

## ACKNOWLEDGEMENTS

The highest gratitude is to the Jesus Christ for His endless love, blessing and guidance that had been given unto the writer for completing this thesis report, which entitled “UTILIZATION OF *TORBANGUN* (*Plectranthus amboinicus* L.) LEAVES AND FENUGREEK (*Trigonella foenum-graecum* L.) SEEDS IN MALTED BARLEY MILK FORMULATION”. This thesis was written to fulfill one of the academic requirements to obtain the degree of *Sarjana Teknologi Pertanian Strata Satu*, Food Technology Study Program, Faculty of Science and Technology, Universitas Pelita Harapan.

The writer realizes that this thesis would not be completed well without the support, assistance, and guidance of many parties. Hence, the writer would like to express the greatest gratitude to those who have given their supports and guidance, including:

1. Eric Jobiliong, Ph.D. as Dean of Faculty of Science and Technology.
2. Dela Rosa, M.M., M.Sc., Apt. as Vice Dean of Faculty of Science and Technology.
3. Laurence, S.T., M.T. as Director of Finance and Student Affair Faculty of Science and Technology.
4. Ir. W. Donald R. Pokatong, M.Sc., Ph.D. as Head of Food Technology Study Program, Faculty of Science and Technology, for the chance to conduct the thesis project and guidance throughout the thesis project period.
5. Ratna Handayani, M.P. as Vice Head of Food Technology Study Program for the guidance throughout the thesis project period.

6. Intan Cidarbulan Matita, Ph.D. as thesis supervisor for the time, guidance and support throughout the whole process of research proposal preparation until the completion of the thesis project.
7. Natania, M.Eng. as Head of Food Processing Laboratory, Yuniwaty Halim, M.Sc. as the Head of Quality Control and Research Laboratory, Dr. Adolf J. N. Parhusip, M.Si. as the Head of Microbiology Laboratory and Dr. Tagor M. Siregar, S.Si., M.Si. as the Head of Chemistry Laboratory who had given permission to the writer conduct the research in the laboratories.
8. Christopher I. Rimba, S.T.P, Fiammeta Esther, S.T.P, Darius, Yosafat, Adi, and Adzie for the guidance and information during the work in the laboratories.
9. All lecturers, lecturer assistants, and staffs in Food Technology Study Program for the knowledge given and support which very helpful to the writer during completion of thesis report.
10. Beloved parents, Johny Tanuwijaya and Lia Ellensyah Tan, and dearest sister and brother, Cherry Tanuwijaya and Eric Jarvis Tanuwijaya, for the endless love, prayers and supports given to the writer during this thesis completion.
11. Brigitta Bella, Kezia Olivia, Veronica Angelia Djuarsa, Stefani, and Smita Maitri as my best partners under the same supervisor for the never-ending supports, prayers and sharing through ups and downs from the beginning until the end during this thesis process.
12. Carinna Ruth Darmawan, Felicia Agustin and Jennifer Alvionita for the never-ending supports, love, joys and prayers from the beginning until the end of this thesis project.

13. Tiffany Nathalie, Joanina, Gracia Angelina, Katarina Tere, Irving Ekaputra, Kevin Christonar, Hendi Candra, Nathania Sofie, Danielle Linggar, Aldwin T., Siska, Kineta Kumala, Aileen N., Joshua Agus, Reynald Livano and Dustin Hendarlim for the supports, giving advices and share of knowledge from the beginning until the end of my thesis project.
14. Angeline Clarissa, Eva Riani, Regina Theodora, Shella Hana and Vincent Ferrandy for the endless supports and love from the beginning until the end of my thesis project.
15. All students from Food Technology Batch 2015 who also did the thesis project for the support and togetherness.
16. All other friends and relatives who are not yet mentioned, but have supported the writer during this thesis completion.

The writer realizes that this report is not perfect and might have done some mistakes during the research process and completion of this report. Therefore, the writer would welcome any criticisms and suggestions given to this report with great pleasure. Finally, the writer hopes that this report would be useful and beneficial for the readers. Thank you.

