ANALYSIS OF THE EFFECT OF MARKET ORIENTATION ON PERFORMANCE OF SMALL BUSINESS WITH PROSPECTOR AND DEFENDER STRATEGY IN JAKARTA

(XIII + 58 pages; 13 tables; 2 images; 1 appendix)

This study is conducted to obtain empirical evidence about the relation of market orientation to performance of small business with prospector and defender strategy. The object of this research is 208 respondents who have a business in Jakarta that has been operating for more than three years. The sampling technique was using the convenience sampling method. Data was collected by using questionnaires via google form. The tool used to analyze the data is SmartPLS with external and internal measurement models. The results showed that market orientation had a positive effect on the prospector strategy and defender strategy, and the prospector strategy and defender strategy had a positive effect on the performance of small business.
