Major Advisor: Marully Tanujaya  
Co Advisor : Hermanto

Nowadays, business has become more competitive. Many companies are born and bankrupt. One of the crucial aspects to the existence of companies is the employees.

Knowing this reality, PT Multipolar planned to give some bonus to its employees to improve their performance and loyalty to company and to improve the company's own performance, regarding on their work

This program application is to give support to PT Multipolar in order to observe the performance of their employees. There are some steps that involved in the computation, they are the performance of the employees and some regulation from the company to get a worthy bonus for it's employees.

By using this program, simplicity and efficiency will be gotten. Only by using one button, it will give the information needed quickly.
