ABSTRACT

Carissa Sherilyn (03081180032)

DESIGN OF SUPPLY CHAIN MANAGEMENT SYSTEM IN CAFE CENT COFFEE BASED ON WEBSITE

(xvi + 136; 91; 38; 51)

In practice, Cafe Cent Coffee often uses inefficient and ineffective conventional methods in supporting their raw material procurement process. One solution that can be implemented to Cafe Cent Coffee to solve problems in their business processes is to implement a Supply Chain Management System. Through the development of the Supply Chain Management System, Cafe Cent Coffee can integrate all processes in the cafe well so that each part can be connected to each other from customers, service departments, chefs, cashiers, warehouses, suppliers, and leaders so as to speed up menu ordering services. food, overcoming errors in the inventory re-stocking process and calculating total sales more accurately. The Supply Chain Management System that was built can integrate all business processes from Cafe Cent Coffee to be more structured and synchronized as well as more effective and efficient between every part of the cafe with suppliers.
