

## ACKNOWLEDGEMENTS

First of all, the author would like to thank Lord Jesus for His constant grace and blessings given throughout the completion of this thesis entitled “DEVELOPMENT OF FERMENTED COFFEE BEVERAGE USING DIFFERENT INDONESIAN ARABICA AND ROBUSTA COFFEE BEANS”.

This thesis was written based on the research conducted from August 2020 to November 2020. This thesis was written as the partial fulfilment of the academic requirement to obtain the degree of *Sarjana Teknologi Pertanian Strata Satu*, Food Technology Study Program, Faculty of Science and Technology, Universitas Pelita Harapan, Tangerang.

This thesis could not be successfully completed without the support, guidances and prayers from many people. Therefore, the author would like to express utmost gratitude to these people, including:

1. Eric Jobiliong, Ph.D. as Dean of Faculty of Science and Technology, Universitas Pelita Harapan.
2. Dr. Nuri Arum Anugrahati as Vice Dean of Faculty of Science and Technology, Universitas Pelita Harapan.
3. Laurence, S.T., M.T. as Director of Administration and Student Affair of Faculty of Science and Technology, Universitas Pelita Harapan.
4. Ir. W. Donald R. Pokatong, M.Sc., Ph.D. as Head of Food Technology Study Program, Universitas Pelita Harapan.
5. Ratna Handayani, M.P. as Vice Head of Food Technology Study Program, Universitas Pelita Harapan
6. Intan C. Matita, Ph.D. as thesis supervisor and Natania, M.Eng as thesis co-supervisor and Head of Food Processing Laboratory, for the time, support, patience, advices and guidance throughout the whole process from preparation of thesis proposal until the completion of the thesis.
7. Yuniwaty Halim, M.Sc. as the Head of Quality Control and Research Laboratory and Dr. Ir. Adolf J. N. Parhusip, M.Si. as Head of Microbiology

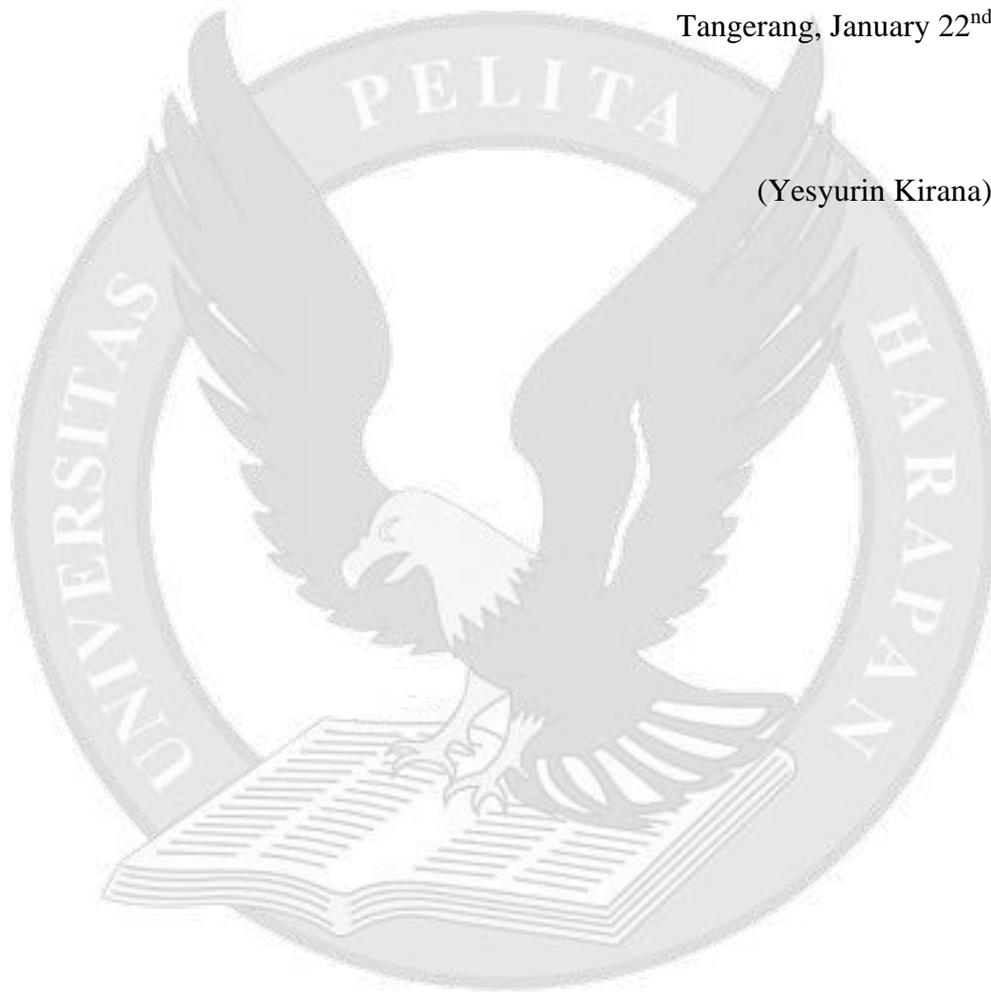

Laboratory for the permission given to the author to conduct the final project in the laboratories.

