**LIST OF APPENDIXES** ............................................................................................... xiii

**CHAPTER I**

**INTRODUCTION** ......................................................................................................... 1

1.1 Background ................................................................................................................ 1

1.2 Statement of the Research Problem ........................................................................ 6

1.3 Purpose of the Study ............................................................................................... 6

1.4 Identification of Theoretical Concept .................................................................... 7

1.5 Research Question, Hypothesis ............................................................................. 9

1.6 Conceptual definition and Operational definition ................................................ 9

1.6.1 Conceptual Definition ....................................................................................... 10

1.6.2 Operational Definition ..................................................................................... 10

1.7 The Use of Study ..................................................................................................... 11

1.7.1 For The High School ....................................................................................... 11

1.7.2 For the Community ......................................................................................... 12

1.7.3 For the nursing science and practice ............................................................... 12

**CHAPTER II**

**LITERATURE REVIEW** .............................................................................................. 13

2.1 Theoretical Framework of the Study ..................................................................... 13

2.1.1 Adolescent definition and characteristics ...................................................... 13

2.1.2 Nutritional status ............................................................................................ 15

2.1.3 Nutritional assessment .................................................................................... 17

2.1.4 Factors Related to Nutritional Status .............................................................. 19

2.2 Literature Review .................................................................................................. 26

2.3 Summary of Theories ............................................................................................. 31

**CHAPTER III**

**RESEARCH METHOD** ............................................................................................... 33

3.1 Research Design ...................................................................................................... 33

3.2 Ethical Considerations ............................................................................................ 34
LIST OF TABLES
