

## ACKNOWLEDGEMENTS

Praise the Lord Jesus Christ for His guidance and grace to the author during the process until the completion of this thesis report “AN OBSERVATIONAL STUDY OF RECOGNITION THRESHOLD, PREFERENCE TOWARDS SWEET TASTE AND DAILY SUGAR INTAKE OF OFFICE WORKERS IN JAKARTA”. This thesis report was written as one of the requirements for obtaining bachelor degree in Food Technology at Universitas Pelita Harapan.

This thesis report could not be finished without the help from beloved family and fellows. Because of that, the author would like to express gratitude towards all parties who help author during the study, thesis report making and completion, including:

1. Julia Ratna Wijaya, MAppSc, as Head of Food Technology Department .
2. Sisi Patricia L.A. Gultom, M.Eng as the Supervisor for the guidance, support, time, patience, suggestions, and knowledge during thesis report completion.
3. Lina Antono, M.Sc as Co-Supervisor for the guidance, support, time, patience, discussion, and knowledge during the process of writing thesis report and completion in PT. Nutrifood.
4. Ms. Vanessa Yolanda for the guidance, advice, and assistance during project in offices and during completion of thesis report writing.
5. Evelynna Glen as fellow friend under same supervision for support, help and togetherness during project right from the start until the end.

6. Beloved parents (Ting Ananta Setiawan and Susanawati Sutikno) and sister (Ansheila Gabriela Budiyani) for their endless prayers, support, and words of encouragement.
7. Intan Dinda Purnama for the support, togetherness and help during project in offices and PT. Nutrifood.
8. Mrs. Astri, Ardi, Richie, Fifi, Wika Silo, Syaogi, and Aris from PT. Nutrifood for the support, togetherness, and help.
9. Livia Cornelia, Rehuellah Angela, Rae Ninta Elisa, Evelyn Feliciano, Alexandra Casie, Vika Erika, Sharon Angela, Stella Maria, Jessica Cia, Nita Felicia and Elisabet Cahyani for the support and togetherness right from the start until the end.
10. All members of C class of Food Technology 2011 for the support and encouragement.
11. All seniors and juniors in Food Technology for the support and help during the research.
12. All relatives and friends who cannot be mentioned one by one but have also supported the author during the research and thesis report completion.

The Author would like to apologize if there are mistakes and mispronunciation in the report. The author hopes that this report can be helpful for the readers. Thank you.
