**THE INFLUENCE OF COMMUNICATION, HIRING PRACTICES, TRAINING AND DEVELOPMENT, ON AFFECTIVE COMMITMENT OF TEACHERS AT XYZ MIDDLE AND HIGH SCHOOL IN TANGERANG**  
(xvi + 116 pages; 9 figures; 17 tables; 6 appendices)

In undergoing the teaching and learning process, every teacher needs to have an inner encouragement to carry out teaching and learning activities that are useful for maximizing the objectives of the teaching held by the school. Internal encouragement in carrying out teaching and learning activities shows the affective commitment that each teacher has in carrying out their duties. Various things such as communication, hiring practices, and training and development have an influence on the affective commitment of each teaching staff. This research was conducted on 23 teaching staff at XYZ Middle and High School in Tangerang. Data processing was performed using quantitative SmartPLS. Through the research conducted, the results obtained show that communication has a positive effect on affective commitment, hiring practices have a positive effect on affective commitment, and training and development has a positive effect on affective commitment.

*Key Words:* affective commitment, communication, hiring practices, training and development
