It is only by God's grace that this Final Assignment was able to be done. From the beginning until the end, He had been guiding each step through everything even until the completion.

This Final Assignment titled **"The Influence of Instagram Screen Time on Body Image Dissatisfaction in Female Emerging Adults"** was done as part of the academic requirement to obtain a Bachelor's Degree in the Psychology Study Program of the Faculty of Psychology. Pelita Harapan University, Tangerang, Banten.

The researcher is aware that the completion of this Final Assignment would not have been attainable without the help, prayer, and guidance from a lot of people. For that, the researcher would like to personally send gratitude to the people involved in the process of this Final Assignment :

1. Yonathan Aditya, Ph.D, Dean of the Faculty of Psychology
2. Jessica Ariella, S.Psi., M.A., Head of the Psychology Study Program
3. Dicky Sugianto, M.Psi., Psikolog, docent and supervisor who had been nothing but patient, encouraging, and understanding through the whole process, without whom, I would not be able to do this Final Assignment as he is one of the few people who genuinely believed in me and my capabilities even when I'm doubting myself.

4. Karel Karsten Himawan, Ph.D and Erni Julianti Simanjuntak, S.Psi, M.Sc, examiners who helped me throughout my revisions and gave me feedback for me to reflect on.
5. My parents, who supported me in pursuing my studies in psychology and continuously encouraged me from the very beginning. Their constant encouragement through difficult times, be it in my studies or my life in general, their constant cheers kept me holding onto hope and eventually completing one more chapter in my life.
6. My sister, Vanessa Celia, who may not understand what I'm saying most of the time but still lent me an ear when I needed to vent, lent me a shoulder when I was tired, and gave me opinions though she couldn't really understand what it is I'm writing.
7. Toothless, who has been with me through thick and thin. He's always there when I break down from being so stressed, never letting me cry for too long as he would always come and try to cheer me up and would always give me the perfect distraction. He's more than a pet, he's my therapy dog and companion.
8. ATEEZ; Kim Hongjoong, Park Seonghwa, Jung Yunho, Kang Yeosang, Choi San, Song Mingi, Jung Wooyoung, and Choi Jongho, who kept me company during nights I would stay up in order to finish my revisions and provide me with entertainment when I needed it the most. The words that ATEEZ said during lives, shows, or interviews, their encouragement and promise to be a shoulder to lean on helped me regain my strength.
9. Hongjoong, the music you created not only accompanied me, but it also became my safe haven.
10. Seonghwa, you provided me with a sense of protection whenever you appear, the messages you shared made me feel cared for.

11. Yunho, Yeosang, San, Mingi, and Wooyoung, the chaos 99즈 created were not only top tier comedy gold, but it served as great distraction and also reward after slaving away in my job and in this Final Assignment. Mingi, I am very glad that you came back from your long hiatus recently (180721).

17. Fellow "Team Beban Pak Dicky", Amelia Ciputri, Esteryna Maylani, Hanastasia Josephine, Joshua Lazuardi, Shania Gabriela, Sonia Shisuka and Matthew Putra. Friends who helped, encouraged, and gave insight since the beginning when the group was formed. I especially would like to thank Shisuka, you were one of the few I was able to go when I was in a bind with my Final Assignment. Not only did you go out of your way to help me, but you also went through the emotional rollercoaster I was on during my confusion and trouble.
18. My very first friends, Alicia Mahaputri and Chloë Larue, who pushed me to think about the future even during the very first semester. Whilst Alicia accompanied me and became my distraction, Chloë became my ears and shoulder to lean on. 19. My mentoring group, FPKUY, Bangdit (Aditya Mahardika), Geraldo Hugo, Josephine Gracia, Monica Keshya, Natasha Trinita, Nova Karolina, Steffansim. The very first ones to accept me even though I came late during orientation with a cup of grande caramel latte in my hand, every single one of you accepted me as the noisy, crazy one of the group and left a big impression on me.
20. Viron Rivaldo, the first friend I made and got close with in second year. It wasn't a secret that neither of us were close during our first year, but we became close inseparable

friends at one point, became each other's confidant and reminder for better or for worse. Thank you for being my friend during one of the toughest moments in my life.

21. Fida Muljono, my therapist and Chloë's mom. It was a complete accident that I was referred to you by a family friend, and I am very glad it was you. You helped me ease into my Depressive Disorder diagnosis and helped me build my confidence back, you convinced me that I could overcome whatever it is that I have problems with, and without you, I would have faltered long ago.
22. Other people such as Jacob Povilas William Stăskevičius whom I was not able to mention. Each of you had played a hand in this process, and I wouldn't be able to make it without any of you.

The researcher realizes that there are still mistakes made in this Final Assignment. Therefore, critiques are always welcomed as it would help the researcher. It is with great sincerity and hope that this Final Assignment would be able to help those who read it.
