PT FREEPORT INDONESIA'S EXTERNAL CORPORATE COMMUNICATION ROLE IN BUILDING CORPORATE BRANDING

(xiv + 90 pages; 42 pictures; 11 attachments)

Keywords : Public Relations, External, Internal, Corporate Communication, Corporate Branding, Generation Z, Social Media

Communication is one of the essential factors in a company. Public Relations becomes one of the communication activities involved within the company. In a company, public relations play an important role in the process of corporate branding towards the public. In this case, communication is distinguished into internal and external communication. Internal communication involves employees program, while external communication is through media, which is social media.

PT. Freeport Indonesia is a company in the copper mining sector. The purpose of this internship is to discover the role of external communication of PT. Freeport Indonesia in the effort of corporate branding, and to learn external corporate communication activities in PT. Freeport Indonesia. The activities conducted by the Intern include producing social media content, holding webinars, which collaborated with education institutions, and managing competitions on certain events.

The intern is placed in the external affairs division which oversees the external corporate communication division, and these divisions are directly related to the public relations activities. The intern had the tasks of conducting a wording review for the company's social media, conducting a survey to Generation Z about their view towards PT Freeport Indonesia, making an editorial plan, drafting a public relations concept, and other public relations activities involved. The Intern also learn other activities, such as media relations, paid media, and media monitoring.
