

ACKNOWLEDGEMENT

Praise Almighty God for His love and mercy, the author would not have been able to complete his final paper without His wisdom and grace. He allowed me to learn something new that I would never be able to see if I was to do this alone.

The research paper with the title FACTORS AFFECTING BUSINESS MODEL INNOVATION AND THE RELATIONSHIP WITH FIRM PERFORMANCE has been conducted to fulfill the requirement to acquire Bachelor of Economics degree in Management Study Program. Even though this paper shows no perfection, I hope my work will be useful one day for future researchers who are willing to do further research regarding the same topic.

I would like to truly appreciate each and every one of who has helped, supported, and prayed for me to be able to finish this research paper on time. I would like to express my gratitude specifically to:

1. Gracia Shinta S. Ugut, MBA., Ph.D. as the Dean of the Faculty of Economic and Business.
2. Vina C. Nugroho, S.E., M.M. as the Head of Management Study Program.
3. Jacqueline Sandra Sembel, S.Pd., S.E., M.M. as the main supervisor.
4. Liza Handoko, S.E., M.M., who has always shown me the way in studies.
5. Kim Sung Suk as my academic advisor for a long time in UPH.

6. Everyone who helped me to complete this research.

Finally, the researchers acknowledge that this study has limitations. As a result, ideas and criticisms are greatly appreciated in order to improve the quality of this research. I hope that this research paper will be useful for a variety of objectives and help others to understand better regarding what this research paper is conveying.
