

ACKNOWLEDGEMENT

Praise be to the grace of God almighty for all the blessings and guidance in guiding each process of making this thesis takes place for the difficult to finish it well, of course accompanied by a guide who continues to help guide it well.

This research discusses the use of technology that mediates the relationship between the creation of quality logistical services with several important elements that form the basis for this, especially in the e-commerce company Tokopedia with the title **" THE ROLE OF LOGISTIC INFORMATION TECHNOLOGY ON THE LOGISTIC RELATIONSHIP AND LOGISTIC SERVICE QUALITY ON TOKOPEDIA "**with the aim of meeting the graduation requirements of the Bachelor's Degree of Management. The authors would like to thank for the assistance that has been given and hard work to **Dr. Sidik Budiono, S.E., M.E**, who has played a role as a supervisor in guiding the implementation of this thesis. Without his help, the knowledge and advice that was always given helped the author to complete this research well and be more focused in its implementation.

The author realizes that of course in the implementation of this thesis, of course, there is a form of support and encouragement in completing this final thesis smoothly within a predetermined period of time without any support and suggestions given the author would like to thank you for the support and cooperation that has taken place in in the process of working on this thesis namely to:

- Ibu Gracia Shinta S. Ugut , MBA., Ph.D. as the Dean of Faculty of Economics
- Ibu Isana S.C. Merangga S.P., M.M. as the Head of Management Departement
- Ibu Sandra Sembel S.E., S.Pd, MM. As the Head of International Business Concentration
- Bapak Dr.Moses Lorensius Parlinggoman Hutabarat, S.Kom., S.E., MM as the Academic Advisor
- All lectures who have already contribute in educating and shared their knowledge during the study period in Universitas Pelita Harapan
- Bryan Oskar, Federico Armadeus, Justin Evanson, Gilbert, Eka Putra, Novi Chandra, Stephanie Rahma, Kevin Polakitang, Thessalonicca Venesya as Management Business School classmates.

As final notes, the author realizes that without the help and support of the colleagues above, this research will not run smoothly and the researchers realize that there are still many things that can be developed from this research and the researchers are also open to suggestions and criticisms given for the future. Researchers hope for this research can be continued and further developed in order to provide additional knowledge for readers.
