BIBLICAL CONCEPTS IN TEACHING ENGLISH FOR SECONDARY LEVEL

(x + 23 pages: - figures; 3 tables; 7 appendices)

The Bible as the absolute truth is the foundation in Christian schools. Therefore, every subject in schools has to rely on the Biblical concept. The purpose of this study is to describe the importance of Biblical concepts in English lessons and discuss the ways to integrate Biblical concepts in the English class. The research method of this research is qualitative descriptive. The results of this research show that integrating Biblical concepts is important because of three reasons: to develop students' spirituality, teach according to a Christian perspective, and use English to glorify God. By integrating Biblical concepts in English class, students do not only spiritually grow to be a better Christian but also understand the complexity of the English language that has been gifted to humankind. Teachers can use the lesson plan, devotional lecturer, disciplining students based on Biblical concepts, and project-based. The researcher suggests Christian schools make a routine training on how to integrate Biblical concepts in the classroom. For the English teachers, it is suggested to find more references for integrating Biblical concepts. It is also suggested for future researchers to discuss how to integrate a Biblical concept if there are non Christian students.

Keywords: Christian schools, English subject, English teachers, integrating Biblical Concepts
