ACKNOWLEDGEMENT

This thesis was written as one of the requirements to obtain Master Degree in the Masters of Education Technology at Universitas Pelita Harapan.

Foremost I would like to thank God for his blessings, inspiration, strength and ability he has given upon the completion of this research, without which I would not have done. I am truly blessed to be bounded by the most supportive people who have tremendously supported me throughout the entire process with their contributions, help, encouragement, prayers, nurture and guidance much needed to successfully complete this thesis. I would like to convey my sincerest gratitude for their helping hands:

1. Ibu Connie Rasilim, S.S., B.Ed., M.Pd. the Dean of the Faculty of Education.
2. Dr. Niko Sudibjo, S.Psi.,M.A., the dynamic Head of the Study Program.
3. Dr. Marlin Marpaung, M.Sc. as my thesis supervisor for his patient guidance, encouragement, guidance and all the advices he has provided throughout my time during this theses. I am lucky to have a supervisor who responded to my questions and queries so promptly.
4. My spouse, Mr. Chandru Vatvani and my sons Jevesh, Dhiren and Nishanth, for their never ending love, encouragement, guidance and support throughout my life. Thank you for giving me strength to reach my
goal and chase my dreams. I would like to express my heart-felt gratitude towards them.

5. My parents: Mr. Ram Khubani and Mrs. Jayshree Khubani for having faith in me that I would able to complete this research to my maximum potential, whose wisdom thinking and caring will never be forgotten.

6. All the lecturers and Graduate Faculty of Education, who have inspired me and taught me to be a better educator of integrity during my study at Universitas Pelita Harapan.

7. Prof. Dr. Aris Pongtuluran for his guidance and life lessons.

8. All the staffs, librarian & assistants who have been all very helpful during the program.

9. The Principal, Mr. Ely Barrera of Gandhi School Ancol who guided me and gave me strong determination for my thesis topic.

10. The supervisors of the Middle School Section of Gandhi School Ancol, Mrs. Yogeeta Bhambani and Mrs. Indah Primasari for being supportive throughout the study and gave me permission to take leave and conduct the research in another school.

11. The teachers of the Middle School Section of Gandhi School Ancol, who gave me inspiration and moral support to conduct the study.

12. The Principal of the MYP at Tzu Chi School and the teachers who were the participants of this research. They were supportive in filling up questionnaires, granted me permission for me to be an observer in their
class and willingness to give responses during interviews. I thank them for a great time.

13. The students in the MYP at Tzu Chi School who were well-mannered and polite which made me feel comfortable during the research.

14. My university friends for their precious moments at the campus. Each of you has made a spot in my life. Sincere apologies for not mentioning names to each one of you.

15. All others who I cannot mention individually but have played a part in this assignment.

Finally, the writer realizes that this thesis is still far from perfection. I would like to extend my sincere apology for my offensive faults or incorrect analysis and information probably found in this thesis. I would also like to invite criticism and feedback to improve this thesis. However, I still hope that this thesis will be useful for the readers who need this information and provide us with additional knowledge in the children’s education.

ABSTRAK .................................................................................................................. v
ABSTRACT ................................................................................................................ vi
ACKNOWLEDGEMENT ............................................................................................. vii

TABLE OF CONTENTS ............................................................................................. x
LIST OF FIGURES .................................................................................................... xv
LIST OF TABLES ....................................................................................................... xvi

APPENDIX ................................................................................................................. xviii

CHAPTER I: INTRODUCTION ................................................................................. 1
  1.1 Study Background ......................................................................................... 1
  1.2 Problem Identification .................................................................................. 7
  1.3 Research Questions ....................................................................................... 8
  1.4 Purpose of the Research ............................................................................... 9
  1.5 The Significance of the Research ................................................................. 9
    1.5.1 Theoretical ............................................................................................. 10
    1.5.2 Practical ................................................................................................ 10
  1.6 Organization of research ............................................................................. 12

CHAPTER II: LITERATURE STUDY ................................................................. 14
  2.1 Curriculum .................................................................................................... 14
    2.1.1 Types of Curriculum .............................................................................. 14
  2.2 IB – International Baccalaureate .................................................................. 15
  2.3 Middle Years Program curriculum (MYP) ................................................... 18
  2.4 Teachers Competence .................................................................................. 22
  2.5 Inquiry-Based Learning ................................................................................ 28
2.5.1 Curriculum as Inquiry ................................................................. 29
2.5.2 Process of the Inquiry model...................................................... 30
2.5.3 Implementation of Inquiry-Based Learning................................. 33
2.5.4 Benefits of Implementation of Inquiry-Based Learning .............. 38
2.5.5 Challenges of Implementation of Inquiry-Based Learning .......... 38
2.6 Work Motivation........................................................................... 39
  2.6.1 Perspectives of Motivation......................................................... 40
  2.6.2 Factors of motivation................................................................. 42
  2.6.3 Elements of Motivation............................................................. 42
  2.6.4 Factors for developing motivation ............................................ 47
  2.6.5 Theories of Motivations............................................................ 48
  2.6.6 Benefits of Motivation............................................................... 59
  2.6.7 The effect of work motivation towards teachers competence in IBL ................................................................................. 59
2.7 Classroom Management............................................................... 60
  2.7.1 Characteristics of Classroom Management............................... 61
  2.7.2 Processes involved in Classroom Management......................... 62
  2.7.3 Measures of Classroom Management.................................... 63
  2.7.4 Various Perspectives of Classroom Management..................... 66
  2.7.5 The effect of classroom management towards teachers competence in IBL ................................................................................. 67
2.8 Critical thinking ................................................................. 67
  2.8.1 Standards of Critical Thinking.................................................. 69
  2.8.2 Measures of Critical Thinking............................................... 71
  2.8.3 Benefits of Critical thinking................................................... 74
  2.8.4 The effect of critical thinking towards teachers competence in IBL . 74
2.9 The effect towards dependent variables ........................................ 75
   2.9.1 The effect of work motivation towards classroom management ..... 75
   2.9.2 The effect of work motivation towards critical thinking skills ....... 75
   2.9.3 The effect of classroom management towards critical thinking skills .................................................................................. 76

