THE INFLUENCE OF BRAND IMAGE, PRODUCT QUALITY AND WORD OF MOUTH ON CONVERSE SHOES BUYING DECISION IN JAKARTA

(xiv + 94 Pages + Bibliography + Attachments)

This study is to determine the positive influence of situational and non-situational factors consisting of brand image, product quality, and word of mouth on purchasing decisions for Converse shoes in Jakarta. In recent years fashion retail companies have experienced a decline in sales, fashion is not only the clothes that everyone wears, but shoes are also included in fashion itself and become a highlight in clothing. However, sales of Converse shoes experienced a decline in 2020, which influenced the decline, one of which was due to the Covid-19 pandemic which had spread throughout the world, especially in Indonesia. In 2020 Converse's revenue decreased by \$ 60 million USD. Therefore, the researchers conducted this research so that they could find out whether the brand image, product quality, word of mouth had an influence on the purchasing decision of Converse shoes in Jakarta. In sampling, the technique chosen was non-probability sampling with purposive sampling, in which the respondents were consumers who had purchased Converse shoes in Jakarta with a total of 390 respondents. The data is then processed using Smart PLS software using Partial Least Square - Structural Equation Model. The results of the study indicate that the variables brand image, product quality and word of mouth have a positive effect on a person's decision.
