ANALYSIS OF THE INFLUENCE OF FOOD QUALITY, MENU VARIETY, HEALTH ORIENTED, CONVENIENCE AND REASONABLE PRICE ON REPURCHASE INTENTION THROUGH PERCEIVED VALUE IN THE COFFEE CROWD IN MEDAN

(xvii+97 page; 6 figures; 29 tablea; 18 appendices)

Currently, the development of the business world is increasingly rapid, both culinary businesses are very diverse, from cafes or coffee shops, restaurants, food courts to street vendors in the city of Medan. These cafes, restaurants and small stalls are culinary delights that compete to provide a variety of easy-to- serve foods and drinks for visiting consumers. This coffee crowd is a place for workers, students spend time just hanging out with their friends or doing their assignments.

This research aims to determine the analysis of the influence of food quality, menu variety, health oriented, convenience and reasonable price on repurchase intention through perceived value in the coffee crowd in Medan. The population of this study was 65 UPH students at Coffee Crowd Medan. The sample for this research was 65 UPH students at Coffee Crowd Medan. Processing and analyzing data in this research is by using Eviews Version 13 as software for processing data.

These empirical findings indicate that food quality (product quality) has a significant effect on the perceived value of Coffee Crowd Medan consumers. Menu Variety has a significant effect on perceived value among Coffee Crowd Medan consumers. Health oriented has a significant effect on the perceived value of Coffee Crowd Medan consumers. Convenience does not have a significant effect on perceived value among Coffee Crowd Medan consumers. Reasonable Price does not have a significant effect on perceived value among Coffee Crowd Medan consumers. Perceived value has a significant effect on purchasing interest among Coffee Crowd Medan consumers.

Keywords: *Food quality (product quality), Menu Variety, Health oriented, Convenience, Reasonable Price, Perceived value and Purchase Interest.*
