Analysis of Working Capital Turnover, Productivity, Profitability, Leverage, and Liquidity on Company Efficiency in Coal Companies Listed on the Indonesia Stock Exchange in 2017-2021.

(xi + 79 pages; 2 figures; 11 tables; appendix)

This study was conducted with the aim of knowing the effect of working capital turnover, productivity, profitability, leverage, and liquidity on company efficiency in coal companies in Indonesia listed on the Indonesia Stock Exchange (IDX). This study used 9 (nine) coal companies from 2017 to 2021 as research subjects. This study obtained secondary data from the S&P Capital IQ website, the annual report of each research subject, and the Indonesia Stock Exchange website. The results of this study show that profitability and leverage have a positive influence on company efficiency, while working capital turnover, productivity, and liquidity do not have a positive influence on company efficiency.

Keywords: *Profitability, Leverage, Working Capital Turnover, Productivity, Liquidity, Company Efficiency, Coal*