8. Mr. Regy Tahapary, Mr. Darius Wulakada, Mr. Aji, Mr. Deni and Mr. Adhi, as laboratory officers, for the help and information during the work in the laboratory.
9. All other lecturers, lecturer assistants and staffs of Food Technology Study Program of Universitas Pelita Harapan who helped and equipped the author with skill and knowledge throughout the university years.
10. Beloved parents, Yasid Kirana and Tity and beloved sister, Kezia Kirana and all family members for the endless support, encouragement, prayers, motivation and guidance given to the author throughout the completion of the thesis.
11. Charlene Octavian, Michael Austin, Anthony Gunawan, Bernadette Florencia and Ronaldo Julio, as author's friends and partners on the same team, who have strived together in doing this thesis.
12. Calmness Felia Halim and Michael Djurijanto for the help, information, emotional support and prayers throughout the thesis period.
13. Diandra Tirta Kusuma, Mona Felicia, Joanne Tirto, Shania Edeline, Steven Ibrahim, Michael Adrian, Christopher Setiawan, as author's friends, for the help and support during research in the laboratory.
14. Wilfrina Gracia and Yolita Lilian, as author's friends, for the support during the thesis period.
15. Fanya Setiadi and Stella Naomi, as author's friends, for the information and guidance during the thesis period.
16. Cynthia Lin, Shellen Chen, Julius, Glenn Hizkia Naftalie, Meilani Alwin as author's friends, who gave constant support, prayers and motivation throughout the thesis period.
17. Wilson Burnawan, as author's friends, for the endless support during the thesis period.
18. All parties who had not been mentioned but took part in supporting the author during the thesis period.

The author realizes that there are still many shortcomings in this report. Therefore, the author would like to apologize for any mistakes that are present and would welcome for any critics and suggestions from readers to improve this report. Finally, the author also hopes that the report will be beneficial and useful for the readers. Thank you and God bless you.

Tangerang, January 22<sup>nd</sup> 2021

(Yesyurin Kirana)

| 3.4.4 Total Soluble Solid (FSSAI, 2016).....             | 28 |
| 3.4.5 Caffeine Analysis (BSN, 2004) .....                | 28 |
| 3.4.6 Sensory Analysis (Lawless and Heymann, 2010) ..... | 29 |
| 3.4.6.1 Hedonic Test (Lawless and Heymann, 2010).....    | 29 |
| 3.4.6.2 Scoring Test (Lawless and Heymann, 2010).....    | 30 |

## CHAPTER IV RESULTS AND DISCUSSIONS

|   |    |
|---|----|
| 4.1 Effect of Starter and Sugar Concentration on pH of Fermented Coffee Beverage.....                               | 31 |
| 4.2 Effect of Starter and Sugar Concentration on Total Titratable Acid (TTA) of Fermented Coffee Beverage .....     | 32 |
| 4.3 Effect of Starter and Sugar Concentration on Total Soluble Solid (TSS) of Fermented Coffee Beverage.....        | 34 |
| 4.4 Effect of Starter and Sugar Concentration on Alcohol Content of Fermented Coffee Beverage.....                  | 36 |
| 4.5 Effect of Starter and Sugar Concentration on Hedonic Test of Fermented Coffee Beverage.....                     | 38 |
| 4.5.1 Color .....   | 38 |
| 4.5.2 Coffee Aroma .....  | 39 |
| 4.5.3 Wine Aroma.....   | 39 |
| 4.5.4 Coffee Taste.....   | 40 |
| 4.5.5 Wine Taste .....  | 41 |
| 4.5.6 Overall Acceptance.....   | 42 |
| 4.6 Determination of Preferred Concentration of Starter and Sugar from Research Stage I.....                        | 43 |
| 4.7 Effect of Coffee Origin and Fermentation Time on pH of Fermented Coffee Beverage.....                           | 44 |
| 4.8 Effect of Coffee Origin and Fermentation Time on Total Titratable Acid (TTA) of Fermented Coffee Beverage ..... | 45 |
| 4.9 Effect of Coffee Origin and Fermentation Time on Total Soluble Solid (TSS) of Fermented Coffee Beverage .....   | 47 |
| 4.10 Effect of Coffee Origin and Fermentation Time on Alcohol Content of Fermented Coffee Beverage.....             | 48 |
| 4.11 Effect of Coffee Origins and Fermentation Time on Sensory Properties of Fermented Coffee Beverage .....        | 50 |
| 4.11.1 Scoring Test.....  | 50 |
| 4.11.1.1 Coffee Aroma .....   | 50 |
| 4.11.1.2 Wine Aroma .....   | 51 |

|   |    |
