

ACKNOWLEDGMENTS

Praise the Lord Jesus Christ for His grace, blessings, guidance and helps so that the author can complete the thesis report entitled “DEVELOPMENT OF CLOVE (*Syzygium aromaticum*) BASED FOOD SANITIZER”.

This thesis report were written based on the research that has been done from August 2018 until November 2018. This thesis report were written in order to fulfill the requirement from the university to graduate and obtain a bachelor degree from Food Technology department.

The research and this thesis report were completed with the support, prayers, assistance, and guidance from many parties. The author would like to give a sincere gratitude and appreciation to:

1. Eric Jobiliong, Ph.D as the Dean of Faculty of Science and Technology.
2. Dela Rosa, S.Si., M.M., M.Sc., Apt. as Vice Dean of Faculty of Science and Technology.
3. Laurence, M.T as the Director of Faculty of Science and Technology.
4. Ir. W. Donald R. Pokatong, M.Sc., Ph. D as the Head of Food Technology study program, for the approval of this report.
5. Ratna Handayani, MP as Vice Head of Food Technology Study Program.
6. Natania, M.Eng. as thesis supervisors and Head of Food Processing Laboratories, for providing time, guidance, and advice throughout research and report completion.

7. Yuniwaty Halim, M.Sc., Dr. Adolf J. N. Parnhusip, M.Si., and Dr. Tagor M. Siregar, M.Si., as Heads of Quality Control, Research, Microbiology, and Chemistry Laboratories, respectively.
8. Esther, S.T.P., Christopher Imasantoso Rimba, S.T.P., Yosafat Rudju, Adzie, Adhi, and Darius for the help and information during the work in the laboratories.
9. All other lecturers, lecturers assistant, and staffs in Food Technology Study Program for the support and help given to the author during thesis project.
10. Beloved parents, Luckyto Suryadi and Henny Luciana Tjandra, and little sister, Gladys, for the unlimited support, love, and prayers given to the author during the completion of thesis.
11. Joanina, Jennifer Alvionita, Giovanin Fransisca, and Jordan Bernando as author's thesis partners, for the support, help, and jokes from the beginning until the end of the thesis.
12. Carinna Ruth Darmawan, Felicia Agustin, and Tiffany Nathalie for the love, support, help, and joy during years of study at Universitas Pelita Harapan.
13. Kavin Christianto and Nelson, for the support, love and encouragement given during the completion of thesis.
14. Vanessa and Clairine as friends under same supervision for the support.
15. All members of Food Technology 2015, especially Class C, who had also conducted the thesis project, for the shared experiences, helps and discussions.

16. All friends and relatives whose cannot be mentioned one by one, for the support during the thesis completion.

The author realizes that this report is far from perfect and wants to apologize if unintended things were done and happened during the research process and completion of this report. Furthermore, the author wants to say big thank you for all the guidance, support, suggestions, and prayer so that the thesis project and report were done well. Any critics and suggestions for this report would be very appreciated and welcome. The author hopes that this report might be useful for the readers. Thank you.

Tangerang, December 2018

Gracia Angelina Suryadi

COVER	
STATEMENT OF THESIS AUTHENTICITY	
APPROVAL BY THESIS SUPERVISOR	
APPROVAL BY THESIS EXAMINATION COMMITTEE	
ABSTRACT.....	iv
ACKNOWLEDGEMENTS.....	v
TABLE OF CONTENTS.....	viii
LIST OF FIGURES.....	xii
LIST OF TABLES.....	xiii
LIST OF APPENDICES.....	xiv
CHAPTER I INTRODUCTION	
1.1 Background.....	1
1.2 Research Problem.....	3
1.3 Objectives.....	3
1.3.1 General Objective.....	3
1.3.2 Specific Objectives.....	3
CHAPTER II LITERATURE REVIEW	
2.1 Clove (<i>Syzygium aromaticum</i>).....	5
2.2 Extraction Method.....	6
2.2.1 Steam Distillation.....	6
2.2.2 Maceration.....	8
2.3 Antimicrobial compounds in Clove (<i>Syzygium aromaticum</i>)....	8
2.3.1 Essential Oils.....	9
2.3.2 Clove Extracts.....	11

