction Process	12
2.5 Herbal Tea	15

CHAPTER III RESEARCH METHODOLOGY

3.1 Materials and Equipment	16
3.2 Research Procedures	16
3.2.1 Extract Preparation.....	17
3.2.2 Incorporation into Herbal Tea.....	19
3.2.3Analyses	20
3.3 Experimental Design.....	26
3.3.1 Maceration.....	26
3.3.2 Reflux.....	27
3.3.3Incorporationinto Product	29

CHAPTER IV RESULTS AND DISCUSSION

4.1 Prepared Extracts	31
4.1.1 Yield.....	31
4.1.2Total Phenolics.....	32
4.1.3 Total Tannin.....	34
4.1.4 Total Flavonoid	36
4.1.5 Color.....	38
4.1.6 Antioxidant Activity as IC ₅₀	40
4.1.7Phytochemicals of Selected Extracts Detected Qualitatively	42
4.2 Prepared Products.....	43
4.2.1 Antioxidant Activity	43
4.2.2Hedonic and Colorimetric Results of Product Equivalents.....	44

CHAPTER V CONCLUSIONS AND SUGGESTIONS

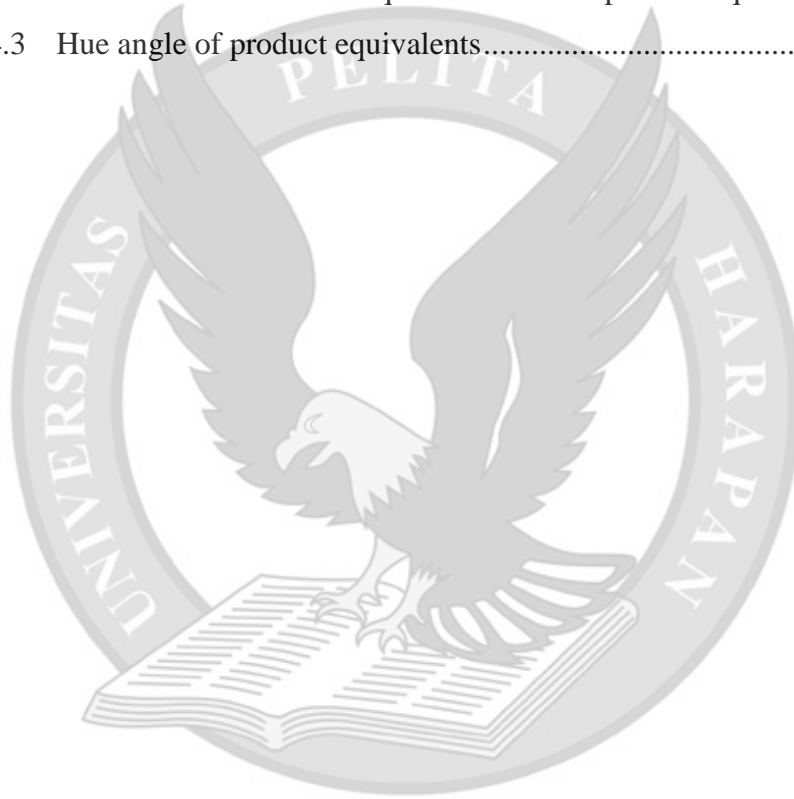

5.1 Conclusions	47
5.2 Suggestions	47

BIBLIOGRAPHY	49
---------------------------	----

APPENDICES	53
-------------------------	----

LIST OF TABLES

	page
Table 3.1 Formulation of herbal tea used in the product incorporation step.....	19
Table 3.2 Sample combinations - maceration	26
Table 3.3 Sample combinations - reflux	28
Table 4.1 Phytochemicals of best extract from maceration and reflux	42
Table 4.2 Extract concentrations required to achieve product equivalent	44
Table 4.3 Hue angle of product equivalents.....	45

LIST OF FIGURES

	page
Figure 2.1 Appearance of sappanwood (<i>Caesalpinia sappan</i> L.) plant (a), leaves and pods (b), and heartwood (c).....	6
Figure 2.2 Phenolic compounds found in sappanwood (<i>Caesalpinia</i> <i>sappan</i> L.)heartwood	7
Figure 2.3 Mechanism of lipid autoxidation.....	8
Figure 2.4 A typical extraction curve of herbs under ambient temperature	13
Figure 3.1 Extract preparation stage of sappanwood (<i>Caesalpinia sappan</i> L.) heartwood.....	18
Figure 3.2 Sappanwood herbal tea preparation stage	20
Figure 4.1 Yield (%) of macerated extracts.....	31
Figure 4.2 Yield (%) of refluxed extracts.....	32
Figure 4.3 Total phenolics of macerated extracts.....	33
Figure 4.4 Total phenolics of refluxed extracts	34
Figure 4.5 Total tannin of macerated extracts	35
Figure 4.6 Total tannin of refluxed extracts	35
Figure 4.7 Total flavonoid of macerated extracts.....	36
Figure 4.8 Total flavonoid of refluxed extracts	37
Figure 4.9 Chroma (C*) of macerated extracts	38
Figure 4.10 Chroma (C*) of refluxed extracts.....	39
Figure 4.11 IC ₅₀ of macerated extracts	40
Figure 4.12 IC ₅₀ of refluxed extracts	41
Figure 4.13 Linear regression of products with macerated extract	43
Figure 4.14 Linear regression of products with refluxed extract.....	44

LIST OF APPENDICES

	page
Appendix A. Taxonomy result for sappanwood (<i>Caesalpinia sappan</i> L.).....	A-1
Appendix B. Moisture content and yield (%) of extracts.....	B-1
Appendix C. Total phenolics of extracts.....	C-1
Appendix D. Total tannin of extracts	D-1
Appendix E. Total flavonoid of extracts.....	E-1
Appendix F. Color of extracts.....	F-1
Appendix G. Antioxidant activity of extracts.....	G-1
Appendix H. Phytochemical results of selected extracts.....	H-1
Appendix I. Antioxidant activity of herbal tea	I-1
Appendix J. °Hue of herbal tea product equivalents	J-1
Appendix K. Example of questionnaire used in the hedonic testing.....	K-1
Appendix L. Hedonic results of herbal tea product equivalents	L-1
