

## **ACKNOWLEDGEMENTS**

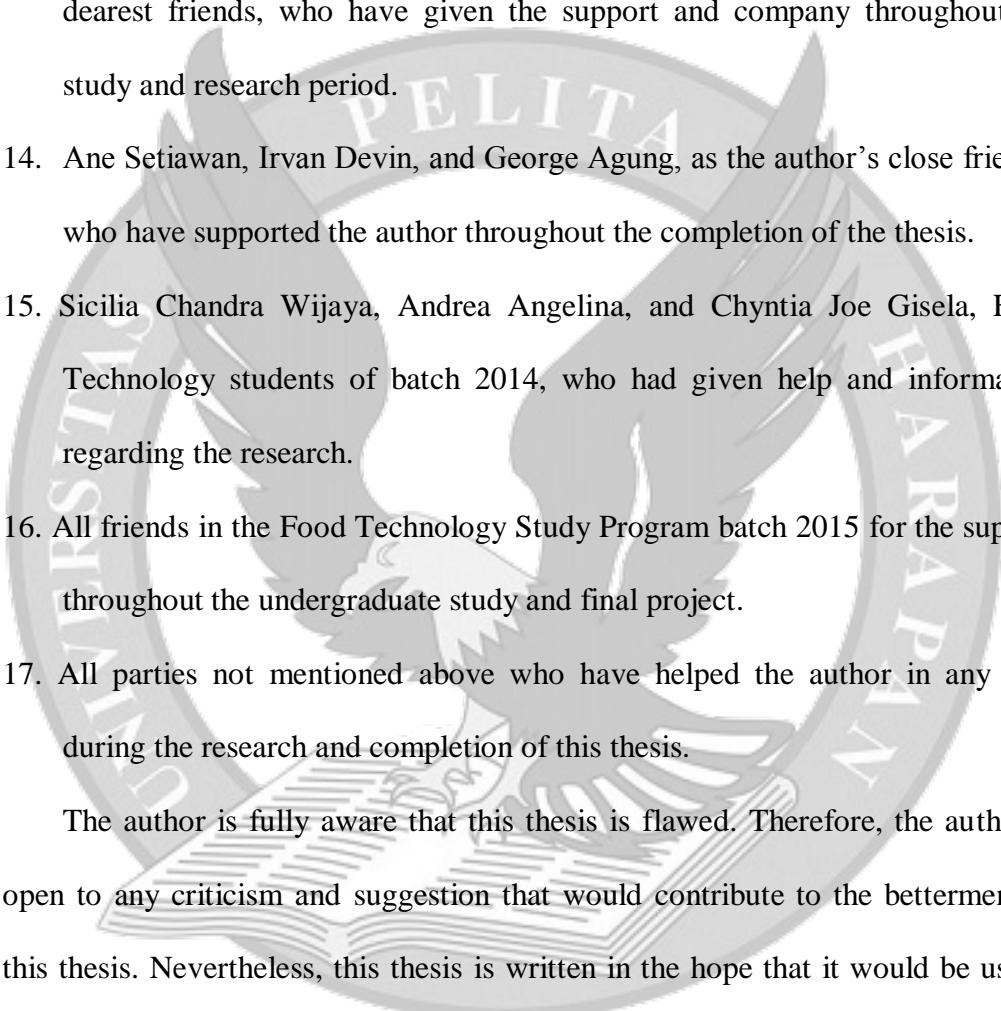

Praise and gratitude to Jesus Christ, only by His grace and blessings that this report titled “OPTIMIZATION OF FLAVOR ACCEPTANCE OF *MATCHA CAJUPUTS® CANDY WITH THE ADDITION OF OTHER FLAVORINGS*” can be completed well and in time.

This final report is prepared based on the research that had been done from August 2018 to December 2018. Final project is a final requirement for students who pursue Food Technology Study Program in the Faculty of Science and Technology, Universitas Pelita Harapan.

The author humbly realizes that this research and thesis would not be possible to be completed without the help and support of many people. Therefore, the author would like to express the sincerest gratitude to the people listed below who had given their valuable support and guidance, including:

1. Mr. Eric Jobilong, Ph.D., as the Dean of Faculty of Science and Technology.
2. Mrs. Dela Rosa, M.M., M.Sc., Apt., as the Vice Dean of Faculty of Science and Technology.
3. Mr. Laurence, M.T., as the Director of Administration and Student Affair of Faculty of Science and Technology.
4. Ir. W. Donald R. Pokatong, Ph.D., as the Head of the Food Technology Study Program, Faculty of Science and Technology, Universitas Pelita Harapan.

- 
5. Prof. Dr. Ir. C. Hanny Wijaya, M.Agr., as final project supervisor who have provided the author with guidance and support as well as valuable knowledge throughout the final project completion period.
  6. Ms. Lucia C. Soedirga, M.Sc., as final project co-supervisor who have generously and thoughtfully given the author the time, support, and guidance throughout the final project period.
  7. Mrs. Natania, M.Eng., Head of Food Processing Laboratory, Yuniwati Halim, M.Sc., Head of Quality Control and Research Laboratories, Dr. Tagor M. Siregar, M.Si, Head of Chemistry Laboratory, and Dr. Adolf Parhusip, Head of Microbiology Laboratory, who had given permission for the author to conduct the research in the respective laboratories.
  8. Mr. Adzie, Mr. Adi, Mr. Darius, and Mr. Yosafat, for the help and assistance given throughout the research period in the laboratories.
  9. All the lecturers in the Food Technology Study Program of Universitas Pelita Harapan who had taught the valuable knowledge and lessons that have helped in the completion of the research and thesis.
  10. Beloved parents, Jimmy Darwis and Yohana Francine, to whom the author had owed for the priceless support throughout this undergraduate study.
  11. Gabriella Permata Heru, Naomi Nerisha, Jane Ivena, Michelle Adeline, and Marsha Chrestella, as co-supervised research partners, for the support and assistance throughout the final project period.

- 
12. All 35 panelists who had been willing to provide the time and help throughout the panel selection period in the research, without whom this thesis could not be completed.
  13. Cynthia Saputra, Nathania Sofie, Angeline Vania, and Teresa, as the author's dearest friends, who have given the support and company throughout the study and research period.
  14. Ane Setiawan, Irvan Devin, and George Agung, as the author's close friends, who have supported the author throughout the completion of the thesis.
  15. Sicilia Chandra Wijaya, Andrea Angelina, and Chyntia Joe Gisela, Food Technology students of batch 2014, who had given help and information regarding the research.
  16. All friends in the Food Technology Study Program batch 2015 for the support throughout the undergraduate study and final project.
  17. All parties not mentioned above who have helped the author in any way during the research and completion of this thesis.

The author is fully aware that this thesis is flawed. Therefore, the author is open to any criticism and suggestion that would contribute to the betterment of this thesis. Nevertheless, this thesis is written in the hope that it would be useful for the readers. With this, the author expresses gratitude.