Tangerang, January 2019

(Celine Tanuwijaya)

## TABLE OF CONTENTS

	page
COVER	
STATEMENT OF THESIS AUTHENTICITY	
APPROVAL BY THESIS SUPERVISOR	
APPROVAL BY THESIS EXAMINATION COMMITTEE	
ABSTRACT .....	v
<i>ABSTRAK</i> .....	vi
ACKNOWLEDGEMENTS .....	vii
TABLE OF CONTENTS .....	x
LIST OF FIGURES .....	xv
LIST OF TABLES .....	xvii
LIST OF APPENDICES .....	xviii
CHAPTER I INTRODUCTION	
1.1 Research Background .....	1
1.2 Research Problems .....	3
1.3 Objectives .....	4
1.3.1 General Objectives .....	4
1.3.2 Specific Objectives .....	5
CHAPTER II LITERATURE REVIEW	
2.1 Functional Drink .....	6
2.1.1 Galactagogue .....	6
2.2 <i>Torbangun</i> Leaf .....	7
2.2.1 Nutrients Composition in <i>Torbangun</i> Leaf .....	9
2.2.2 Bioactive Compounds and Its Health Benefits .....	9
2.2.3 Antioxidant Activity in <i>Torbangun</i> Leaf .....	11
2.3 Fenugreek Seeds .....	12
2.3.1 Nutrients Composition in Fenugreek Seeds .....	14

2.3.2 Bioactive Compounds and Its Health Benefits.....	15
2.4 Barley.....	16
2.4.1 Malt Production .....	18
2.4.2 Nutrients Composition in Malted Milk Drink .....	18
2.4.3 Health Benefits of Malted Milk.....	19
2.5 Chemical Properties in Barley Grain.....	20
2.5.1 Antioxidant Properties.....	20
2.5.1.1 Total Phenolic Contents (TPC).....	20
2.5.1.2 Flavonoid Compound.....	20
2.5.2 pH Determination .....	21
2.5.3 Proximate Content in Barley Grain .....	21
2.5.3.1 Carbohydrates .....	21
2.5.3.2 Protein .....	22
2.5.3.3 Ash .....	22
2.5.3.4 Lipids .....	22
2.6 Organoleptic Properties .....	23
<b>CHAPTER III RESEARCH METHODOLOGY</b>	
3.1 Materials and Equipment.....	24
3.2 Research Methodology .....	25
3.2.1 Research Stage I .....	26
3.2.1.1 Preparation of <i>Torbangun</i> Leaves Steeps .....	26
3.2.1.2 Preparation of Fenugreek Seeds Steeps .....	27
3.2.1.3 Preparation of <i>Torbangun</i> Leaves and Fenugreek Seeds Steeps .....	28
3.2.1.4 Preparation of Malted Barley Milk Drink.....	29
3.2.1.5 Experimental Design Research Stage I.....	30
3.2.1.6 Parameter Analysis .....	32
3.2.2 Research Stage II.....	32
3.2.2.1 Steeping of <i>Torbangun</i> Leaves and Fenugreek Seeds in Malted Barley Milk.....	32
3.2.2.2 Experimental Design Research Stage II.....	34

3.2.2.3 Parameter Analysis .....	36
3.3 Method of Analysis .....	36
3.3.1 DPPH Method .....	36
3.3.2 Total Phenolic Content .....	37
3.3.3 Total Flavonoid Content .....	37
3.3.4 Proximate Analysis .....	38
3.3.4.1 Moisture Content (AOAC, 2005) .....	38
3.3.4.2 Ash Content (AOAC, 2005) .....	38
3.3.4.3 Mineral Content .....	39
3.3.4.4 Protein Content (AOAC, 2005) .....	40
3.3.4.5 Crude Fat Content (AOAC, 2005) .....	42
3.3.4.6 Total Carbohydrate Content (AOAC, 2005) .....	43
3.3.5 pH Level (AOAC, 2005) .....	43
3.3.6 Viscosity .....	43
3.3.7 Total Soluble Solids (AOAC, 2005) .....	43
3.3.8 Color .....	44
3.3.9 Organoleptic Test .....	45
3.3.9.1 Hedonic Test .....	45
3.3.9.2 Scoring Test .....	45
3.3.10 Percent Yield (AOAC, 2005) .....	46
3.3.11 Toxicity Test (Juniarti, <i>et al.</i> , 2009) .....	46
 CHAPTER IV RESULTS AND DISCUSSIONS	
4.1 Taxonomical Verification of <i>Torbangun</i> and Fenugreek Species .....	48
4.2 Research Stage I .....	48
4.2.1 Proximate Analysis of Raw Materials .....	48
4.2.1.1 Moisture Content .....	48
4.2.1.2 Ash Content .....	50
4.2.1.3 Protein Content .....	50
4.2.1.4 Mineral Content .....	51
4.2.2 Antioxidant Activity of Raw Materials and Steeps .....	52

