"THE INFLUENCE OF THE USE OF SOCIAL MEDIA, DESTINATION PERSONALITY, DESTINATION IMAGE AND SELF CONGRUITY ON THE BEHAVIOR OF INTENTION TO VISIT LABUAN BAJO"

(79 pages + 18 table + 5 figure + 3 attachment)

The tourism sector in Indonesia still has a low contribution to gross domestic income when compared to other countries in ASEAN, therefore the tourism sector in Indonesia has the potential to continue to be developed and of course can contribute more to the economy. This research aims to analyze the influence of Social Media use, Destination Personality, Destination Image and self-congruity on Behavioral Intention to visit Labuan Bajo. This research was conducted on 173 respondents who had visited tourist attractions in Labuan Bajo. The method used is quantitative with the SEM-PLS analysis technique. The research results show that the use of Social Media, Destination Personality and self-congruity can influence Behavioral Intention to visit Labuan Bajo significantly and positively. However, Destination Image cannot have a significant influence on Behavioral Intention to visit.
