

Verasari, Reny Rima. 2005. Revitalisasi Stasiun Kota. Skripsi, Departement of Architecture Engineering, Undergraduate. UPH Karawaci. Mentor: (1) DR. Bianpoen (2) Ir. Manlian Ronald A, MT, IAI.

Key words: Station

Nowdays the value of stasiun Kota decrease, the activity inside not encourage that the building is conserved. The conservation of Kota area since 1972 but it didn't work very well. Kota Area is left behind but the busiest activity happen in stasiun Kota which remain the first functin; stasion.

Therefore the stasiun Kota needs revitalization which is additional function to the existing building and design the extention to encourage the transportation activity.
