CRIMINATION IN COURT DECISION NUMBER 636/ Pid.Sus/2021/PN Pdg. PERSPECTIVE OF DONATE JUSTICE THEORY

(xvi+102 pages, 1 pictures)

Advances in information technology, especially internet media, are felt to provide many benefits such as in terms of security, convenience and speed. A simple example, by using the internet as a supporting tool in booking/reserving tickets (airplanes, trains), hotels, paying telephone bills, electricity, has made consumers more comfortable and safe in carrying out their activities. Based on the verdict file of the criminal case that was tried at the Padang District Court, it was known that the defendant was Andrio Agusta Pgl. Rio is 39 years old, Muslim, Indonesian citizen, male, and lives in Talago, Taeh Bukik Village, Payakumbuh District, Lima Pulu Kota Regency, West Sumatra. Normative legal research is doctrinal legal research, also called library research or study documents. On March 4, 2021, Br. Andrio said goodbye to Payakumbuh and then the witness asked for his money and Fee from their two businesses, but the witness was only promised that it would be followed up and resolved in court because the existing provisions were clear. If it is found that there is an alleged criminal act of threatening through technology, it can be seen whether the action taken really fulfills the element of intentionally, without rights, sending something that contains threats of violence or intimidation. Mr. Andrio said goodbye to Payakumbuh and then the witness asked for the money and Fee from their two businesses but the witness was only promised by the Defendant while the money and fees had never been given even the Defendant Andrio Agusta never returned to see witness Annisa Yohana Fitri to the rented or came to see witness Annisa Yohanna Fitri. . Every time Witness Annisa asks for money that the Defendant has borrowed, the Defendant immediately sends Witness Annisa her photo containing/violating decency via Whatsapp. The application in Decision Number 636/Pid.Sus/2021/PN.Pdg has been implemented properly.
