

ACKNOWLEDGEMENT

First and foremost, I would like to express my highest and utmost gratitude to the Lord and Savior, Jesus Christ for His bountiful grace and mercy that I was allowed to finish this Business Plan into completion and to build this startup from the ground up from nothing. Not forgetting the wonderful opportunities that He has given us through both Sparklabs Incubator and Navanti Holdings Pty Ltd which allows Tutoria to become a reality.

Personally, I would also like to thank profusely my thesis supervisor and Director of Sparklabs Incubator, Mr. Radityo Fajar Arianto, S.E., M.B.A for his insightful guidance ever since joining the Startup Competition in 2019 until this day and becoming one of Tutoria's most important mentors and business advisor. His belief in Tutoria has become one of my main drivers and motivations to endure my entrepreneurship journey during its hardest times. I would also like to thank him for all the patience, encouragement and bountiful attitude towards Tutoria that was able to help us grow, not just professionally but also emotionally.

I am also exceedingly grateful for Tutoria's co-founders who have sacrificed so much to make this startup ever since its conception. Marvin Liang, Yonda Windya, Alvin Harwin and Michael Japardi, all has done so much setting up the smallest of tasks to the most difficult of ventures in order for Tutoria to graze the light of success. I am proud to say that being part of this team, nay, this family has been the most influential part of my life, and without them, Tutoria would never come to existence.
