

ACKNOWLEDGEMENT

I would like to express my gratitude to The Almighty God's grace that I can finish my thesis within my capabilities and hope to reach the expectations of people for me. This study is aimed to fulfill one of the requirements to graduate as a Bachelor of management from *Universitas Pelita Harapan*. This thesis will not be completed without the support from my family who provided me with an unimaginable amount of care for me to arrive at this point, lecturers who worked very hard for all of us to understand their lectures, friends and peers that i have met since the beginning of my time spent at campus. Hence why the author would like to express their thanks to:

9. Shelley & Stefanie Valencia as my closest sisters, my role models to complete the thesis on time.
10. Angelique Maria F., Dara Nathania, Desma Lara, as my closest friends since I started classes in management.
11. My friends and upperclassmen from Nihon Utopia that supported my progress in university life.

Lastly, this thesis needs more criticisms and inputs to complete its purpose and most deficiencies are needed for help from others. The author would like to extend a hand for others to be a help for readers, and hoped to bring them more information.
