UNIVERSITAS PELITA HARAPAN SPORTS DEPARTMENT WEBSITE

(xvi+80 pages : 44 pictures; 17 tables; 4 appendices)

Nowadays, the spread of information through brochure or flyer start to be avoided. Most people who receive a brochure or flyer immediately throw it into trash. Besides, it needs a lot of additional fee to print brochure or flyer. It is one of the reasons why most of the people today prefer spreading the information through internet, such as through social medias and certain websites.

Universitas Pelita Harapan Sport Department is one of the organizations that still use brochures and putting up poster on information board in every department to spread the information. Website is the solution for this problem. By using this website, Universitas Pelita Harapan Sports Department no longer need to distribute brochures or flyers to spread the information. Universitas Pelita Harapan Sports Department just need to put the information on the website.

The students of Universitas Pelita Harapan only need to open this website to get some informations. Besides, students can register themself for joining some event that is held by Universitas Pelita Harapan Sport Department through this website. This website is made by using some language such as PHP, HTML, CSS, and JavaScript. Meanwhile, MySQL is used for this website’s database system.
