

ACKNOWLEDGEMENT

First and foremost, I would like to express my deepest gratitude and utmost respect towards our Lord and Savior, Jesus Christ. For having me gone through life to this point and for always answering my prayers through my business plan completion. For his grace and mercy that I was able to stand here today to make this business plan done while also not forgetting the wonderful opportunity that He has given me in life and in making this startup a reality. For finding ways for me to find connection through Sparklabs Incubator and Navanti Holdings Pty Ltd which allows Tutoria to become a reality.

I personally would want to thank Mr Radityo Fajar Arianto for being my thesis supervisor and also the Director of Sparklabs Incubator. As for insights and advice both during thesis and during running startup, he always believed in the our idea and would back our business up. From the Sparklabs Incubator event that is being held on 2019, he always belief in the idea of Tutoria and today its just becoming a reality. His encouragement, patience and passion towards Tutoria has always motivated the startup especially during its downfall times. Therefore without Mr. Radityo, this wouldn't also become a reality.

I am also very grateful of the Tutoria team for always being there for me ever since semester 1 of our UPH life. For having to sacrifice a lot for the startup competition and for persevering on this route up till today. My utmost respect goes to the CEO of Tutoria itself, Wesly Kevin. As he always helps me in my studies

and teaches me the things that I cannot solve. For always being fair and square towards people and having no bias thoughts. For being a very great leader in leading the Tutoria project as he never gave up and always full of energy and optimism. And lastly, for always being there for people and saving the class from doomsday. Could have not done this without him and therefore I want to give Wesly my utmost respect. Furthermore, I would also want to thank the other co-founders of Tutoria, Yonda Widya, Marvin Liang, Alvin Harwin, for always sustaining in the idea even during its darkest time, and I acknowledge their sacrifice in making this project into a reality.
