(STUDY ON EMPLOYEES OF PT XYZ)

(126 pages: 3 images; 21 table; 12 attachement)

This study aims to determine the effect of Empowering Leadership on Individual Innovative Behavior with Work Group Cohesiveness and Individual Learning Orientation as mediating variables. The data collection technique used a questionnaire with a Likert scale of 1-5. The object of research is PT XYZ. The sampling technique uses saturated sample technique or all members of the population are samples. The data analysis method uses PLS-SEM with an analysis tool in the form of SmartPLS 4.1.0.9 software. The research findings show that Empowering Leadership has positive effect on Individual Innovative Behaviour of employees, Work Group Cohesiveness has positive effect on Individual Innovative Behaviour of employees, Empowering Leadership has positive effect on Work Group Cohesiveness of employees, Empowering Leadership has positive effect on Individual Innovative Behaviour through Work Group Cohesiveness of employees, Individual Learning Orientation has positive effect on Individual Innovative Behaviour of employees, Empowering Leadership has positive effect on Individual Learning Orientation of employees, Work Group Cohesiveness has positive effect on Individual Learning Orientation of employees, Empowering Leadership has positive effect on Individual Innovative Behaviour through Individual Learning Orientation of employees and Work Group Cohesiveness has positive effect on Individual Innovative Behaviour through Individual Learning Orientation of employees.