2.4 Spoilage Microorganisms in Fruit and Vegetables	11
2.4.1 <i>Esherichia coli</i>	12
2.4.2 <i>Staphylococcus aureus</i>	12
2.4.3 <i>Aspergillus niger</i>	13
2.4.4 <i>Rhizopus stolonifer</i>	13
2.4.5 <i>Rhizopus oryzae</i>	14
2.4.6 <i>Mucor circinelloides</i>	14
2.5 Sanitizers	15
2.5.1 Food Contact Sanitizer.....	17
CHAPTER III RESEARCH METHODOLOGY	
3.1 Materials and Equipment	19
3.2 Research Methodology	19
3.2.1 Preliminary Stage.....	21
3.2.1.1 Preparation of Clove Powder	21
3.2.1.2 Clove Extraction	21
3.2.1.3 Identification of Tested Microorganisms (Engelkirk <i>et al.</i> , 2011)	24
3.2.1.4 Preparation of Working Culture (Sanla-Ead <i>et al.</i> , 2011)	25
3.2.2 Research Stage I.....	26
3.2.2.1 Determination of Minimal Inhibitory Concentration (MIC), Minimum Bactericidal Concentration (MBC) and Minimum Fungicidal Concentration (MFC) (Bloomfield, 1991).....	26
3.2.3 Research Stage II	29

3.2.3.1 Development of Clove Based Sanitizer (Maswadeh <i>et al.</i> , 2006).....	29
3.2.3.2 Challenge Test	30
3.3 Experimental Design.....	30
3.3.1 Experimental Design in Research Stage I.....	30
3.3.2 Experimental Design in Research Stage II	31
3.4 Method of Analysis.....	33
3.4.1 Yield (Mahon <i>et al.</i> , 2012).....	33
3.4.2 Physicochemical Properties	33
3.4.2.1 Color and pH (Gaurav, 2003)	34
3.4.2.2 Solubility or Homogeneity Test (Kurniawan, 2012)	35
3.4.2.3 Physical Stability Test (Ningsih <i>et al.</i> , 2017) .	35
3.4.3 Total Microorganism Test.....	35
 CHAPTER IV RESULTS AND DISCUSSIONS	
4.1 Verification of Clove Taxonomy	38
4.2 Identification of Tested Microorganisms.....	38
4.3 Determination of Yield of Clove Oil and Clove Extract	40
4.4 Determination of MIC and MBC/MFC of Clove Oil and Clove Extract against Tested Microorganism.....	42
4.5 Characteristics of Clove Based Food Sanitizer.....	45
4.5.1 Physiochemical Properties of Clove Based Food Sanitizer	46
4.5.2 Challenge Test of Clove Based Food Sanitizer by Total Plate Count (TPC)	47

CHAPTER V CONCLUSIONS AND SUGGESTIONS	
5.1 Conclusion	50
5.2 Suggestion.....	51
BIBLIOGRAPHY	52
APPENDICES	55

