Kasus kekerasan terhadap perempuan di Indonesia semakin meningkat tiap tahunnya. Peristiwa ini ikut jadi bahan pemberitaan media massa di Indonesia, yang bertugas menyampaikan informasi kepada masyarakat lewat berita. Penelitian ini membahas pembingkai berita kekerasan terhadap perempuan di Harian Republika. Harian Republika merupakan surat kabar dengan ideologi yang mengandung nilai-nilai ajaran agama Islam, yaitu agama mayoritas di Indonesia.

Penelitian ini menggunakan analisis *framing* dengan model *framing* Entman untuk menganalisis pembingkai berita kekerasan terhadap perempuan di Harian Republika. Setelah itu, hasil penelitian dianalisis dengan teori feminisme. Data penelitian diambil dari artikel berita kekerasan terhadap perempuan pada tanggal 1 Oktober 2012 hingga 31 Maret 2013, wawancara, dan teknik kepustakaan.

Dari 81 artikel berita kekerasan terhadap perempuan yang sudah dianalisis dengan model *framing* Entman dan teori feminisme, Peneliti menyimpulkan bahwa Republika membingkai berita kekerasan terhadap perempuan dengan memberikan solusi-solusi yang diinginkan oleh pandangan feminis namun juga dalam batas-batas ajaran agama Islam. Sehingga nilai-nilai feminisme yang tercermin dalam berita kekerasan terhadap perempuan di harian Republika tidak seutuhnya mencerminkan konsep kesetaraan gender yang ada dalam teori feminisme.
