ACKNOWLEDGEMENT

First of all, writer would like to thank God for His love, blessings, and guidance to the writer, so that the writer could accomplish this thesis with the title “EFFECT OF DIFFERENT RATIO OF EUCHEUMA DENTICULATUM AND GLUTINOUS RICE FLOUR IN SEAWEED DODOL MAKING ON PANELISTS PREFERENCE AND PHYSICO-CHEMICAL CHARACTERISTICS” as one of the requirements for obtaining the degree of Sarjana Teknologi Pertanian Strata Satu in the Food Technology Department, Faculty of Industrial Technology, Universitas Pelita Harapan.

The writer is aware that this thesis could not be finished well and on time without the help, guidance, and prayer from others. In this opportunity, writer wants to give big gratitude to those who give support to the writer, including:

1. Dr. Ir. Raffi Paramawati, M.Si., as the supervisor who has patiently guided, supported, and gave advices for the writer before, during, and after thesis research process until the report is done.

2. Mrs. Natania, M.Eng, as the co-supervisor for her time, guidance, support, advices for the writer.

3. Mrs. Nuri Anugrahati, MP, as the head of Food Technology Department for the chance given to finish this thesis.

4. Mrs. Julia Ratna Wijaya MAppSc, as the vice head of Food Technology Department for the support and advices.

5. Family member including father (Sutiono), mother (Lian Lin), sister (Elvya), and brother (Edison) who always support the writer during the thesis progress.
6. Beloved girlfriend (Francis) for the support before, during, and after thesis research process until the report is done.

7. Mrs. Sisi Patricia as the head of food processing laboratory, Mr. Jeremia Manuel Halim as the head of quality control laboratory, and Mr. Adolf Parhusip as the head of biology laboratory for allowing the writer to use the laboratory with all the equipment during the research.

8. Mr. Donny, Mr. Hendra, Mr. Rudi, and Mr. Yosas the laboratory assistants for the time, guidance, help, and support during conducting research in the laboratory.

9. Andreas Tjoa, William Kuwandy, Merryo Setyawan, and Tobiasas friends who always help in hard time, accompanying in good times, give support, motivation, courage, and advices for the writer.

10. All people and relatives who are not mentioned yet have also give contribution to the writer during thesis progress and completion of final report.

The writer realizes that this report is far from being perfect, and wants to apologize if there were any mistakes during research progress and in writing this report. Moreover, the writer wants to appreciate for everyone who read this report and hopefully it will give useful information and knowledge for the development of science. Finally, the writer also wants to thank you for the attention, suggestions, and critics given to this report.

Karawaci, June 2012

Writer
