ACKNOWLEDGEMENTS

The greatest gratitude to Jesus Christ for His Blessings, guidance, love and mercy which have been given abundantly unto Writer, so this thesis report entitled “STUDY OF BORAX AND FORMALIN PRESENCE IN MEATBALL DISHES AT KECAMATAN KARAWACI” could be finished. This thesis was written as the partial fulfillment of the academic requirements to obtain the degree of Sarjana Teknologi Pertanian Strata Satu, Food Technology Department, Faculty of Science and Technology, Universitas Pelita Harapan, Tangerang.

It would be impossible to finish this report without the help of many people and parties. Therefore, Writer would like to give deep appreciation for those who always support and stand by his side.

1. Sisi Patricia L. A. Gultom, M.Eng as supervisor for the opportunity to be guided and supervised by her. For sharing knowledge, advices, experiences, and time for supporting Writer during thesis writings. For patience to hear and solve problems during thesis work and consultation.

2. Julia Ratna Wijaya, MAppSc, as the Head of Food Technology Department, Faculty of Science and Technology, Universitas Pelita Harapan.

3. Dr. Ir. Melanie Cornelia, MT, Natania, M.Eng, Yuniwaty Halim, M.Sc., and Ratna Handayani, MP as head of laboratories, for the opportunity to conduct researches in the laboratories.

2. Julia Ratna Wijaya, MAppSc, as the Head of Food Technology Department, Faculty of Science and Technology, Universitas Pelita Harapan.

3. Dr. Ir. Melanie Cornelia, MT, Natania, M.Eng, Yuniwaty Halim, M.Sc., and Ratna Handayani, MP as head of laboratories, for the opportunity to conduct researches in the laboratories.

5. Darius Nikolaus Nara Wulakada, Ahmad Fauzi Ridwan, Meri Susanti Situmorang, Yosafat Rudju, and Hendra as laboratory assistants who had helped Writer a lot during researches and experiments.

6. Writer’s family (Fairy Wihardja, Veni Siwadjaja and Fairyska Jean) who gave motivation, love, permission, and every Writer’s needs during thesis; the ones who gave so much care and never give up on Writer.

7. Sesilia Yolanda, Jossianna Liauwan, and Christine as partner-with-the-same-supervisor during thesis; for sharing and travelling together with Writer.

8. Jimmy Jaya Nugraha, Ferdy Tirtakusuma, Tiffany Harianto, Bella Kumalasari, Yohanes Cahya Saputra, Cindy Irawati, Mateus Andra Gunawan, Hong Fu Sheng, Cathy Purnomo, Nadia Catherine Prima Onasie, and Virly who supported Writer during thesis and university life.

10. All members of DEO for prayer and supports to Writer, and always cheering up every down time.

11. All members of GBI Patmos and friends of Christian ministry for unending prayer, and sharing about life as Christian, thus Writer can stand firm in Christ.
12. All people whose names cannot be mentioned one by one, for giving contributions and supports for Writer from the first time until the last time of thesis and university life.

Finally, Writer does realize that there are still many shortcoming in this thesis report, therefore critics and suggestions from readers will be very useful for Writer. Hopefully this thesis report can be beneficial for all people who read this.

COVER
STATEMENT OF THESIS AUTHENTICITY
APPROVAL BY THESIS SUPERVISOR
APPROVAL BY THESIS EXAMINATION COMMITTEE
ABSTRACT ...................................................................................................................... iv
ACKNOWLEDGEMENTS ................................................................................................. v
TABLE OF CONTENTS ................................................................................................. viii
LIST OF FIGURES .......................................................................................................... xi
LIST OF TABLES ........................................................................................................... xii
LIST OF APPENDICES .................................................................................................. xiii

CHAPTER I INTRODUCTION
1.1. Background ............................................................................................................. 1
1.2. Research Problems ................................................................................................. 2
1.3. Objectives ............................................................................................................... 3
  1.3.1. General Objective ............................................................................................ 3
  1.3.2. Specific Objectives .......................................................................................... 3

CHAPTER II LITERATURE REVIEW
2.1. Food Preservation ................................................................................................... 4
2.2. Food Preservatives ................................................................................................. 5
2.3. Food Crimes in Indonesia regarding Food Additives .......................................... 6
2.4. Borax ..................................................................................................................... 8
  2.4.1. Psychochemical and Functions ........................................................................ 8
  2.4.2. Negative Effects of Borax toward Human ...................................................... 8
2.5. Formalin ................................................................................................................ 9
  2.5.1. Psychochemical and Functions ........................................................................ 9
  2.5.2. Negative Effects of Formalin toward Human ................................................. 10
CHAPTER III RESEARCH METHODOLOGY

3.1. Materials and Equipment ............................................................. 20
3.2. Criteria of Respondent .............................................................. 20
3.3. Criteria of Samples ................................................................. 21
3.4. Research Procedure ............................................................... 21
3.5. Research Design ................................................................. 22
  3.5.1. Borax and Formalin Presence .................................................. 22
  3.5.2. Texture Analysis ............................................................... 22
3.6. Procedures ............................................................................... 23
  3.6.1. Borax Analysis .................................................................. 23
    3.6.1.1. EasyTest Test-Kit ....................................................... 23
    3.6.1.2. Chemkit Test-Kit ....................................................... 23
  3.6.2. Formalin Analysis .............................................................. 24
    3.6.2.1. EasyTest Test-Kit ....................................................... 24
3.6.2.2.  *Chemkit* Test-Kit ................................................................. 24
3.6.3.  Texture Analysis of Meatball .................................................. 25
3.6.4.  Observation of Shelf-Life of Soybean Curd Samples ................. 25

CHAPTER IV RESULT AND DISCUSSION
4.1.  Overview of *Kecamatan* Karawaci ........................................... 26
4.2.  Test Result .................................................................................. 26
   4.2.1.  Borax Test Result .................................................................. 27
   4.2.2.  Texture Analysis Test Result ................................................ 28
   4.2.3.  Formalin Test Result ............................................................ 29
   4.2.4.  Shelf-Life Observation .......................................................... 30
4.3.  Overview of Sellers and Meatball Dishes at *Kecamatan* Karawaci ... 31
   4.3.1.  Type of Sellers ................................................................... 31
   4.3.2.  Price of Meatball Dishes ...................................................... 32
   4.3.3.  Sources of Meatball Dishes .................................................. 33
   4.3.4.  Sanitation of Meatball Sellers and Dishes .............................. 34

CHAPTER V CONCLUSIONS AND SUGGESTIONS
5.1.  Conclusions ................................................................................. 36
5.2.  Suggestions .................................................................................. 36

BIBLIOGRAPHY ................................................................................. 37
APPENDIX .......................................................................................... 40