4.2.3 Total Phenolic Content of Raw Materials and Steeps .....	53
4.2.4 Total Flavonoid Content of Raw Materials and Steeps.....	54
4.2.5 Processing of Making Functional Drink.....	55
4.2.6 Effect of Ratio between Barley and Wheat Flour in Malted Barley Milk .....	56
4.2.6.1 Scoring Results .....	56
4.2.6.2 Hedonic Results .....	58
4.2.6.3 Physicochemical Characteristics of Selected Malted Barley Milk .....	60
4.3 Research Stage II .....	61
4.3.1 Effect of Ratio between Types of Steeps and Malted Barley Milk Treatment to Functional Drink .....	61
4.3.2 Scoring Results of Fortified Malted Barley Milk.....	61
4.3.2.1 Aroma.....	61
4.3.2.2 Color.....	63
4.3.2.3 Aftertaste.....	64
4.3.3 Hedonic Results of Fortified Malted Barley Milk.....	65
4.3.3.1 Aroma.....	65
4.3.3.2 Color.....	66
4.3.3.3 Aftertaste.....	67
4.3.3.4 Overall Acceptance.....	68
4.3.4 Best Formulation of Fortified Malted Barley Milk .....	69
4.3.4.1 Antioxidant Activity .....	69
4.3.4.2 Total Phenolic Content.....	70
4.3.4.3 Total Flavonoid Content .....	72
4.3.4.4 pH Level between Control and Best Formulation	73
4.3.4.5 Color (°hue) analysis between Control and Best Formulation .....	74
4.3.4.6 Viscosity Analysis between Control and Best Formulation .....	75
4.3.4.7 Total Soluble Solids of Best Formulation.....	76
4.3.4.8 Mineral Content of Best Formulation .....	76
4.3.5 Comparison of Best Formulation and Control Sample ....	77

4.4 Complete Proximate Analysis of Best Formulation and	
Commercial .....	78
4.4.1 Moisture Content .....	78
4.4.2 Ash Content .....	79
4.4.3 Protein Content .....	79
4.4.4 Crude Fat Content.....	80
4.4.5 Total Carbohydrate Content .....	80
4.5 Phytochemical Analysis of Commercial Drink .....	81
4.6 Results of Toxicity Test of <i>Torbangun</i> Leaves Extract.....	81
<b>CHAPTER V CONCLUSIONS AND SUGGESTIONS</b>	
5.1 Conclusions .....	83
5.2 Suggestions.....	84
<b>BIBLIOGRAPHY.....</b>	<b>85</b>
<b>APPENDICES .....</b>	<b>91</b>

## LIST OF APPENDICES

	page
Appendix A. Identification of <i>Torbangun</i> leaves and Fenugreek seeds species.....	A-1
Appendix B. Moisture content of <i>Torbangun</i> leaves .....	B-1
Appendix C. Ash content of <i>Torbangun</i> leaves .....	C-1
Appendix D. Yield of dried <i>Torbangun</i> leaves .....	D-1
Appendix E. Moisture content of raw Fenugreek seeds .....	E-1
Appendix F. Ash content of raw Fenugreek seeds .....	F-1
Appendix G. Moisture content of dry malt extracts (DME) Barley powder ....	G-1
Appendix H. Ash content of dry malt extracts (DME) Barley powder .....	H-1
Appendix I. Mineral analysis of raw materials .....	I-1
Appendix J. Antioxidant activity of raw materials .....	J-1
Appendix K. Antioxidant activity of raw materials steeps .....	K-1
Appendix L. Antioxidant activity of malted Barley milk .....	L-1
Appendix M. Total phenolic content of raw materials .....	M-1
Appendix N. Total phenolic content of malted Barley milk .....	N-1
Appendix O. Total flavonoid content of raw materials .....	O-1
Appendix P. Total flavonoid content of malted Barley milk .....	P-1
Appendix Q. Organoleptic results of malted Barley milk .....	Q-1
Appendix R. Organoleptic results of malted Barley milk formulation .....	R-1
Appendix S. Mineral analysis of best formulation .....	S-1
Appendix T. Physicochemical results of malted Barley milk (control) .....	T-1
Appendix U. Physicochemical results of malted Barley milk (formulation) ...	U-1
Appendix V. Complete proximate analysis of best formulation .....	V-1
Appendix W. Complete proximate analysis of commercial sample .....	W-1
Appendix X. Phytochemical analysis of commercial sample .....	X-1
Appendix Y. Result of T-test analysis between best formulation and control ..	Y-1
Appendix Z. Toxicity test of <i>Torbangun</i> leaves extracts .....	Z-1

Appendix AA. Organoleptic test questionnaire sheets .....AA-1  
Appendix AB. Raw materials, steeps and formulation of malted  
Barley milk .....AB-1