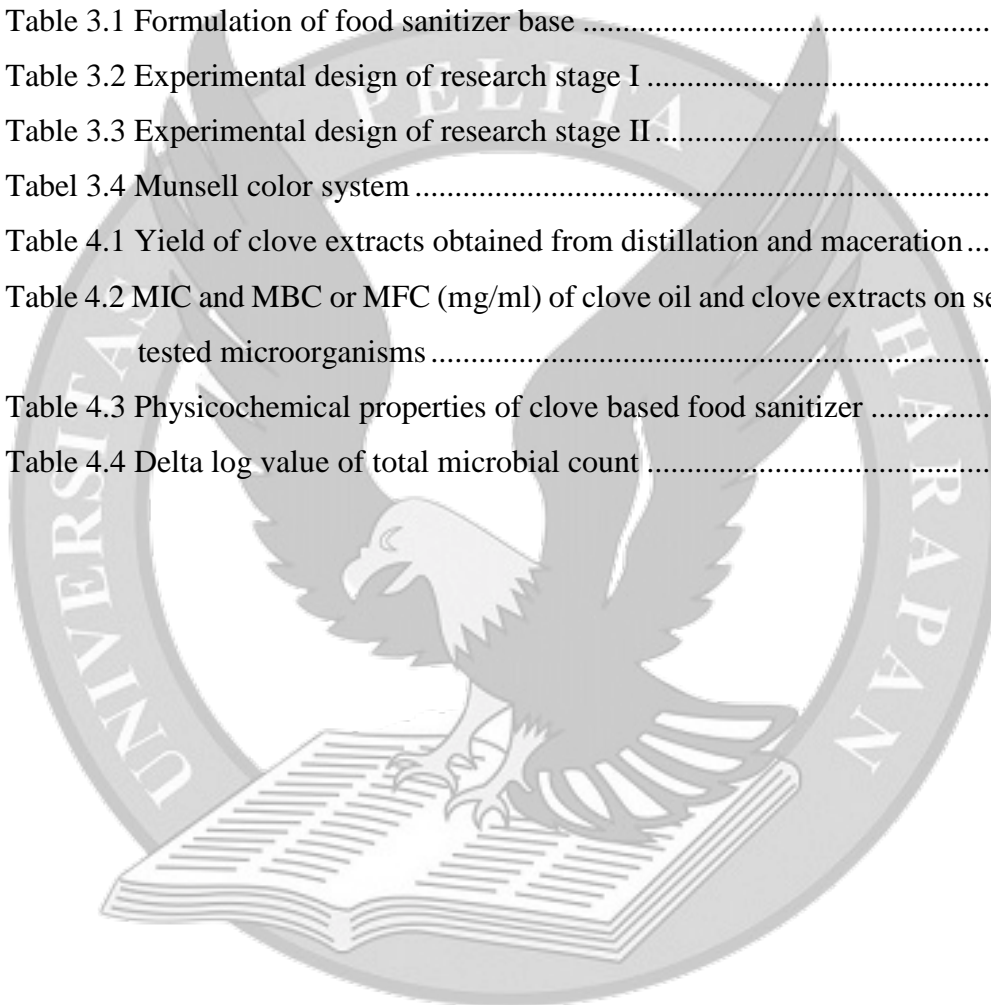

LIST OF FIGURES

	page
Figure 2.1 Fresh clove buds (<i>left</i>) and dried clove buds (<i>right</i>).....	5
Figure 2.2 Steam distillation apparatus.....	7
Figure 2.3 Clevenger-type apparatus for the hydro-distillation of essential oils.....	7
Figure 2.4 Chemical structure of eugenol.....	10
Figure 3.1 Flow chart of the research project	20
Figure 3.2 Distillation apparatus for isolation of clove oil	22
Figure 3.3 Flow diagram of isolation of clove oil.....	23
Figure 3.4 Flow diagram of clove maceration extraction	24
Figure 3.5 Determination of MIC	28
Figure 3.6 Munsell color system.....	35
Figure 4.1 Dried clove buds (<i>left</i>) and clove buds powder (<i>right</i>).....	38
Figure 4.2 Clove essential oil (<i>left</i>); clove extract (<i>right</i>).....	41
Figure 4.3 Microscopic view of clove oil sanitizer (<i>left</i>) and clove extract sanitizer (<i>right</i>).....	47

LIST OF TABLES

	page
Table 2.1 Chemical composition of clove essential oil	9
Table 2.2 Standard formula of CMC based gel sanitizer.....	16
Table 2.3 Requirements for alcohol based sanitizer	17
Table 3.1 Formulation of food sanitizer base	29
Table 3.2 Experimental design of research stage I	31
Table 3.3 Experimental design of research stage II.....	32
Tabel 3.4 Munsell color system	34
Table 4.1 Yield of clove extracts obtained from distillation and maceration	40
Table 4.2 MIC and MBC or MFC (mg/ml) of clove oil and clove extracts on several tested microorganisms	43
Table 4.3 Physicochemical properties of clove based food sanitizer	46
Table 4.4 Delta log value of total microbial count	48

LIST OF APPENDICES

	page
Appendix A. Verification of Clove Taxonomy.....	A-1
Appendix B. Gram Staining Results of Tested Microorganisms.....	B-1
Appendix C. Yield of Clove Extraction.....	C-1
Appendix D. Statistical Analysis of Distillation and Maceration Yield.....	D-1
Appendix E. Antimicrobial Activity of Clove Oil..... Antimicrobial Activity of Clove Extract.....	E-1 E-9
Appendix F. Statistical Analysis of MIC of Clove oil and Clove Extract..... Statistical Analysis of MBC or MFC of Clove oil and Clove Extract.....	F-1 F-2
Appendix G. Characteristics of Clove Based sanitizer.....	G-1
Appendix H. Total Plate Count of Strawberry..... Total Bacteria Count on Strawberries..... Total Yeast/Mold Count.....	H-1 H-1 H-3
Appendix I. Statistical Analysis of Total Bacteria Count (log CFU/g) Statistical Analysis of Total Yeast/Mold Count (log CFU/g).....	I-1 I-2
