THE EFFECT OF THE GOOD CORPORATE GOVERNANCE MECHANISM AND FINANCIAL PERFORMANCE ON COMPANY VALUE IN THE MANUFACTURING SECTOR LISTED ON THE INDONESIA STOCK EXCHANGE FOR THE 2017-2021 PERIOD.

(xiv + 85 pages, 2 figures, 13 tables, 5 attachments)

This research was conducted to determine the effect of good corporate governance mechanisms and financial performance on firm value. The population used in this study are manufacturing sector companies listed on the Indonesia Stock Exchange during the 2017-2021 period. The selection of the sample was carried out based on a purposive sampling technique with the criteria of all manufacturing companies listed on the Indonesia Stock Exchange during the 2017-2021 period and companies that provide complete information on all the variables used in the study. Thus, a total sample of 50 manufacturing companies was obtained. The analytical method used is multiple linear regression analysis. Testing the hypothesis by using the t-test with the results showing the board of independent commissioners has a positive effect on firm value, audit committee has a negative effect on firm value, managerial ownership has a negative effect on firm value, institutional ownership has a negative effect on firm value, financial performance has a positive effect on firm value.