2.10 Previous relevant researches ....................................................... 76
   2.10.1 The effect of work motivation towards teachers’ competence in IBL ...................................................................................... 76
   2.10.2 The effect of classroom management towards teachers’ competence in IBL ............................................................. 77
   2.10.3 The effect of critical thinking skills towards teachers’ competence in IBL ............................................................. 77
   2.10.4 The effect of work motivation towards classroom management .... 78
   2.10.5 The effect of work motivation towards critical thinking skills ...... 78
   2.10.6 The effect of critical thinking skills towards classroom management .................................................................................. 78

2.11 Conceptual framework ............................................................... 79
   2.11.1 Definition ............................................................................. 79
   2.11.2 Conceptual Definition .......................................................... 80
   2.11.3 Operational Definition ......................................................... 81

2.12 Theoretical Framework .............................................................. 88
   2.12.1 Hypothesis ........................................................................... 88

CHAPTER III: RESEARCH METHODS ............................................. 91
   3.1 Introduction ............................................................................. 91
   3.2 Research Design .................................................................... 91
   3.3 Place and Time of Research .................................................... 94
   3.4 Research Procedures .............................................................. 95
   3.5 Population and Sample ............................................................ 97
     3.5.1 Population ........................................................................ 97
3.5.2 Sample .................................................................................................................. 98
3.6 Data collection Techniques .................................................................................... 98
3.7 Research Instruments ............................................................................................ 99
  3.7.1 Questionnaire ..................................................................................................... 100
  3.7.2 Observation ........................................................................................................ 120
  3.7.3 Interview ............................................................................................................ 120
  3.7.4 Checklist ............................................................................................................. 121
3.8 Content Validity ...................................................................................................... 124
3.9 Scales of measurement ......................................................................................... 124
3.10 Data analyzing techniques .................................................................................. 125
  3.10.1 Inferential Statistics ......................................................................................... 128
3.11 Descriptive Statistics .......................................................................................... 132
  3.11.1 Hypothesis Test ............................................................................................... 132
3.12 Significance Test .................................................................................................. 133
3.13 Statistical Hypotheses ......................................................................................... 134
3.14 Research Model .................................................................................................... 137

CHAPTER IV: RESEARCH FINDINGS AND DISCUSSION .............................................. 138
4.1 Respondents’ Profile ............................................................................................. 138
  4.1.1 Gender of respondents ....................................................................................... 139
  4.1.2 Age of respondents ........................................................................................... 139
  4.1.3 Highest Academic Qualification of teachers ..................................................... 140
  4.1.4 Teaching experiences of teachers in the IB-MYP .............................................. 141
  4.1.5 Participation of teachers in IB-MYP workshops and training ......................... 142
4.2 Preliminary Study .................................................................................................. 143
4.3 Inferential Statistics .............................................................................................. 144
  4.3.1 Measurement Model / Outer Model Assessment .............................................. 144
4.4 Descriptive Statistics ............................................................................................ 156
  4.4.1 Variable of Teachers’ Competence in Inquiry-Based Learning ................. 157
  4.4.2 Variable of Work Motivation ........................................................................... 159
4.4.3 Variable of Classroom Management ..................................................... 161
4.4.4 Variable of Critical Thinking ................................................................. 162
4.5 Structural Model Assessment (Inner Model) ............................................. 164
  4.5.1 Assessment of Multi-Collinearity .......................................................... 164
  4.5.2 Coefficient of Determination Assessment ........................................... 164
4.6 Testing of hypothesis .................................................................................. 168
4.7 Discussion on the effect of the variables .................................................... 171
  4.7.1 Work Motivation towards Teachers Competence in IBL ...................... 171
  4.7.2 Classroom Management towards Teachers Competence in IBL ......... 172
  4.7.3 Critical Thinking Skills towards Teachers Competence in IBL ......... 173
  4.7.4 Work Motivation towards Classroom Management ......................... 173
  4.7.5 Work Motivation towards Critical Thinking Skills ............................ 174
  4.7.6 Classroom Management towards Critical Thinking Skills ............... 174
4.8 Discussion of the data analysis of the variables ........................................ 175
4.9 Results of the interview ............................................................................ 176
4.10 Lesson learnt .............................................................................................. 177
4.11 Limitations of the research ......................................................................... 178
CHAPTER V: CONCLUSIONS AND IMPLICATIONS ....................................... 180
  5.1 Conclusion .................................................................................................. 180
  5.2 Implications ................................................................................................ 182
  5.3 Recommendations for future research .................................................... 184
