

## ACKNOWLEDGEMENTS

To begin, I want to express my gratitude to God for His blessings of love and wisdom, for His magnificent timing in abundance and opportunity, and for the gift He has bestowed upon me: the privilege of having access to sufficient resources to help me cross the finish line despite being in the midst of the COVID-19 pandemic. With great relief, happiness, and an overflowing sense of gratitude, I can report that this thesis, titled "THE IMPACT OF FUNCTIONAL BRAND QUALITIES AND INTANGIBLE BRAND QUALITIES TOWARDS PERCEIVED VALUE FOR TOYOTA IN INDONESIA," was completed on time as a requirement for obtaining the bachelor's degree (Sarjana S1) in Management Study Program from the Faculty of Economics and Business at Universitas Pelita Harapan. This could not have been accomplished without the countless blessing God has bestowed upon me, as well as the significant contribution and support of the crucial individuals in my life. Thus, I would want to express my heartfelt appreciation to individuals who have made significant contributions to my research endeavors:

1. Dra. Gracia Shinta S. Ugut, M.B.A., Ph.D., as the Dean of the Faculty of Economics and Business at Universitas Pelita Harapan
2. Vina Christina Nugroho S.E., M.M. as the Department Chair of Management.
3. Dr. Ir. Evo S. Hariandja, M.M., as AOE of Marketing.

With that said, the researcher is well aware that this thesis is far from perfect. Thus, the researcher gratefully accepts all comments, criticisms, and insight in the hope that this work may be valuable for future research.
