ACKNOWLEDGEMENT

May all glory be to the Lord Almighty for His countless blessings, continuous guidance and love that made it possible for this thesis entitled “The Impact of Gender-Diverse Monitoring Personnel on Financial Reporting Quality” to be completed well and according to His will. This thesis is written to attain the Bachelor Degree in Accounting at the Business School of Universitas Pelita Harapan, Lippo Village, Tangerang, Banten. The writer realises that without the continuous support and guidance from all parties, this thesis could not have been done well. On that note, the writer wishes to thank and give the highest respect to these names written:

1. Dra. Gracia Shinta S. Ugut, M.B.A., Ph.D., as the Dean of Business School, Universitas Pelita Harapan.
2. Dr. Antonius Herusetya, Ak., M.M., CA., as the Head of Study Program of Accounting.
3. The supervisor of this thesis, Dr. Antonius Herusetya, Ak., M.M., CA., for his time, guidance, and patience since the beginning of this thesis.
4. The academic advisor, Dr. Antonius Herusetya, Ak., M.M., CA., for his guidance throughout my studies in UPH.
5. All the lecturers and staff at UPH for their support and continuous help throughout my studies in UPH.
6. The writer’s parents, big brother, and family friends for their continuous love, support and advice.

7. The writer's best friends Debby, Billy, Ricky, Daniel, Edmund for their never-ending support, and for providing a shoulder to lean on at all times.
8. Friends in UPH Cindy, Evalia, Giffin, Juliana, Monica, Nikki, Tamara, and Tesalia for their support and all the laughter that helped writer get through university's life.
9. The writer's mentor, Dylan, who has been there in times of need, guiding his mentees every step of the way since semester 1.
10. Friends from AKUN 2: Claudia, Elia, Elleta, Endrico, Jackie, Lim Hyeman, Meiliska, and Phoeby.
11. Fellow classmates in A class Accounting 2015 who have been through this journey together in UPH since the beginning.

The writer also realises that this thesis is still far from perfection, and wishes to receive any critics, advices, and suggestions as an input for the writer to improve in the future.

Lastly, the writer wishes that this thesis could be helpful in any way and may be put to good use.

Lippo Village, 9 May 2019

ACKNOWLEDGEMENT ..... **vi**

TABLE OF CONTENTS ..... **viii**

LIST OF FIGURES ..... **xii**

LIST OF TABLES ..... **xiii**

CHAPTER I INTRODUCTION

1.1 Background 1

1.2 Research Problem 8

1.3 Research Objective 9

1.4 Significance of the Study 9

1.5 Scope of the Study 10

1.6 Systematic Discussion 11

CHAPTER II THEORETICAL FRAMEWORK AND HYPOTHESIS DEVELOPMENT

2.1 Basic Concept Definition 13

2.1.1 Financial Reporting Quality 13

2.1.1.1 Earnings Management 16

2.1.2 Corporate Governance 19

2.1.2.1 Corporate Boards 21

2.1.2.1.1 Board of Commissioner 21

2.1.2.1.2 Board of Directors 22
2.1.2.2 Audit Committee 24
2.1.2.3 External Auditor 26
2.2 Literature Review 28
2.3 Conceptual Framework 35
2.4 Hypothesis Development 36
2.4.1 The impact of gender diversity in monitoring personnel towards financial reporting quality 36
CHAPTER III RESEARCH METHODOLOGY
3.1 Population and Sample 42
3.2 Empirical Model 44
3.3 Operational Variable Definition 45
3.3.1 Dependent Variable (Financial Reporting Quality) 45
3.3.2 Independent Variable (Gender-Diverse Monitoring Personnel) 47
3.3.3 Moderating Variable 48
3.3.4 Control Variables 49
3.3.4.1 Size (SIZE) 49
3.3.4.2 Leverage (LEV) 50
3.3.4.3 Sales Growth (SGROWTH) 50
3.3.4.4 Cash Flow from Operations (CFO) 51
3.3.4.5 Big Four (BIG4) 51
3.4 Method of Data Analysis 52
3.4.1 Descriptive Statistics 52

3.4.2 Correlation Analysis 53
3.4.3 Test of Classical Assumption 53
3.4.3.1 Normality Test 54
3.4.3.2 Multicollinearity 54
3.4.3.3 Heteroscedasticity Test 55
3.4.4 Hypothesis Testing 56
3.4.4.1 ANOVA or F-Statistics 56
3.4.4.2 Coefficient of Determination (R-Squared) 57
3.4.4.3 t-Statistics 57
CHAPTER IV RESULTS AND DISCUSSION
4.1 Descriptive Statistics 58
4.2 Correlation Analysis 61
4.3 Test of Classical Assumption 64
4.3.1 Normality 64
4.3.2 Multicollinearity 67
4.3.3 Heteroscedasticity – White and Breusch-Pagan Test 69
4.4 Hypothesis Testing 71
4.4.1 Result of Hypothesis Testing for Model 1 71
4.4.1.1 ANOVA or F-Statistics 72
4.4.1.2 Coefficient of Determination (R-Squared) 72
4.4.1.3 t-Statistics 73
4.4.1.3.1 t-Statistics for Hypothesis 1 73
4.4.1.3.2 t-Statistics for Hypothesis 2 75

4.4.1.3.3 t-Statistics for Hypothesis 3 76

4.4.1.3.4 t-Statistics for Control Variables..... 77

4.4.2 Result of Hypothesis Testing for Model 2..... 77

4.4.2.1 ANOVA or F-Statistics..... 78

4.4.2.2 Coefficient of Determination (R-Squared)..... 79

4.4.2.3 t-Statistics..... 79

4.4.2.3.1 t-Statistics for Independent Variables 79

4.4.2.3.2 t-Statistics for Interaction Variables..... 81

4.4.2.3.3 t-Statistics for Control Variables..... 82

CHAPTER V CONCLUSION AND RECOMMENDATION

5.1 Conclusion..... 84

5.2 Research Limitations..... 85

5.3 Recommendation..... 87
