THE DEVELOPMENT OF THE BOYS BRIGADE SENIOR PROGRAMME HANDBOOK BASED ON THE INTEPRETATION OF GOD'S GRAND NARRATIVE

(xiv + 82 pages; 7 figures; 14 tables; 18 appendices)

Handbook is not intended to provide only a set of rules, but is expected to be a guide to provide a foundation, sense of security and confidence in living together as a community in Christ. The senior program handbook is used as a guide for the scouting movement of the Boys Brigade Indonesia for junior and senior high school students. Boys Brigade is a youth scouting movement for Christian youth from more than 50 Christian schools in Indonesia. However, based on direct interviews with two supervisors from two different schools and an advisor, Focus Group Discussion (FGD), and indirect interviews with the President of BB Indonesia, a development is needed in the current activity guidebook. This study uses research and development methods, specifically the Borg and Gall model which was modified to the seventh stage according to the needs of the researcher. This research resulted in a product in the form of a handbook based on micro-tests to officers and members as well as direct interviews with the NCO. seniors of The Boys' Brigade. for The Boys Brigade senior program based on a grand narrative.
