### **THE INFLUENCE OF GOOD CORPORATE GOVERNANCE ON COMPANY FINANCIAL PERFORMANCE**

(xvii + 73 page; 1 Picture; 11 Table; 5 Attachment)

The purpose of this research is to analyze the influence of good corporate governance toward company financial performance. Corporate governance is proxied by independent commissioners, audit committee quality, and institutional ownership. The company's financial performance is proxied by return on asset. The data in this study is secondary data, which is consumer goods companies listed on the IDX for the 2018-2020 period. The method used in this research is purposive sampling method. The samples obtained in this study were 128 samples with 44 companies in the consumer goods sector. The results show that independent board of commissioners and institutional ownership affect the company's financial performance, while the quality of the audit committee has no effect on the company's financial performance.
