HUBUNGAN PENGETAHUAN PERAWAT TENTANG ENAM BENAR OBAT DENGAN PENERAPAN PRINSIP PEMBERIAN OBAT ENAM BENAR DI SATU RUMAH SAKIT SWASTA INDONESIA BAGIAN BARAT

(xiii+81 halaman; 1 bagan; 15 tabel; 6 lampiran)

Pemberian obat kepada pasien merupakan salah satu tindakan dalam asuhan keperawatan. Dalam pemberian obat kepada pasien perawat perlu memperhatikan aspek enam benar obat untuk mengurangi risiko terjadinya *medication error*. Aspek enam benar obat meliputi: benar pasien, benar obat, benar dosis, benar rute, benar waktu dan benar dokumentasi. Penelitian ini bertujuan untuk mengetahui adakah hubungan pengetahuan perawat tentang enam benar obat dengan penerapan prinsip pemberian obat enam benar di satu rumah sakit swasta di Indonesia Barat.

Metode penelitian adalah analisis korelasi dengan menggunakan kuesioner dan observasi. Populasi penelitian adalah seluruh perawat yang bekerja di ruang rawat inap satu rumah sakit swasta di Indonesia Barat, sejumlah 32 orang. Instrumen penelitian yang digunakan adalah kuesioner yang sudah dilakukan uji validitas dan reliabilitas, serta lembar observasi. Teknik pengambilan sampel dalam penelitian ini adalah *total sampling*. Hasil dari penelitian ini adalah tidak ada hubungan yang signifikan antara pengetahuan perawat tentang enam benar obat dengan penerapan prinsip pemberian obat enam benar di ruang rawat inap satu rumah sakit swasta Indonesia Barat, dengan hasil nilai $p = 0,072$ dengan $p\text{ value} = 0,05$ sehingga $p > p\text{ value}$.

Kata Kunci : Pengetahuan perawat, enam benar obat, rumah sakit.
