THE EFFECT OF *SERVANT LEADERSHIP*, *SELF-EFFICACY*, AND WORK DISCIPLINE ON TEACHER PERFORMANCE AT XYZ PRIVATE SCHOOL IN LAMPUNG

(xiv + 102 pages; 17 pictures; 18 tables; 13 attachments)

Education has a major contribution in the progress of a country. Quality of education produces human resources who are competent and capable of innovation. Teachers as the spearhead of education in schools play an active role in growing students' knowledge, skills and affection through the learning process. The complexity of the teacher's task requires confidence and discipline in doing the part that is the teacher's responsibility. Leaders in schools have a big contribution in building teacher confidence and discipline in working so that good performance is achieved. This study aims to analyze the influence of *servant leadership*, *self-efficacy*, work discipline on teacher performance. The study was conducted on 84 teachers in five XYZ private schools in Lampung which were determined by simple random sampling technique. Quantitative research approach with path analysis model. Data analysis was performed using SmartPLS version 4. The results showed that *servant leadership* has a positive effect on teacher performance, *self-efficacy* has a positive effect on teacher performance, *servant leadership* has a positive effect on work discipline, *self-efficacy* has a positive effect on work discipline, *servant leadership* has a positive effect positive effect on teacher performance by mediating work discipline, *self-efficacy* has a positive effect on teacher performance by mediating work discipline.

Keywords: *self-efficacy*, *servant leadership*, teacher performance, work discipline
