***Advisors :***

*The principle of legal certainty is needed in terms of the obligation of the bank that administers the transfer to prove a transfer error to the recipient of the wrong transfer before returning the wrong transfer of funds, where the principle of legal certainty needs to be studied as to what corporate crime is against the bank that does not comply with its obligations to prove wrongful transfers from the perspective of the Banking Law, the research was carried out with normative juridical support with empirical juridical support with a statutory approach with the results of research that the Funds Transfer Act only requires the transfer provider bank to prove a transfer error to the wrong transfer recipient before returning the funds. wrong transfer without being charged with sanctions as coercive power so that there is a void in the principle of legal certainty, the vacancy can be filled with Article 49 paragraph (1) letter c of Law Number 10 of 1998 concerning Amendment to Law Number 7 of 1992 concerning Banking by using a grammatical interpretation, where the transfer operator bank hiding evidence of wrong transfer is threatened with corporate crime in the form of imprisonment for a minimum of 5 (five) years and a maximum of 15 (fifteen) years and a fine of at least - a minimum of Rp.10,000,000,000.00 (ten billion rupiah) and a maximum of Rp.200,000,000,000.00 (two hundred billion rupiah). For this reason, it is necessary to add an article on criminal sanctions in the Funds Transfer Act against the administering bank that hides evidence of wrong transfer and the role of Bank Indonesia to add to its regulatory formulation as a guarantee that the recipient of a wrong transfer gets proof of wrong transfer from the bank that administers the transfer.*
