

## ACKNOWLEDGEMENTS

First and foremost, I would like to thank God for His blessings of love and wisdom, for His grand timing in abundance and opportunity, and for the gift that He has bestowed upon me: the privilege to have access to enough resources that has helped me reach the finish line despite being in the middle of the COVID-19 pandemic. With much relief, happiness, and an overflowing sense of gratitude, I am able to say that this thesis, titled: “THE IMPACT OF FUNCTIONAL BRAND QUALITIES AND INTANGIBLE BRAND QUALITIES TOWARDS PERCEIVED VALUE FOR MILLENNIALS” has been completed in time as a requirement in order to attain the bachelor’s degree (*Sarjana SI*) for Management Study Program, from the Faculty of Economics and Business at Universitas Pelita Harapan. This could not have been done without all the blessings God has given me comes the great contribution and support from the important people around me. Thus, I would like to show my utmost gratitude by acknowledging those who have greatly contributed to my research endeavours:

1. Dra. Gracia Shinta S. Ugut, M.B.A., Ph.D., as the Dean of the Faculty of Economics and Business at Universitas Pelita Harapan
2. Mrs. Isana S.C. Meranga, S.P., M.M., as the Department Chair of Management.
3. Dr. Ir. Evo S. Hariandja, M.M., as AOE of Marketing.
4. Ms. Liza Handoko, S.E., M.M., as my Academic Advisor since 2017.

5. Mrs. Juniarty, S.Sos., M.M., my dearest thesis supervisor who has dedicated her time and patience to give our batch her knowledge, wisdom, experience, guidance, and support, which really helped us to finish this thesis.
6. All lecturers and staff in UPH Business School whom I have had the blessing and privilege to learn from in the past 3 years.
7. To all the respondents who willingly took their time and energy to participate in this research study.
8. To my dearest parents for all the support and guidance they have given me throughout my life that I may be at this position now.
9. To my wonderful siblings who have been a great support system at home.
10. To Winston Joshua, who has been my anchor, my number one cheerleader, and my source of motivation since my decision to return to university and pursue my studies again.
11. To Saurabh Tyagi and Hanna Nadia Phinari (the latter who also pursued this thesis under Ms. Juniarty's guidance together with me), who were supposed to have been one group for this thesis, yet we managed to pursue the final project individually and still supported each other through and through.
12. To friends from the "Order of the Black Helmet," Iman Satriaputra Sukarno and Yoga Adwitya Affan Pradana; friends from "Linnmon Gang" Ferinzhy Halik, Ratu Ayu Larasati, Robert Setiadi, Muhammad Dzakiy, Cornellius Kurniawan and Evan Harsojo; to the Discord family from "Archipelago" and "Rigor Mortis"; to Ian Jusuf, Gabriela Supangat, Paksi Cahyo, Lieny A. Laury, Anastasia Darmawan, and Andreea Boie for all the laughter and joy,

the mental, emotional and spiritual support throughout the process of writing this thesis.

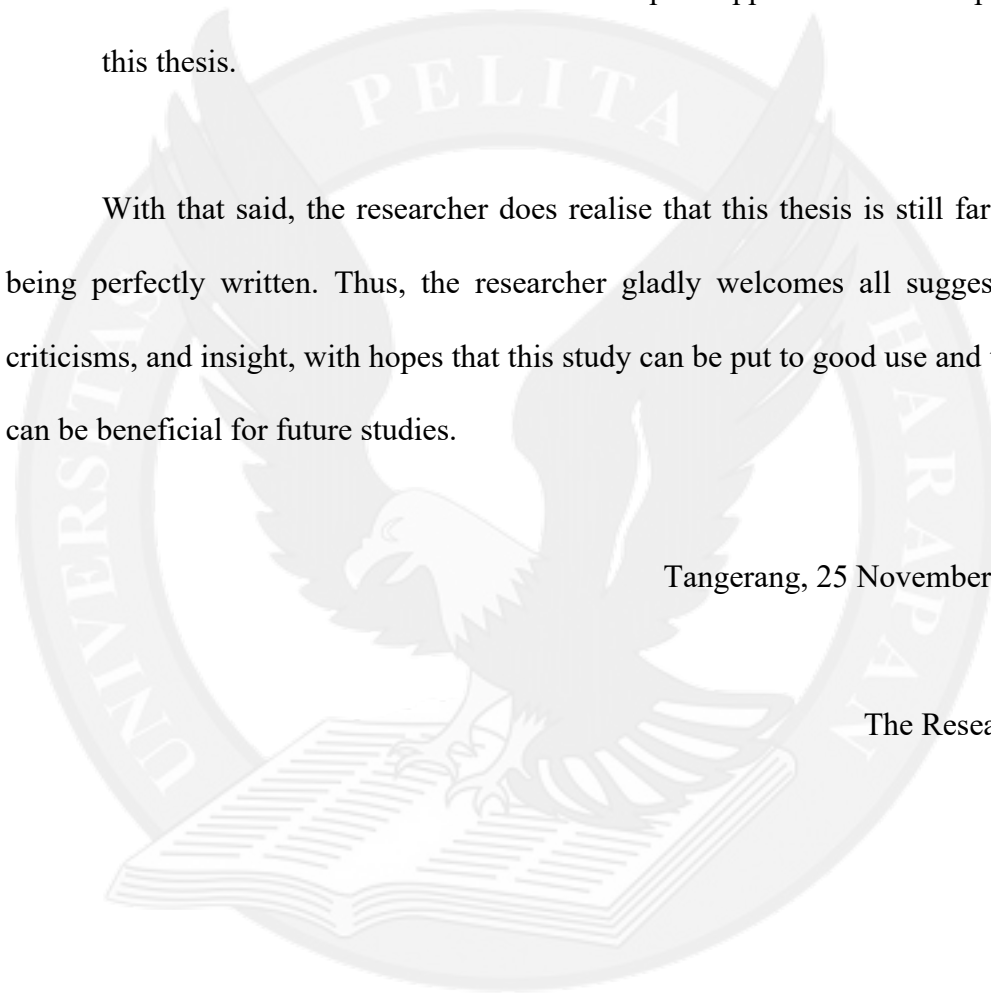

13. To all friends and fellow classmates since 2017 and those who were in the Marketing concentration.

14. To all other friends out there who have helped supported me in completing this thesis.

With that said, the researcher does realise that this thesis is still far from being perfectly written. Thus, the researcher gladly welcomes all suggestions, criticisms, and insight, with hopes that this study can be put to good use and that it can be beneficial for future studies.
